MAKING BETTER ADVENTURES

Designed for off-road enthusiasts, the Isuzu D-Max XTR boasts outstanding capability, with a bespoke Pedders brake and suspension upgrade as standard. Plus substantial kerb appeal with a sophisticated body kit and aggressive styling.

Packed with features to keep you comfortable and in control, whatever your journey, adventures are limitless with the XTR.

BEST OFF-ROAD

"I CAN HONESTLY SAY THE OFF-ROAD CAPABILITY OF THE D-MAX XTR IS INCREDIBLE. IT LEFT ME SPEECHLESS."

FUELTOPIA

XTERIOR

Renowned for being tough, strong and reliable, the Isuzu D-Max has been taken up a notch with the sophisticated and aggressive styling features of the XTR, all designed to enhance its visual appeal.

XTR BODY KIT

The custom designed XTR body kit includes bespoke black, Raptor-coated features offering unprecedented protection and stand-out looks. The dramatic front bumper guard, bonnet protector and headlight frames all contribute to the tough presence of the XTR providing a striking appearance.

XTR BADGES & DECALS

A green and satin black XTR badge adorn both the front doors and the bottom right hand side of the tailgate, while a black D-Max badge is situated on the bottom left-hand side of the tailgate. A decorative decal surrounds the XTR badge on the tailgate and combines with the central Isuzu logo in a consistent charcoal satin finish.

UNIQUE XTR COLOUR PALETTE

Available in four colours, the XTR paint options are specifically selected to complement the distinctive vibrant green used in the vehicle detailing.

XTR SIDE STEPS

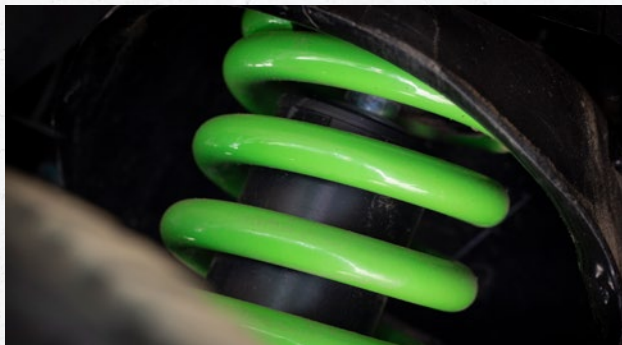

The angular bar framework and lozenge-shaped infill allows drainage for mud, sand and snow. The textured XTR side steps are tough, rugged and designed to prevent rocks and stones damaging the bodywork, whilst providing extra grip on the step surface.

PEDDERS SUSPENSION, BRAKES & PADS

Comfortable on the road and capable in the most extreme off-road situations, the XTR is equipped with bespoke Pedders suspension, increasing the ground clearance to 250mm.

The vibrant green colour has been incorporated into select components of the suspension and brake system. The front coil spring and damper, front brake caliper, rear anti-roll bar and rear dampers offer a striking flash of colour that can be seen through the alloy wheel spokes and when travelling behind the truck, making it immediately identifiable as an XTR.

The Pedders Geomet coated brake discs in the XTR are fully vented and slotted for improved heat dissipation during consistent braking. Working in combination with the Kevlar ceramic brake pads, they give a much improved braking performance, high wear resistance and up to 10% more stopping power.

As Australia's No.1 under-car specialist, Pedders offers an extensive range of suspension, steering and brake parts for high performance vehicles.

XTR BESPOKE ALLOY WHEELS

Exclusive to this vehicle, the lightweight, yet super strong, 6-spoke, satin black 17" alloy wheels are embossed with the XTR logo. Additional detail of the coordinating centre cap is finished in a discreet dark grey font ensuring they are entirely fit for purpose. The wheels have a heavy duty, rigid design which doesn't compromise the vehicle's towing and load carrying capabilities. A full size spare wheel comes as standard.

PIRELLI SCORPION™ ALL TERRAIN PLUS TYRES

The Scorpion™ All Terrain Plus 265/70R17 tyres combine Pirelli's advanced compound and design technology with an aggressive appearance to provide a durable, versatile and highly capable all-season tyre.

Founded in Milan in 1872, Pirelli stands as a global brand known for its cutting edge technology, high-end production excellence and passion for innovation that draws heavily on its Italian roots.

XTR INTERIOR

Uncompromising performance does not mean you have to compromise on comfort or style. The inside of the XTR is luxurious and exclusive.

XTR LUXURIOUS UPHOLSTERY

For sports sophistication, the XTR seats are finished in a mix of leather, suede and carbon fibre upholstery with green over stitching for added styling. This combination of upholstery is selected with style and substance in mind; durable but comfortable too.

XTR CARPET MATS

Branded with the XTR logo, the high quality bespoke carpet mats add extra style and protection to the already impressive interior.

REVERSING CAMERA

The reversing camera makes parking and other reversing manoeuvres much easier. It starts working as soon as the XTR is put into reverse, allowing you to see the area behind the vehicle via the built in screen.

XTR D-SHAPED SPORTS STEERING WHEEL

Ergonomically moulded for grip, the XTR steering wheel is trimmed in leather and suede with hand finished green over stitching.

ON-BOARD ENTERTAINMENT

Equipped with a 7" touchscreen display, eight speakers, Bluetooth, steering wheel mounted controls, CD player and front and rear USB ports.

In addition to the standard specification, the Pioneer system with Apple CarPlay™ & Android Auto™ technology is included in the Nav+ model, enabling easy access to your smartphone apps anywhere, any time offering a safe and convenient way of keeping up to date.

NAV+ model shown

CAPABLE IN THE XTREME

“ANYTHING YOU’RE LIKELY TO ENCOUNTER FOR WORK OR LEISURE SHOULD BE WELL WITHIN THE XTR’S CAPABILITIES.”

PARKERS

SHIFT-ON-THE-FLY 4x4 & ANTI-STALL

When terrain gets rough, the Isuzu D-Max keeps you safe with 4x4-shift-on-the-fly. Selectable up to 60mph you can tackle low traction surfaces with ease without the need to stop to engage four wheel drive.

The XTR also features Anti-Stall technology, ensuring you perform like an off-road professional, while ascending and descending steep hills.

HILL START ASSIST & HILL DESCENT CONTROL

Stay in control with two systems that help negotiate hills smoothly and safely, even in the most challenging terrain.

PAYLOAD

Whatever the hobby or the job, the XTR offers an incredible payload capacity of 1,139kg*, so you can carry everything you need to enjoy your day.

*Applies to manual transmission.

TRAILER SWAY CONTROL

Smart sensors detect trailer sway and reduce vehicle speed once it's identified.

BRAKE OVERRIDE SYSTEM

If the accelerator and brake pedals are accidentally pressed simultaneously, the brake override system will kick in, meaning only the brakes will be applied.

PULLING POWER

With a towing capacity of 3.5 tonnes, the XTR is remarkably strong.

5 YEARS PEACE OF MIND

The XTR offers a 5 year /125,000 mile warranty and 5 year roadside assistance across UK and Europe, giving you complete confidence.

DIMENSIONS

³ All fuel consumption and emissions values are based on the standard Isuzu D-Max and are for comparison purposes only. These will differ on the XTR version. ⁴ Maximum payload capacity as defined by HM Revenue and Customs for VAT purposes. Payload is gross vehicle weight minus kerb weight. Kerb weights quoted are for vehicles with standard specification. Kerb weight and payload may be influenced by badge level, factory options and dealer fitted accessories. It is the responsibility of the vehicle operator to ensure their vehicle is legally compliant for road use.
