INTERIOR DESIGN

A 7-speed dual-clutch transmission (DCT)
B Monoform sport seat
C Boot space 354L (Hybrid powertrain) / 422L (Petrol engine)
D New steering wheel

The Juke's cabin is designed around the driver, with close attention to every detail. The 12.3" infotainment screen is angled towards the driver for a more intuitive and connected user experience while the new leatherette steering wheel* and Alcantara® upholstery* refines the cabin experience. Take your seat and enjoy a memorable driving experience.

* Feature available depending on version, as standard or only as option (at an extra charge)

TECHNOLOGIES

DRIVER ASSIST TECHNOLOGIES(1)

INTELLIGENT CRUISE CONTROL
Keeps your distance by measuring the space from the vehicle ahead and controlling acceleration and deceleration to automatically maintain a suitable following distance within your set speed.

INTELLIGENT BLIND SPOT INTERVENTION
Alerts you if there's a vehicle in the blind spot area on either side of the car and helps bring you back into line.

INTELLIGENT LANE INTERVENTION
Warns the driver when the vehicle has left the centre of the travelling lane and helps assist the driver to return to the centre of the lane by applying the brakes to the left or right wheels individually (for a short period of time).

INTELLIGENT EMERGENCY BRAKING
With pedestrian and cyclist recognition, your Juke can monitor the surrounding area in front you for other vehicles, pedestrians and cyclists, helping avoid or reduce the risk of a collision

3D AROUND VIEW MONITOR*(1)

Fear no parking spot. Intelligent Around View Monitor[1] makes parking easier with 4 cameras providing a 360° bird's-eye view and helping you navigate those tight parking spaces.

PROPILOT ASSIST*(1)(2)

The Nissan Juke is equipped with advanced ProPILOT(1)(2) safety technologies keeping you and your passengers safe for maximum peace of mind.

* Feature available depending on version, as standard or only as option (at an extra charge)

POWERTRAIN

Hybrid Powertrain.

Get ready for hybrid thrills. The powertrain automatically selects the most efficient power source between the electric motor, the petrol engine or a combination of the two, for optimal performance and efficiency. The hybrid powertrain provides a rapid response to throttle inputs, yet cabin space remains quiet for a peaceful driving experience.

Petrol Engine.

The Juke is also available with a lightweight, 1.0-litre internal combustion engine which combines fuel economy with plenty of power for quick bursts of acceleration or long-haul motorway driving. The electronically controlled turbocharger and reduced friction design gives smooth and responsive power, while the ECO mode delivers greater efficiency. Available with manual or automatic transmission.

NISSAN SERVICES

CONTACT YOUR DEALER

NISSAN SERVICE PLANS

Every time you service with Nissan, you'll receive the highest levels of service and aftercare that you can find. We aim to be clear, transparent and offer you great value with our fixed price service packages.

The best way to ensure your services are covered is to purchase an inflation-proof Service Plan when you purchase your new Juke.

- Spread the cost with fixed, manageable monthly instalments or with a single upfront payment.
- Your Nissan is guaranteed to be seen by expert trained technicians, using only Nissan Genuine Parts
- Covered by Nissan's Customer Service Promise, where you'll benefit from continuous Nissan Roadside Assistance and more

Purchase online at nissan.co.uk/serviceplans

- .

NISSAN EXTENDED WARRANTY

A Nissan Extended Warranty offers the same cover as your original manufacturer warranty, saving upfront costs if any covered parts were to fail.

When the time comes and your manufacturer warranty ends, all you will need to do is purchase an Extended Warranty and have your Juke checked out by your Nissan dealer before the policy starts.

For more information, visit nissan.co.uk/owners/car-warranty

NISSAN ROADSIDE ASSISTANCE

All new Nissan vehicles come with free pan-European Roadside Assistance for the duration of the manufacturer warranty period. Nissan Roadside Assistance is there for you 24/7. From a flat tyre to lost keys or an accident, we help you get back on the road as fast as possible.

Plus, every time you service with Nissan, you'll get another year's roadside assistance included.

For more information on your cover, terms and conditions, visit nissan.co.uk/owners/car-breakdown-cover

(1) You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply. For terms and conditions relating to Nissan technologies, please contact your Nissan dealer. It is the driver's responsibility to stay alert, drive safely, apply speed limits and safe speed based on road conditions and remain in control of the vehicle at any time.

(2) ProPILOT Assist is available on a limited range of vehicles. ProPILOT Assist is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT Assist is intended for "Eyes on/ Hands on" for highways only (road separated by barriers). It is the driver's responsibility to stay alert, drive safely, apply speed limits and safe speed based on road conditions and remain in control of the vehicle at any time.

(3) Apple CarPlay® is a trademark of Apple Inc., registered in the U.S. and other countries and regions.. Android Auto™ and the Android Auto logo are trademarks of Google LLC.

(4) To use NissanConnect Services you need a smartphone with compatible iOS or Android operating system and a SIM card with data option from a mobile service provider. Download the free NissanConnect Services app and create a username and password. Connect your smartphone to your vehicle by logging into the NissanConnect Services app using your username and password. All services are subject to mobile network coverage. Compatible connected devices are required. The NissanConnect Services app will be renamed to MyNISSAN app in the future.

(5) NissanConnect Services are available for a limited trial/free period. Following the trial period, a paid subscription is required to continue accessing these services. For full details on pricing, subscription terms, and package availability, please visit the official Nissan website or via Nissan Store available in the application.

(6) Available only with dual-clutch transmission (DCT).

(7) In accordance with Directive 1999/99/EC.

(8) In accordance with European Directive No. 92/21, amended by Directive 95/48, the mass in running order takes into account a fuel tank filled to 90%, 68 kg for the driver, 7 kg for luggage, coolant, lubricants, the spare wheel and tools. This weight corresponds to the base version with standard equipment and increases with optional equipment.

(9) From 1 September 2018, new vehicles have been type approved using the Worldwide Harmonised Light Vehicle Test Procedure (WLTP), which replaced the New European Driving Cycle (NEDC).
Fuel consumption and CO_2 emission values measured using the WLTP procedure are, in many cases, higher than those measured under the NEDC procedure.
WLTP fuel consumption and CO_2 emission figures may vary depending on the vehicle equipment and options selected.
From 1 March 2020, WLTP CO_2 emissions have been taken into account at vehicle registration, and any applicable tax or penalty is calculated based on WLTP CO_2 values.
Full details of fuel consumption and CO_2 emission values are available on nissan.fr and from Nissan dealers.

(10) Accessories available at participating dealers only and subject to availability. While all reasonable efforts have been made to ensure the accuracy of the information provided, due to Nissan's policy of continuous product improvement all particulars are subject to constant revision and Nissan reserves the right to change, modify or withdraw any offers or products without any notice at any time. Accordingly, you should contact your local Nissan dealer for the most current information.

Nissan Genuine Accessories are covered by the new vehicle warranty of 3 years/60,000 miles (whatever comes first), if fitted by a Nissan dealer or Nissan repairer before Vehicle Handover or during the new vehicle warranty period. Genuine Accessories fitted outside of the new vehicle warranty period or by a Third Party or by the Customer are only covered by the Nissan Genuine Parts and Accessories Warranty of 12 months / unlimited mileage. Non-Genuine Nissan Accessory products' warranty coverage depends on supplier, for further information please speak to your authorised Nissan dealer.

All information correct at time of broadcast. Images and descriptions shown are for guidance purposes. In some instances photos are of non-UK specification vehicles and do not represent a specific model, grade or offer. The features shown may not be available or may not be available as standard or only as option (at an extra charge). Because of the limitations of the printing processes used, the colours shown in this brochure may differ slightly from the actual colours of the paint and interior trim materials used. Accessories are fitted postproduction and may have an impact on real world fuel (actual) consumption, CO2 and range figures.

Every effort has been made to ensure that the content of this publication is correct at the time of finalisation (October 2026). In accordance with the company's policy of continuously improving its products, Nissan reserves the right to change at any time the specification and the vehicles described and shown in this publication. Nissan dealers will be informed of any such modifications as quickly as possible. Please check with your local Nissan dealer to receive the most up-to-date information. – MY26 Juke brochure 10/2026.
