COUPÉ OR CONVERTIBLE?

IT'S A TOUGH ONE

 BUILD YOUR OWN

There is no wrong answer when choosing between coupé or convertible. Each has its own unique character, yet both offer exhilarating performance, state-of-the-art handling, and the freedom of a driver-focused experience.

VISIONS OF ELEGANCE

Signature 'J' blade LED Daytime Running Lights give the F-TYPE a striking on-road presence, complementing the car's sleek and sculpted style and asserting its powerful stance. One of the most noticeable features of the headlights is the monogram detailing in the headlight cluster design.

DESIGN

“LUXURIOUS CRAFTSMANSHIP AND NEW HARMONISING DETAILS”

“When you get inside a Jaguar, it must excite your senses while standing still. F-TYPE is the most beautiful British sports car - freshened both inside and out. The enhanced interior embraces new digital interaction for performance and focus, complementing F-TYPE’s already tactile and engaging controls. New harmonising details also amplify that sense of occasion, and an emotional connection that our customers will never forget.”

LUXURY WHEREVER YOU LOOK

The exclusivity of F-TYPE's crafted, clutter-free interior is matched by only one thing - its comfort. Even the tiniest details intensify the sumptuous feel of the car, with fully adjustable seating adapting to any preference. So when you put F-TYPE through its paces, you're not being put through yours.

YOUR F-TYPE

HEART, MEET MOUTH

F-TYPE is powered by the most thrilling of Jaguar's petrol engines, all of which feature innovative technologies for improved fuel consumption and CO₂ emissions, without compromising on performance. The base engine is a 2.0 litre Turbocharged I4, delivering 300PS; then, at the top of the range, is a 5.0 litre Supercharged V8 with outputs of 450PS and 575PS. The more powerful engine can take you from 0 to 60mph in a hair-raising 3.5 seconds.

YOUR F-TYPE

BE MOVED

BE VERY MOVED

There are three drive modes on an F-TYPE: Sport, Dynamic and Rain, Ice, Snow. Switching to Dynamic Mode stiffens the suspension³, turns the exhaust note up and quickens the throttle response. Rain, Ice, Snow Mode is ideal for harsh weather conditions, curbing the power delivery for greater control. Whichever you choose, one thing's certain - from the minute you get behind the wheel, your driving experience will be totally engrossing.

YOUR F-TYPE

AHEAD OF THE CURVE

An Electronic Active Differential² transfers torque for optimal grip, so you can take the tightest corners effortlessly. Whilst Adaptive Dynamics³ rapidly analyses steering input, optimising the stiffness of each damper. Together, they produce the perfect balance of excitement and control. Should you have specific tweaks in mind, Configurable Dynamics³ allows you to personalise several characteristics, including throttle sensitivity, gearbox shift points, steering weighting, and damper stiffness. Just another way of making our F-TYPE, your F-TYPE.

CHASSIS DYNAMICS

Fig 1. Understeer is kept to an absolute minimum.

Fig 2. Power is sustained to maintain constant speed of outer driven wheels.

Fig 3. Torque Vectoring applies brake pressure to slow the inside front and inside rear wheels independently.

**DYNAMICS THAT TURN
A TRIP INTO AN ADVENTURE**

The familiar rumble of F-TYPE sounds as you downshift into the bend. When turning, the Torque Vectoring by Braking system is activated, delivering independent braking to each of the wheels to hold you firmly on course, even during the most testing of hairpins.

All Wheel Drive builds on the exhilarating characteristics of Rear Wheel Drive, so in normal conditions torque is distributed to the rear wheels, delivering true Jaguar agility. In more challenging environments such as snow, torque can be balanced between front and rear wheels to maximise traction. And with Intelligent Driveline Dynamics, F-TYPE's torque is distributed to supply extra traction before it's called for. In extreme conditions, torque can be distributed to the front wheels - where it's needed most.

FEEL THE MUSIC WITH MERIDIAN™

Thanks to Meridian® audio systems, you can now enjoy music levels to match your Jaguar's exhilarating performance.

Meridian's approach to in-car audio is all about managing the sound stage; intensifying the levels of depth, clarity and realism of the music, by using a combination of sophisticated acoustic technology and strategically positioned speakers.

Wherever you sit in the car, you'll get the same concert-quality sound. Each strike of the piano, every guitar pick, horn blast, chorus and melody reveals itself with precision and texture, just as the artist intended. It's intimate, dramatic and atmospheric. And it's the most wonderful feeling.

EXPLORE MERIDIAN

1. MERIDIAN SOUND SYSTEM

Brings detail and clarity to everyone in the car with strategically arranged speakers and a dual-channel subwoofer to deliver a full, sophisticated sound.

2. MERIDIAN SURROUND SOUND SYSTEM

Enjoy an engaging, authentic concert hall experience as you're enveloped in the fullness and clarity of side, front and rear speakers seamlessly integrated using Trifield™ technology.

DESIGN

SAFETY AND PRACTICALITY

YOUR F-TYPE

IT'S WAY AHEAD OF YOU

F-TYPE is undeniably a driver's car. So, to help you focus on the sheer pleasure of driving it, we've built in some advanced safety systems designed to help avoid accidents, such as Emergency Braking. And to help relieve you from the stresses and strains of modern motoring, there are features such as Rear Camera and Front and Rear Parking Aid, to make manoeuvring about town easier.

Traffic Sign Recognition keeps you fully informed and aware on the road, by displaying speed limits and no overtaking signs in the interactive driver display where they can easily be seen.

Lane Keep Assist detects when the vehicle is unintentionally drifting out of the lane, and applies corrective torque to the steering wheel, encouraging you to guide your vehicle back.

Park Assist (Optional) can help make parking easier by steering your vehicle into and out of a suitable space. After selecting either Drive or Reverse, you only have to control the vehicle's speed and braking. Graphics and notifications will guide you through the manoeuvres.

Blind Spot Assist Pack (Optional⁹) can help you prevent collisions. If another car is in your blind spot when you begin to change lanes, Blind Spot Assist detects the car and applies corrective torque to encourage you to guide your vehicle away from the approaching vehicle. **Rear Traffic Monitor** uses the same system to alert you, via the Touchscreen, of moving vehicles during reversing.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

	Combined	(g/km)	215 - 220	239 - 246	246 - 253	243

■ Standard.

*The figures provided are NEDCeq calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDCeq are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile. Figures are shown as a range under WLTP testing measures. The lowest figures refer to the most economical/lightest set of options. The highest figures refer to the least economical/heaviest set of options. WLTP legislation dictates that where there is <5g CO₂ variance between the lowest and highest figures, only the highest is declared.

	Extra High	mpg (l/100km)	31.3 - 30.8 (9.0 - 9.2)	29.5 - 29.0 (9.6 - 9.7)	28.8 - 28.2 (9.8 - 10.0)	29.6 (9.5)
	Combined	mpg (l/100km)	29.6 - 29.0 (9.6 - 9.7)	26.6 - 26.1 (10.6 - 10.8)	26.0 - 25.5 (10.9 - 11.1)	26.4 (10.7)
WLTP CO ₂ Emissions	Low	(g/km)	303 - 306	390 - 400	399 - 404	398
	Medium	(g/km)	220 - 225	239 - 246	248 - 253	247
	High	(g/km)	192 - 196	206 - 208	208 - 214	205
	Extra High	(g/km)	205 - 208	218 - 221	223 - 227	217
	Combined	(g/km)	217 - 221	241 - 246	247 - 252	243

■ Standard.

*The figures provided are NEDCeq calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDCeq are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile. Figures are shown as a range under WLTP testing measures. The lowest figures refer to the most economical/lightest set of options. The highest figures refer to the least economical/heaviest set of options. WLTP legislation dictates that where there is <5g CO₂ variance between the lowest and highest figures, only the highest is declared.

F-TYPE COUPÉ & CONVERTIBLE - DIMENSIONS

Overall Length 4,470mm

Overall Width (inc. mirrors) 2,042mm
(mirrors folded) 1,923mm

Overall Height
Coupé 1,311mm / Convertible 1,307mm

Wheelbase 2,622mm

Front Track 1,596mm*

Rear Track 1,647mm**

Ground Clearance from 100mm

Turning Circle (kerb-to-kerb)
RWD 10.63m / AWD 11.27m

Loadspace Volume

Coupé Dry[†] 336 litres / Wet^{††} 509 litres
Convertible Dry[†] 132 litres / Wet^{††} 233 litres

*1,584mm on 20" wheels. **1,628 on 20" wheels. 1,610mm on R. [†]Dry: Volume as measured with VDA-compliant solid blocks (200mm x 50mm x 100mm).
^{††}Wet: Volume as measured by simulating the loadspace filled with liquid.

Dimensions were measured with vehicle at unladen weight.
