CAPTIVATING

THE ALCHEMY BETWEEN STRENGTH...

DS 7 CROSSBACK is the next-generation SUV from DS Automobiles. This sophisticated SUV embodies French savoir-faire with its bold, charismatic design, its blend of fine materials and detailed craftsmanship, and use of innovative technology.

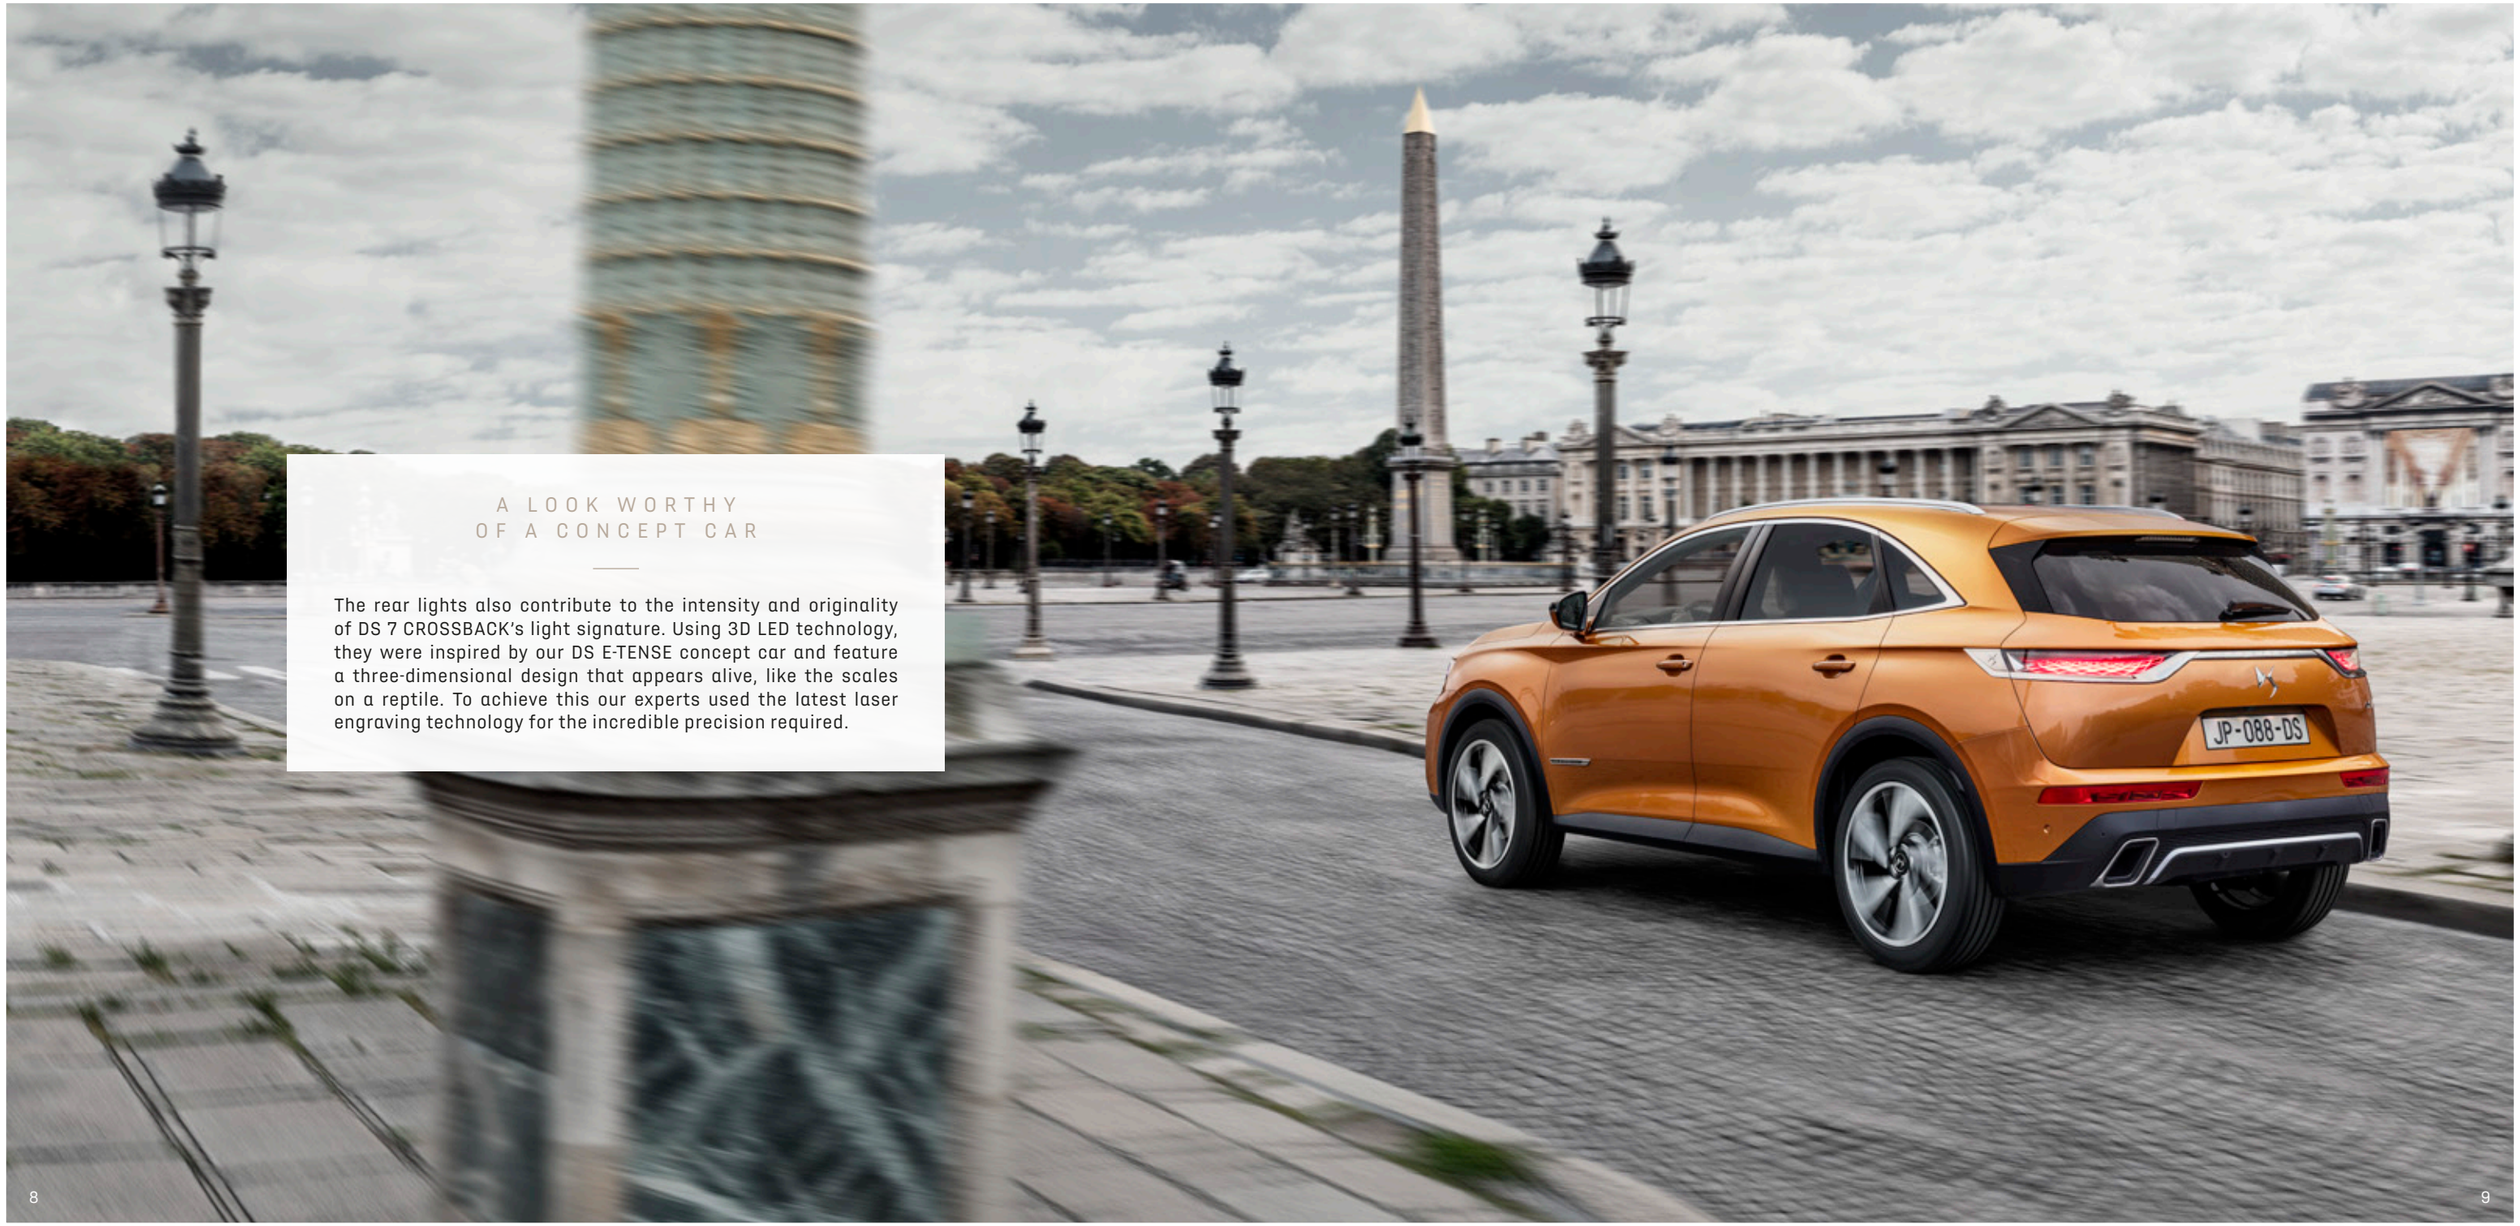
Even at first glance, you'll instantly recognise the front of DS 7 CROSSBACK thanks to the feature we call DS WINGS. This is the way our designers make the hexagonal rim of the grille blend seamlessly with the headlights. This rim surrounds a new diamond-shaped grille mesh with the DS badge at its centre. The central rib running down the aluminium bonnet emphasises the DS badge. The sharp lines of the front and rear wings give the flanks a sculpted look that highlights our SUV's muscular appearance.

...AND SOPHISTICATION

Since the beginning of DS Automobiles, stunning light signatures have been at the heart of our design ethos. Fashioned like a piece of jewellery, DS ACTIVE LED VISION headlights come alive the moment you unlock DS 7 CROSSBACK. The LED modules swivel through 180° and give off a purple light in a show of welcome.

As well as their aesthetic appeal, DS ACTIVE LED VISION headlights give you a high intensity light that automatically adapts to all conditions. In daylight, the vertical daytime running lights, designed to look like the interior's pearl stitching, work with LED projector modules to create our eye-catching light signature.

CONFIGURE YOUR DS | BOOK A TEST DRIVE | DISCOVER DS OFFERS | FIND A DEALER | FOLLOW US



A LOOK WORTHY OF A CONCEPT CAR

The rear lights also contribute to the intensity and originality of DS 7 CROSSBACK's light signature. Using 3D LED technology, they were inspired by our DS E-TENSE concept car and feature a three-dimensional design that appears alive, like the scales on a reptile. To achieve this our experts used the latest laser engraving technology for the incredible precision required.

Electric rear seats

40/60 split foldable rear seats backrest

Panoramic sunroof

COMFORT AND SPACE IN ABUNDANCE

On board DS 7 CROSSBACK passengers can relax with plenty of room, notably in the back seats, which recline electrically from 23° to 32°. We've designed seats with a high-density sponge that's comfortable yet supportive. The front seats can be heated, ventilated or set to massage, with five modes available, operated from the central touchscreen.

DS 7 CROSSBACK can be specified with an opening panoramic sunroof and electric blind. This roof is made up of two glass sections. The front section slides back over the fixed rear section for an open-air ambiance.

DS 7 CROSSBACK enjoys the biggest boot in its class (555l) as well as a flat floor when the seats are folded down. For ultimate versatility, the Premium City Pack includes an electric tailgate, which can be opened and closed by simply moving your foot beneath the rear bumper. This allows you to access the boot with ease, even when your hands are full. Keyless entry and start are also included in the Premium City Pack.

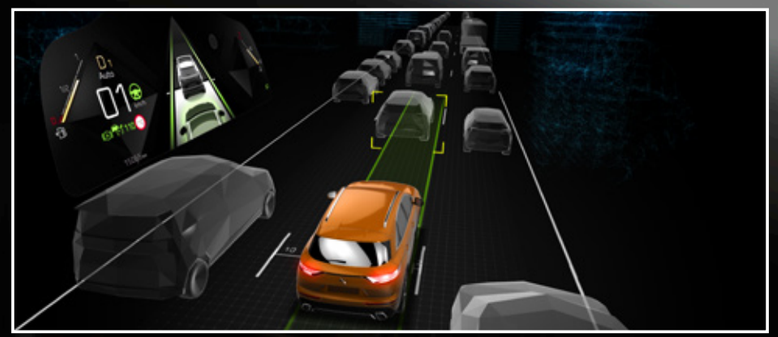
DS CONNECTED PILOT:
MEET YOUR CO-DRIVER

DS CONNECTED PILOT is a step closer to autonomous driving, but still allows you to retake full control of the car at any point. This innovative system regulates the speed and distance in relation to the vehicle in front. It also positions DS 7 CROSSBACK precisely in its lane by controlling the steering. Operable between 0 and 112mph*, it can come to a complete stop and set off again as traffic changes. It makes for driving that's safer and less stressful in traffic jams or on motorways.



**Depending on country and speed restrictions*

DS PARK PILOT:
PARKING MADE EASY

This new driver aid enables DS 7 CROSSBACK to park itself parallel to the kerb or in a bay without the driver touching the steering wheel or pedals. DS PARK PILOT finds parking spaces that DS 7 CROSSBACK will fit into by driving past at speeds up to 18mph.

CONFIGURE YOUR DS | BOOK A TEST DRIVE | DISCOVER DS OFFERS | FIND A DEALER | FOLLOW US

DS NIGHT VISION:
SEE IN THE DARK

By helping you to see better at night, DS NIGHT VISION enables you to build an accurate picture of the road ahead and spot hazards sooner. An infrared camera in the grille detects pedestrians and animals in the road up to 100m in front.

You'll see the road ahead in the digital instrument display with potential hazards highlighted in yellow, changing to red as they get closer. An audible alert can sound depending on how close these are. This enables you to anticipate hazards and react accordingly.

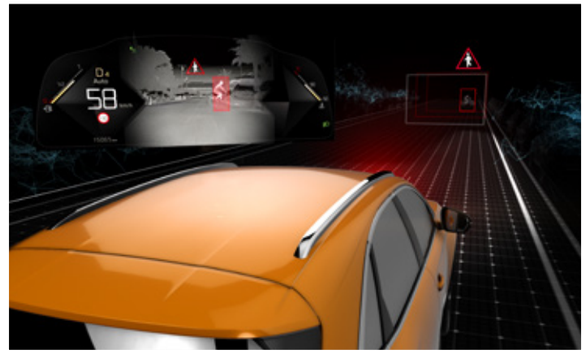


**Image for illustration purposes only*

DS DRIVER ATTENTION MONITORING:
STAY FOCUSED

DS 7 CROSSBACK benefits from DS DRIVER ATTENTION MONITORING technology, which can detect a dangerous drop in concentration. An infrared camera above the steering wheel works in conjunction with a camera at the top of the windscreen to monitor three signs of distraction or drowsiness: movements of the eyes, eyelids and neck. The system also assesses the trajectory of the vehicle in relation to road markings. This enables it to detect deviations or sudden steering movements by the driver.

As soon as DS DRIVER ATTENTION MONITORING finds an anomaly in one of these factors, whatever the time of day or night, it automatically gives an audible alert, while a warning flashes up on the screen.

CONFIGURE YOUR DS | BOOK A TEST DRIVE | DISCOVER DS OFFERS | FIND A DEALER | FOLLOW US

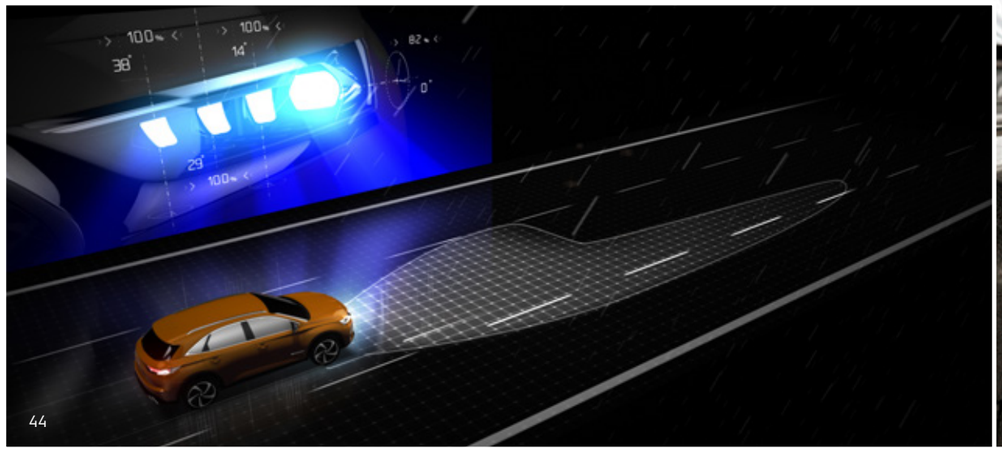
DS ACTIVE LED VISION:
SEE AND BE SEEN

DS ACTIVE LED VISION headlights are a combination of form and function. Three rotating LED modules and a main LED projector make up each headlight. Depending on the angle of the steering wheel, the speed of the car and weather conditions, these swivel from side to side and even up and down. This enables your range of vision to be increased or reduced, with the beam of light broadened or better positioned to illuminate what you really need to see.

Lighting modes available on DS 7 CROSSBACK:

- **Town:** the beam's width is increased to enable you to identify hazards at the side of the road.
- **Country:** activated from 30mph, this mode offers a field of vision focused straight ahead (most suitable for country roads), but sufficiently spread towards the sides of the road to illuminate hazards.
- **Motorway:** above 70mph* the brightness of the lighting modules is more intense. The headlights are raised slightly to increase the beam's range.
- **Adverse Weather:** when the windscreen wipers are on, the power of the lighting modules increases to help you pick out white lines. The main projector reduces its intensity to avoid any risk of dazzle from the wet road.
- **High Beam:** this lighting mode can be activated at any moment by the automatic main beam function. The power and range of the lights are set to maximum to illuminate the length and breadth of the carriageway.

** Subject to local speed limits*



CONFIGURE YOUR DS | BOOK A TEST DRIVE | DISCOVER DS OFFERS | FIND A DEALER | FOLLOW US

ACTIVE SAFETY BRAKE

Designed to avoid or limit the effects of a collision (automatically activated above 3mph). A windscreen mounted camera, assisted by radar*, detects obstacles ahead and automatically slows or brings DS 7 CROSSBACK to a halt without you having to touch the brake pedal.

DS CONNECTEDCAM

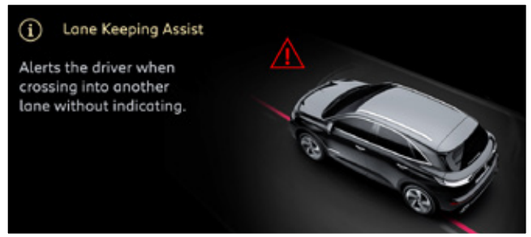
Housed in the base of the rear view mirror, this camera system enables you to store photos and videos of your journeys. Thanks to its WiFi connection the data recorded by the camera can be transferred to a smartphone. DS ConnectedCAM can also record video in the event of an accident.

REVERSING CAMERA WITH 360 VISION

Activated when you select reverse gear, the reversing camera enables you to see what's behind the car and gives you a bird's eye view of DS 7 CROSSBACK's surroundings.

LANE KEEPING ASSIST

Lane Keeping Assist detects the car wandering across lanes of traffic and brings DS 7 CROSSBACK back into line. When it notices unintended lane deviation, the system gently counter-steers to keep the vehicle in its lane. A light also flashes in the instrument panel to make you aware.



ACTIVE BLINDSPOT DETECTION

This system warns you when there's another vehicle in your blind spot. This is conveyed by a flashing light in the external door mirror on the side concerned. If required, the system prevents DS 7 CROSSBACK from straying into danger.

** Radar with DS CONNECTED PILOT*

CONFIGURE YOUR DS | BOOK A TEST DRIVE | DISCOVER DS OFFERS | FIND A DEALER | FOLLOW US

DS ACTIVE SCAN SUSPENSION:
DS SUSPENSION FOR THE 21ST CENTURY

DS ACTIVE SCAN SUSPENSION analyses the road ahead and adjusts automatically, making DS 7 CROSSBACK able to handle imperfections in the road's surface with ease. This innovative technology employs a camera placed behind the windscreen connected electronically to the front and rear axles. This works with four height sensors and three accelerometers to gauge DS 7 CROSSBACK's reactions such as speed, steering wheel angle and braking. Data is transmitted in real time to an electronic control unit, which governs each wheel independently. Based on this data, the control unit continually makes the suspension firmer or softer. DS ACTIVE SCAN SUSPENSION uses swift reactions and finesse to improve comfort on the move, resulting in a unique, smooth driving experience.

FOCAL ELECTRA: PURE SOUND

For an in-car sound system, we've joined forces with FOCAL®, France's leading professional, home and car audio company. Its top of the range system, called FOCAL Electra® HiFi system, is made up of an active 12-way 515-watt amplifier, 14 speakers and an 8 inch subwoofer, all carefully positioned around the cockpit for a uniquely immersive listening experience.

DS SENSORIAL DRIVE

DS 7 CROSSBACK enables you to express yourself through personalisation. DS SENSORIAL DRIVE offers something completely unique for the senses through two choices: Cashmere and Titanium.

DYNAMIC TRANQUILITY

Comfort is a given the moment you're on board. Our engineers selected high density foam when they were designing DS 7 CROSSBACK's wide and welcoming seats. This guarantees complete comfort and long-lasting support. Technology plays its part in the front seats too, which can be heated, ventilated and massaging, with five modes available. The multi-point massage function allows front-seat passengers to completely relax. Controlled via the central touchscreen, the driver and passenger seats can be controlled independently.

DRIVING PLEASURE

DYNAMIC ENGINES

DS 7 CROSSBACK is available with a choice of dynamic petrol or diesel engines. Powerful and efficient, these conform to the latest exhaust emissions standards (Euro 6.2) and stand out through their remarkable torque. They've been made smoother and more responsive thanks to our new 8-speed automatic gearbox. And technologies such as 200-bar injection pressure for the PureTech petrol engine and Stop & Start technology in both PureTech and BlueHDi engines, ensure reduced consumption and CO_2 emissions.

Find out more about the drivetrains on page 69.

DS 7 CROSSBACK E-TENSE 4x4, Pearl Crystal body colour (available in 2019)

E-TENSE 4X4: HYBRID BY DS

Available to order from the end of 2019, DS 7 CROSSBACK E-TENSE 4x4 is the first plug-in hybrid from DS Automobiles, proudly displaying our technical expertise. This will deliver 300hp*, four wheel drive connected to an 8-speed automatic gearbox, an electric range of 30 miles** in zero emissions mode and the ability to recharge the battery in two hours from a wallbox (3A) using a 6.6kW charger.
In addition, there is no impact on boot space thanks to our engineers ingeniously housing the batteries beneath the floor.
The E-TENSE 4x4 model employs all the technology that makes DS 7 CROSSBACK so successful: DS CONNECTED PILOT, DS NIGHT VISION and even DS DRIVER ATTENTION MONITORING.

** Combining 200hp petrol engine with two electric motors of 109hp.*
*** 30 miles according to the new WLTP approval on a 13kWh battery up to a speed of 80mph.*

Inspired by you, created for you; Only You is a bespoke programme that makes owning a DS unique.

ONLY YOU SERVICES [1]

MyDS App – THE KEY TO YOUR WORLD OF DS

Your essential everyday assistant, the MyDS App lets you access the wide range of exclusive Only You services and keeps you permanently connected with your DS. Compatible with every DS [2], MyDS App is at your side before, during and after your drive [3].

DS ASSISTANCE – DRIVE WITH PEACE OF MIND

FREE FOR THREE YEARS [4], AVAILABLE 24/7 IN CASE OF BREAKDOWN OR ACCIDENT
So you can drive with complete peace of mind, we've made life easy by guaranteeing you'll stay mobile, no matter what happens.
Accident, breakdown, lost keys or misfuelling are all covered by DS ASSISTANCE with free 24/7 support wherever you are in Europe, available by pushing the DS button in your car, via the MyDS App, or by calling 0800 877 8455 [6].

DS VALET – A VALET MAKES LIFE EASIER

As time is your most precious commodity, we've created DS VALET. Instead of taking your DS to a DS Workshop or maybe even during the purchase of your DS, this unique service provides you with a personal valet who will help you along the way.

DS RENT – SHORT-TERM DS HIRE

To drive a DS wherever you go, or use your travels to try something new from the DS collection, you can book one from your smartphone using MyDS App, or from your DS retailer.

DS CLUB PRIVILEGE [7] - SPECIAL ACCESS TO ONCE IN A LIFETIME EXPERIENCES

By driving a DS you've chosen to experience the best French expertise and sophistication has to offer. To give you an unforgettable experience, we've created DS CLUB PRIVILEGE. To become a member for five years, simply apply via MyDS App. Available straight from your smartphone, our world of privileges has been designed around you.
DISCOVER THE WORLD OF DS THROUGH UNIQUE EVENTS AND ENJOY EXCLUSIVE BENEFITS:
These can include private events such as exhibition previews, cookery courses with a celebrity chef, meeting experts in French savoir-faire, private sales of gourmet foods, getaways, shopping and other special activities.

Free from a landline. From a mobile, tariffs may vary according to network provider.

[1] According to availability in the authorised DS network.
[2] Bluetooth® connection to a compatible smartphone required.
[3] Requires compatible smartphone, internet connection and navigation. Data charges may apply.
[4] From date of vehicle registration.
[5] For conditions go to DSautomobiles.co.uk
[6] Free calls from a landline in Europe.
[7] In the six months after the purchase of your vehicle.

BlueHDi 130 Automatic	130	49.3 (5.7) - 55.3 (5.1)	106 - 100
BlueHDi 180 Automatic	180	42.7 (6.6)	128

The grouped figures shown above show the lowest and highest performing results for this model. Consult your dealer for information on specific examples. The fuel consumption you achieve, and CO_2 produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO_2 figures. These CO_2 figures, however, are based on the outgoing test cycle NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These figures are used to calculate tax for first registration. You should only compare fuel consumption and CO_2 figures with other vehicles tested using the same technical standard

SERVICE PLANS & WARRANTY

DS SERVICE PLANS

To keep your DS performing at its best, it's important to Service your vehicle in line with our recommendations. By paying a fixed monthly amount, all of your Scheduled Services will be carried out by an Official DS Workshop. Alternatively, choose to pay the full amount upfront, whichever suits you best. The price of your DS Service Plan will depend on the number of miles you cover, as well as the length of your contract. Contact your local DS dealer for a personal quote.

DS WARRANTY

Every DS has the benefit of a 3 year* warranty, plus a 12 year anti-perforation** warranty and a 3 year paint warranty. To extend your vehicle warranty to 4 or 5 years, ask your local DS Dealer about an extended warranty.

** 2 years unlimited warranty. No-fee customer option of 1 year Dealer provided warranty, only on cars supplied by the DS UK dealer network.*
Note: Dealer provided warranty is limited to 60,000 miles.
*** Against all internal to external perforation to bodywork or underbody.*

DS CONNECTED PILOT:
SEMI-AUTONOMOUS DRIVING

DS CONNECTED PILOT is a driver assistance function that takes us one step closer to autonomous driving. This innovative aid automatically regulates speed in relation to the vehicle ahead and controls the steering to keep DS 7 CROSSBACK in the middle of its lane. You can activate it at up to 112mph (depending on local road laws). It makes for driving that's safer and less stressful in traffic jams or on motorways.

DS DELIVERY VALET

YOUR TIME IS OUR PRIORITY

DS DELIVERY VALET allows you to benefit from the delivery of your new or used DS to the address of your choice and collection of your old vehicle.

PRICE: £195 inc. VAT

From January 2019 all models are Type Approved according to Worldwide Harmonised Light-Duty Vehicles Test Procedure (WLTP). WLTP is the new official test regime and replaces the New European Driving Cycle (NEDC). The CO_2 data has been converted from WLTP back to NEDC-equivalent values in accordance with current vehicle tax and Company Car Tax (CCT) legislation. Two values for CO_2 are shown per version, these are the 'Vehicle High'[1] value and the 'Vehicle Low'[2] value. For transparency and clarity, the 'Vehicle High' value has been used to calculate the first year taxation in the prices shown above. The actual CO_2 value of a version may vary according to optional equipment fitted but, other than in exceptional circumstances, will be between 'Vehicle High' and 'Vehicle Low'. For full information, including WLTP fuel consumption data, please see technical specification pages, or refer to your nearest DS retailer. *An additional annual tax rate applies in years 2 to 6 for vehicles with a list price (which includes basic price, VAT, delivery cost and additional options) in excess of £40,000. [1] Vehicle High = High specifications vehicle fitted with maximum available options. [2] Vehicle Low = Standard specifications vehicle fitted with minimal options. All diesel engines are fitted with a Diesel Particulate Filter System. Insurance groups (1-50) are an indication only, please consult your insurance company for further details. *The Manufacturer's 'On The Road' Recommended Retail Price includes the following; Delivery to Dealer and Number Plates £583.33, V.A.T. £116.67, Government First Registration Fee £55 and Graduated Vehicle Excise Duty. Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

DS ACTIVE LED VISION

The headlights on DS 7 CROSSBACK feature full LED technology. Each one comprises three rotating modules with an animated "Magic 3D" function and a main LED projector. They also include the Adaptive Front System (AFS), a function designed to adapt the lighting to the road. This modern technology contributes to both comfort and safety through its variable power, clear visibility and immediate activation with clear, automatic signals.

At night, the Adaptive Front System function manages different lighting modes for each driving situation. For each one, the angle and intensity of the main headlights and modules vary in order to increase or reduce the range of the beam. The modules swivel and dip to widen or direct the beam to light up the roadside to a greater or lesser extent. This function is active only if the lighting is in automatic mode and can be deactivated via the central touchscreen.

TOWN BEAM
The projector beams are of medium intensity with the modules turned outwards. This makes the beam wider, enabling the driver to see potential hazards (such as pedestrians, junctions, etc.) on the roadside more easily The beam range is 280m. This lighting mode is activated after three seconds at a speed below 30mph.

COUNTRY BEAM
The beam is straighter with intensity increased for the projectors and reduced for the modules. In this way, the field of vision is directed towards the front (better suited to country roads), while being sufficiently wide to see any potential sources of danger on the roadside. The beam range is 330m. This lighting mode is activated after two seconds at a vehicle speed of over 30mph.

MOTORWAY BEAM
The projectors and modules create a cone of light with a raised beam, suitable for fast roads. Although similar to Country Beam, the modules create a more intense beam. The projectors and modules are raised slightly in order to increase range. The beam range is 370m. This lighting mode is activated after five seconds at a vehicle speed of 70mph.

HIGH BEAM
This lighting mode can be activated at any time by the Automatic High Beam function, independently of the Adaptive Front System functions. It adapts automatically to the vehicle speed and angle of the steering wheel.

The power and range of the beam are set to maximum in order to effectively light up the length and breadth of the road. The modules are raised and positioned centrally, in line with the vehicle. At the same time, their range is increased. The beam range is 520m.

ADVERSE WEATHER
This lighting mode is activated automatically at any time, when the wipers are activated. The beam is wider. The power of the modules is increased to enable the driver to see the white lines on the road more easily.

The intensity of the main beam is reduced in order to improve the driver's vision, taking into account possible reflections from the wet road. The beam range is 330m.

WELCOME LIGHTING

LOCKING/UNLOCKING
When the driver unlocks the vehicle using the plip or keyless access function, the vehicle initiates a "Welcome" sequence.

The headlights and modules give off a purple light, as if the car were waking up.

FOLLOW ME HOME
The automatic 'Follow me Home' lighting function leaves the headlights illuminated for a short time after the vehicle is locked, in order to light a path for passengers at night.

LOCATION
This lighting function allows you to activate the headlights and indicators to help you find your car, for instance in a crowded car park.

MARKER LIGHTS
When stopping at the road side, this lighting function makes sure other road users can see you clearly. The LED Daytime Running Lights and 3D rear lights are activated on the road side.

SCROLLING INDICATORS
These distinctive, high-tech features underline the expressive looks of DS 7 CROSSBACK's light signature. They comprise a line of LEDs scrolling in segments towards the outside, in the direction of travel. They also include a one-touch activation function.

NEW GENERATION OF DRIVING AIDS

DS NIGHT VISION*

Using the infrared camera in the radiator grille, DS NIGHT VISION* improves visibility during the night.

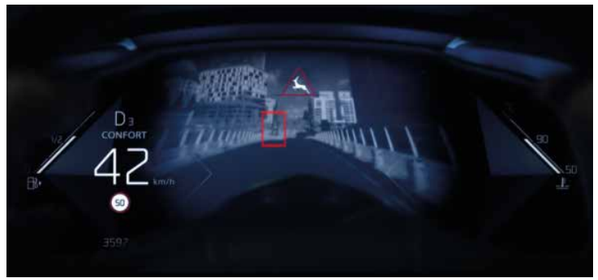
This new technology is able to identify pedestrians and animals over 50cm tall up to a distance of 100m. Added to this, increased light intensity improves overall visibility up to 300m in front.

The digital instrument panel clearly displays the situation in front of the vehicle (in greyscale) for the driver. Hazards are highlighted in yellow, changing to red as they get closer.

This technology identifies pedestrians and animals on the road during the night.

All sources of danger which are in movement are over lined in red on the instrument cluster in order to warn and alert the driver about their presence.

DS 7 CROSSBACK is the first vehicle in the C-SUV segment to make this technology available.



EXTENDED TRAFFIC SIGN RECOGNITION**

This system recognises speed signs along with a number of other traffic signs and displays them on the instrument panel for the driver. This function contributes to enforcing the highway code as well as increasing safety. The signs recognised include Stop, One Way, No overtaking, End of no overtaking.

This system recognises speed signs along with a number of other traffic signs and displays them on the instrument panel.

One Way

No overtaking

Stop

End of no overtaking

* Part of the DS NIGHT VISION Pack.
** Part of the Advanced Safety Pack.

DS ACTIVE SCAN SUSPENSION

DS ACTIVE SCAN SUSPENSION* analyses the road ahead and adjusts automatically, making DS 7 CROSSBACK able to handle imperfections in the road's surface with ease.

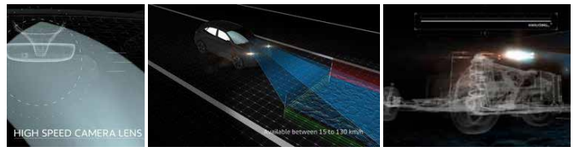
This innovative technology employs a camera placed behind the windscreen connected electronically to the front and rear axles. This works with four height sensors and three accelerometers to gauge DS 7 CROSSBACK's reactions such as speed, steering wheel angle and braking.

Data is transmitted in real time to an electronic control unit, which governs each wheel independently.

Based on this data, the control unit is continually making the suspension firmer or softer.

DS ACTIVE SCAN SUSPENSION uses swift reactions and finesse to improve comfort on the move and create a unique, smooth driving experience.

DS ACTIVE SCAN SUSPENSION is a world première: a DS innovation, available exclusively on DS 7 CROSSBACK



This function is available between 8mph and 70mph and has three different modes:

- Sports
- Normal (this is the default mode)
- Comfort Camera

The DS ACTIVE SCAN SUSPENSION is linked to the DS SENSORIAL DRIVE option.

* Availability depending on versions. Please refer to the specifications pages for more details

DS CONNECTED PILOT

DS CONNECTED PILOT is a step closer to autonomous driving, but still allows you to retake full control of the car at any point. The innovative system regulates the speed and distance in relation to the vehicle in front, while the Stop & Go function allows DS 7 CROSSBACK to come to a complete stop, and set off again.

Lane Keeping Assist works in conjunction to position DS 7 CROSSBACK precisely in its lane by controlling the steering. This system is particularly well suited to motorways, provided that the white lines are clearly visible. While the driver must still remain focused on the road ahead, it makes for driving that's safer and less stressful.

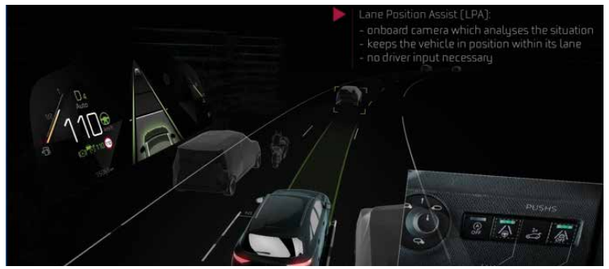
The driver enters a reference speed in the Adaptive Cruise Control Stop & Go (from 20 mph), and activates the Lane Keeping Assist using a button on the right of the dashboard.

To remain active, the system requires the driver to keep his/her hands on the steering wheel, even without the need to steer.

The driver can take back control at any time by applying torque to the steering wheel (to cancel Lane Keeping Assist), pressing the button to deactivate the function or braking (cancels Active Cruise Control Stop & Go).

This system combines the new Adaptive Cruise Control Stop & Go and the Lane Keeping Assist (Part of the Premium Safety Pack) to manage driving in semi-autonomous mode, in specific conditions. The vehicle manages steering and speed.

DS 7 CROSSBACK is the first vehicle in the C-SUV segment to make this technology available.



EQUIPMENT SPECIFICATION

Option availability varies according to version/engine/trim level. Some options are only available as part of a pack. Please refer to the options section for further information.

CONFIGURE YOUR DS | BOOK A TEST DRIVE | DISCOVER DS OFFERS | FIND A DEALER | FOLLOW US

DISCOVER MyDS APP

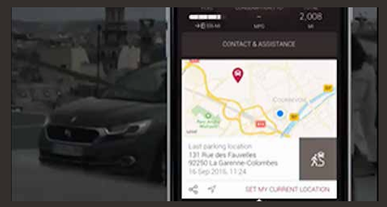
A MOBILE APP CONNECTED TO YOUR DS

GET IT ON Google Play

A carefully designed App which lets you connect with your DS and its everyday surroundings, before, during or after driving it.

Download on the App Store

ENHANCE YOUR DRIVING EXPERIENCE



MyDS App has been designed to allow you to connect to your DS, its environment, and the world of bespoke DS Only You services whenever you want. Each of the technologies available in your DS or smartphone will let you extend the driving experience before, during and after each journey.

MANAGE YOUR JOURNEYS

MyDS App keeps a history of your journeys. It allows you to see how far you travelled, and how much you spent on fuel. It is the perfect solution for monitoring your fuel consumption, or claiming expenses if you drive for work.

LOCATE YOUR DS

- MyDS App remembers where you parked your car.
- Whether you've parked in the city, or at a festival, you'll be able to find your DS with ease.

SERVICING REMINDERS

- MyDS App will notify you when your next service is due.
- You can book your service directly from the app.

STAY UP TO DATE

- Receive the latest news and offers from DS Automobiles.
- If you own more than one DS, you can manage multiple vehicles from the same app.
- Manage updates for your satellite navigation.

ACCESS TO DS ONLY YOU SERVICES

MyDS App also allows you to access to exclusive DS Only You services:

- Find your local DS Store or Salon.
- Book your next service appointment. Choose to have DS collect and deliver your car, with DS Delivery Valet.
- Join DS Club Privilege, exclusive to owners of DS vehicles.
- Access exclusive events, discounts and unique experiences.
- DS at your service* and DS Assistance phone number.
- Enjoy occasional vehicle rental with DS Rent*.

SCAN MyDS APP

Access your digital DS handbook with your smartphone with the Scan **MyDS App.**

1. Download the digital handbook on your smartphone.
2. Point your smartphone's camera at any part of your DS, and the Scan MyDS App will display the relevant information from your handbook.

* Coming soon.

ONLY YOU
THE DS EXPERIENCE

MAKE THE CHOICE OF DS EXCELLENCE

Inspired by you and created for you, Only You is an exclusive programme offering services tailored to your personal needs. Enjoy a tailor-made programme for a unique DS experience.

◆ ◆ ◆

Your Only You services are directly accessible via MyDS App, or by using the dedicated telephone number*.

MyDS | 0800 877 8455

Available Monday to Saturday 8am to 6pm.
A DS representative will answer your questions and deal with your requests.

*Calls are free from a landline. For mobiles please refer to your service provider for charges.

TEL 0800 877 8455 MyDS APP

***CONNECT TO** EXCLUSIVE SERVICES*

◆ ◆ ◆

MyDS APP, THE KEY TO YOUR DS UNIVERSE
A driving partner that's always ready to help, MyDS App gives you direct access to the exclusive Only You services package and allows you to stay permanently connected to your DS. Compatible with all DS models.

DRIVE WITH PEACE OF MIND

◆ ◆ ◆

3 YEARS OF FREE ASSISTANCE 24/7
To take the stress out of driving, DS goes the extra mile to make your life easier and ensure you are always mobile. Whether you have an accident, break down, lose your keys or put the wrong fuel in the tank, DS Assistance offers free 24/7 assistance in UK and abroad, available via the DS Connect Box button of your vehicle, on MyDS App or by calling 00 800 24 24 07 07.

***ENTER A WORLD** OF REFINEMENT*

◆ ◆ ◆

PREFERENTIAL ACCESS TO NEW EXPERIENCES
To drive a DS is to enter a world of French excellence and refinement. For an unforgettable experience, DS has created the DS Club Privilege. To benefit from your five-year membership, simply register via MyDS App. Available directly on your smartphone, this exclusive world puts your desires centre stage.

DISCOVER THE DS UNIVERSE THROUGH EXCLUSIVE AND ORIGINAL EVENTS AND ENJOY EXCLUSIVE BENEFITS:
Private events, exhibition previews, cooking lessons with a Michelin-starred chef or meetings with leading experts in French Savoir-Faire, and more. Private sales of gourmet food, excursions, shopping, and exceptional leisure activities.

***TURN EACH TRIP** INTO AN EXCLUSIVE EXPERIENCE*

◆ ◆ ◆

DS SHORT-TERM RENTAL
Continue the experience by renting a DS and take advantage of your journeys to try a new vehicle from the DS range by booking directly on your smartphone via MyDS App, in the DS network or on DSrent.co.uk.

***YOUR TIME** IS OUR PRIORITY*

◆ ◆ ◆

HAVE A VALET TAKE CARE OF YOUR VEHICLE
Time is what you have most precious. That's why DS has created the DS Valet experience especially for you.

During regular maintenance checks at one of our service centres or when purchasing a DS, this new service makes a personal car valet available for your daily trips.

DS SERVICE VALET: Pick-up and/or delivery of your DS for regular maintenance check.

DS DELIVERY VALET: Delivery of your new or used DS to the address of your choice and collection of your old vehicle. £195 OTR.

For more information about prices, please refer to the DS Only You section on MyDS App.

Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

[1]Efficient Automatic Transmission with 8 speeds * Please note: the maximum plated weights must not be exceeded.

* The grouped figures shown above show the lowest and highest performing results for this model. Consult your dealer for information on specific examples. The fuel consumption you achieve, and CO_2 produced, in real world conditions will depend upon a number of factors: including the accessories fitted (post registration), variations in weather, driving styles and vehicle load. There is a new test WLTP (Worldwide Harmonised Light Vehicles Test Procedure) used to measure fuel consumption and CO_2 figures. These CO_2 figures, however, are based on the outgoing test cycle NEDCeq (New European Driving Cycle Equivalent), calculated using an EC correlation tool which converts WLTP figures to NEDC. These figures are used to calculate tax for first registration. You should only compare fuel consumption and CO_2 figures with other vehicles tested using the same technical standard.

DS CARE FOR CAR AND DRIVER

*The delivery charge includes all miscellaneous charges, including the supply and fitment of registration plates etc.

COMPREHENSIVE WARRANTY

Every new DS car offers the benefit of a three year[1] warranty package, plus a 12 year anti-perforation[2] warranty and a three year paint warranty.

[1] Two years' unlimited mileage manufacturer's warranty. No-fee customer option of one year's Retailer provided warranty, only on cars sourced from DS AUTOMOBILES. Note: Retailer provided warranty is limited to 60,000 miles for cars and 100,000 miles for light commercial vehicles (excluding motorhomes and other converted vehicles).

[2] Against all internal to external perforation to bodywork or underbody on condition the car undergoes an inspection by a DS franchised Retailer every two years from its fourth anniversary.

DS ASSISTANCE

In response to a free telephone call in the UK, DS Assistance brings rapid expert roadside assistance to you in an emergency. It comes free of charge for three years, from date of vehicle registration, and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. You can also purchase additional DS Assistance via your local DS dealer at any time. DS Assistance applies to incidents covered by the new vehicle warranty, and non-vehicle faults, such as running out fuel or mis-fuelling, instances where keys have been locked inside the vehicle or lost/stolen, road traffic accidents and punctures / wheel changes.

The On the Road MRRP featured includes the following:
