equipment and engine options

accessories

athletic design

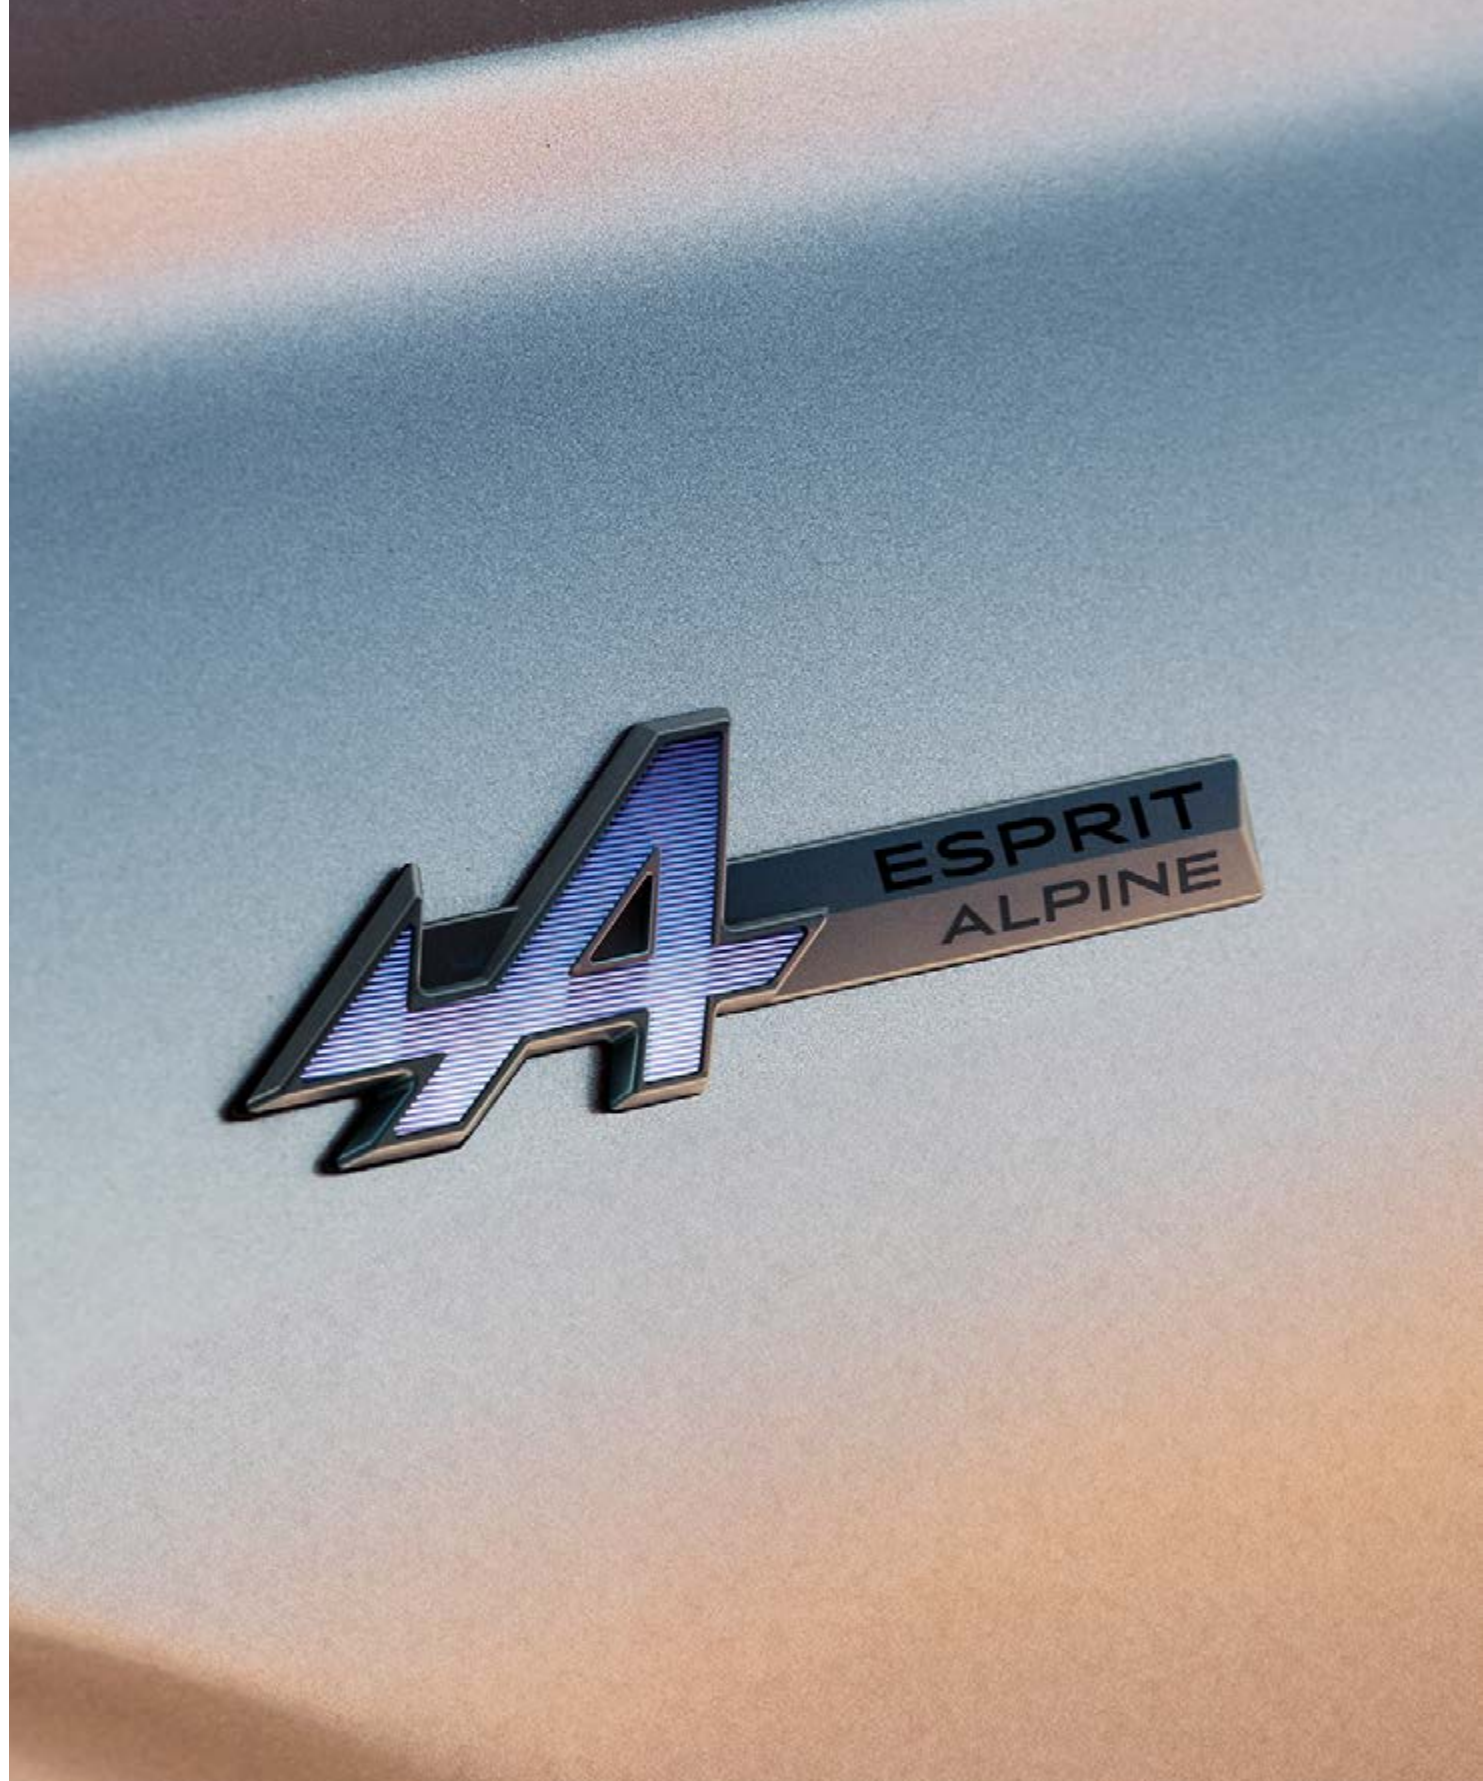

Generous curves and harmonious lines for a distinctive design. 100% LED lighting signature with adaptive vision technology. New grille, featuring a multitude of diamonds around the Renault emblem.

The esprit Alpine version asserts its dynamic look: 20" altitude black diamond-cut alloy wheels, matte shadow grey and matte satin slate grey colours, black roof and black roof bars.

20" altitude black diamond-cut alloy wheels with smoky grey clearcoat

esprit Alpine badge

There is also something of an Alpine touch in the interior: the refined textile / Alcantara® steering wheel is trimmed with blue, white and red stitching, and the fabric / Alcantara® upholstery is enhanced with an embroidered A-motif on the backrest. The aluminium pedal unit energises the cockpit.

06. advanced driving assistance systems

up to 33 advanced driver-assistance systems⁽¹⁾

active driver assist: intelligent contextual adaptive cruise control + lane centering⁽²⁾
Intelligent contextual adaptive cruise control, adapts your cruise control based off detected road signs, sharp bends and roundabouts and aligns speed based off it, plus the lane centering keeps the vehicle in its lane. If traffic stops, the vehicle will stop and restart automatically.

LED matrix vision headlights
The system automatically adjusts the light beam shape to the traffic and weather conditions to avoid glare and optimise night vision.

rear automatic emergency braking
Comes into action if it detects any obstacles whilst reversing the car, if a risk of collision is detected the brake force is increased, if the driver fails to react following an alert of an imminent collision, the system activates the brakes.

lane keeping assist
Active from 40mph, the system uses the front camera to detect unintentional crossing of a broken line (without activating the turn signal). It acts on the steering wheel to assist the driver in bringing the vehicle back into its lane.

360° around view 3D camera
The 4 cameras help recreate a 360 view of the vehicle's direct environment, allowing you to perform your parking manoeuvres effortlessly.

rear cross traffic alert
When reversing, this system warns you of a risk of collision with a vehicle.

(1) number of ADAS features is version dependant. Please see full equipment list for details by version. Always follow road safety regulations. It is your responsibility to stay alert, drive safely and be in control of the vehicle at all times. You should not solely rely on driver convenience and assistance features. Some features may not work in all conditions and circumstances, and they have speed and other limitations.
(2) for 3 years (or the duration of your Mobile Financial Services contract, excluding Hire Purchase).

**the human first program
is a comprehensive safety
programme developed by Renault
in collaboration with researchers,
experts and firefighters.**

**because road safety concerns
all road users, whether they are
pedestrians, cyclists, motorists,
the human first program by Renault
is committed to:**

**1. prevent accidents by developing safety equipment
and advanced driver-assistance and safety systems**

up to 33 advanced driver-assistance systems/more than
60 safety features, up to 7 airbags, child seats (Isofix),
Renault Fixe4sure solution / more than 2,000 safety-related
patents filed since 1970

**2. manage accidents once they have happened by drawing on
innovations developed in collaboration with the fire service**

QRescue / Fireman Access / more than 5,000 firefighters
trained over 10 years in 20 countries worldwide /
around 400 cars donated per year for their training

**3. reduce the number of accidents and their severity
by investing massively in R&D**

safety score / connected services / big data / artificial
intelligence and cybersecurity systems

Renault care service

Replace what is necessary, at the right time. Thanks to its connected and predictive maintenance features, it is easy to service your Renault Austral full hybrid E-Tech. And thanks to the My Renault app, quotes, online appointments and even service history are at your fingertips.

Thanks to the connected maintenance service, you will be notified when the scheduled maintenance of your vehicle is due and proactively alerted when it requires a workshop visit. You can also view the health of your vehicle in real time in your My Renault space. Renault has also developed systems for predicting the wear of parts. This way, the customer is kept informed of the condition of their vehicle's brakes or battery, and is prompted to replace them if necessary.
