Nissan LEAF

# More range, more power, more choice

The world's best-selling electric car is brimming with new possibilities to offer you multiple driving experiences with just one car. Whether you're a city dweller, commuter or just a dedicated 100% electric driver in search of a more thrilling ride, prepare for a more confident, connected, exhilarating journey in the simply amazing Nissan LEAF.

## Sail through the city

Cruise the urban landscape with a class-leading range of up to 168 miles\* and up to 239 miles for LEAF e+. Choose B-mode for increased energy regeneration, use the e-pedal for simple single-pedal control and switch to eco-mode for maximising range. Activate ProPILOT and Nissan Intelligent Mobility technologies to make light work of heavy traffic and motorway cruising.

## Enjoy commuting like never before

Switch to D-Mode and activate ProPILOT to take the stress out of a long commute – and go a whole lot further by multiplying your range on the go thanks to the largest Quick-Charging network in Europe.

## Empower your 100% electric drive

For even more driving excitement, opt for the Nissan LEAF e+. With a 62kWh battery for instant torque, more power and even more range, it's the best of the best EVs running around town today.

\*Range figures are obtained from laboratory testing in accordance with EU legislation and are intended for comparison between the different types of vehicles. The information does not refer to a particular individual vehicle and does not constitute part of the offer. The figures may not reflect real driving results. Optional equipment, maintenance, driving behaviour and non-technical factors like weather conditions may affect the official results. Figures were determined under the new Worldwide harmonised Light vehicles Test Procedure (WLTP) test cycle.

FEEL MORE  
IN CONTROL

with the Nissan e-Pedal. Yes, you only need one pedal to accelerate, decelerate and brake in the Nissan LEAF - it's amazing.

REVEL IN  
THE SENSATION

of instant power at take-off and the pure pleasure of intelligent driving technologies for a smooth, exhilarating ride.

BOOST YOUR  
CONFIDENCE

with Nissan ProPILOT\*. Simply activate it and select your speed and distance for an easier, more relaxed and safer drive all round.

SEE AND  
SENSE MORE

with Nissan Connect navigation, Apple Carplay and Android Auto for seamless connectivity between your smartphone and your car 24/7.

STAY  
CONNECTED

with the new 8" touch screen, Apple Carplay and Android Auto add seamless connectivity between your smartphone and your car 24/7.

# Thrill your senses

It's powerful, it's intense, it's a new driving sensation. Get ready for an experience that pushes all the right buttons when you're behind the wheel. Is power your principle driver? Experience a massive boost in capacity with the LEAF e+. Need to feel connected 24/7? The NissanConnect system is made for you. Always ready to go a step further? There's no stopping the Nissan LEAF.

\* ProPILOT is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT is intended for "Eyes on/ Hands On" for motorways and dual carriageways only (road separated by central barriers). It is the driver's responsibility to stay alert, drive safely and be able to take control of the vehicle at any time.

# Ride the city like never before

It's clever, it's got serious stamina and it's great fun: navigating the urban jungle is a joy with the Nissan LEAF. Imagine driving with just one pedal: it makes driving around all those roundabouts and up and down busy streets fuss-free. Stuck in town in a traffic jam? No hassle. Just activate ProPILOT for assistance and focus on what's to come. With Nissan Intelligent Mobility technologies looking out for you, B-mode to empower you and eco-mode to transport you up to 168 miles on LEAF and up to 239 miles for LEAF e+\* on a single charge, the city is your oyster.

NISSAN INTELLIGENT MOBILITY

**e-Pedal.** Speed up, slow down and brake using nothing more than the accelerator pedal. It's so simple.

\* Range figures are obtained from laboratory testing in accordance with EU legislation and are intended for comparison between the different types of vehicles. The information does not refer to a particular individual vehicle and does not constitute part of the offer. The figures may not reflect real driving results. Optional equipment, maintenance, driving behaviour and non-technical factors like weather conditions may affect the official results. Figures were determined under the new Worldwide harmonised Light vehicles Test Procedure (WLTP) test cycle.

**Parallel Parking.** Find a winning spot? Pull up ahead of it, hold the button and watch the Nissan LEAF just glide in. Amazing.

**Bay Parking.** Pull up to an open space, hold the button and watch the Nissan LEAF perfectly park itself in between the lines.

# It's never been easier to park

One of the biggest bugbears of city driving is city parking. All that manoeuvring, twisting and reversing takes more time and effort than necessary. With ProPILOT Park, it's hassle-free. Need to squeeze into a space in a crowded little carpark? Want to grab that spot on the side street? Just pull up, hold the button, let go of the wheel and watch your LEAF park perfectly. No hands, no feet, just an easier, more convenient way to park.

## Get a little warning before you make a move

**FEEL MORE AROUND YOU** To help expect the unexpected, Nissan's suite of Intelligent Mobility safety features give an extra layer of awareness to keep you in control. Whether you're backing out of a parking spot or changing lanes on the main road, they make you more aware of your surroundings and give you a whole new level of confidence.

**INTELLIGENT AROUND VIEW MONITOR** can give you a notice when it detects moving objects near your vehicle. This system increases your view of the surroundings.

**REAR CROSS TRAFFIC ALERT** This feature helps you back out of a space more safely. It watches around the rear of your LEAF, and can warn you about approaching vehicles.

# Make the most of the journey

CAN EVEN COME TO A COMPLETE STOP

MAINTAINS YOUR PRE-SET SPEED AND DISTANCE

KEEPS AN EYE ON THE FLOW OF TRAFFIC

With a range up to 168 miles on LEAF and up to 239 miles on LEAF e+\* that's easy to extend thanks to the largest quick-charging network in Europe, LEAF delivers high performance with **Nissan ProPILOT\*\*** supporting you at the touch of a button, the idea of motorway driving has never been so inspiring.

**Nissan ProPILOT** follows the car ahead at a pre-set distance and keeps you centred in your lane. It can even bring your LEAF to a full stop and hold it there in traffic jams to save your energy. It turns your typical morning commute into a great way to start the day.

\*Range figures are obtained from laboratory testing in accordance with EU legislation and are intended for comparison between the different types of vehicles. The information does not refer to a particular individual vehicle and does not constitute part of the offer. The figures may not reflect real driving results. Optional equipment, maintenance, driving behaviour and non-technical factors like weather conditions may affect the official results. Figures were determined under the new Worldwide harmonised Light vehicles Test Procedure (WLTP) test cycle.

\*\*ProPILOT is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT is intended for 'Eyes on/ Hands On' for motorways and dual carriageways only (road separated by Barriers). It is the driver's responsibility to stay alert, drive safely and be able to take control of the vehicle at any time.

# The right technology at the right moment

The Nissan LEAF is packed with versatile technology that steps in when you need it most. With Intelligent Emergency Braking and Pedestrian Recognition, the Nissan LEAF is able to detect whether a collision is imminent, and if no action is taken from the driver, will apply the brakes to reduce the risk of an accident. It's good to know you're not alone. With an entire suite of Nissan Intelligent Mobility\* features to back you up and help keep you out of trouble, the Nissan LEAF turns your journey into a confident, assured, more exhilarating ride every day.

Imagine driving with a suite of Nissan Intelligent Mobility features\* to back you up, including:

**ProPILOT\*\*:**  
it keeps an eye on the flow of traffic to maintain your pre-set speed and distance and keep you centred. It will even warn you if you start drifting out of lane and can bring you to a complete stop in traffic jams

\*Available on Tekna grade

**ProPILOT Park\*:**  
no hands, no feet, just an easier way to park using only one finger, taking the stress out of the urban environment.

**INTELLIGENT CRUISE CONTROL:**  
watches the flow of traffic to take the tedium out of highway driving.

**INTELLIGENT LANE INTERVENTION:**  
helps keep you where you want to be. It taps the brakes to help gently guide you back if it detects that you're unintentionally straying out of your lane.

**INTELLIGENT AUTO HEADLIGHTS with full LED:**  
headlights that light your way by automatically turning on when it gets dark and auto-dipping high beam for oncoming vehicles.

**BLIND SPOT WARNING:**  
change lanes with confidence. This feature keeps an eye on your blind spot areas and gives you a heads-up if it detects a vehicle there.

\*\*ProPILOT is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT is intended for "Eyes on/ Hands On" for motorways and dual carriageways only (road separated by Barriers). It is the driver's responsibility to stay alert, drive safely and be able to take control of the vehicle at any time.

# Performance driven for a 100% electric future

WIND-DIFFUSING

Just plug your Nissan LEAF into your home socket for an overnight top up, or use the largest quick charging network in Europe for a charge on the go. The charging time is impacted by a number of factors, see below for further information.

**HOME CHARGING**  
7KW WALLBOX\*

**NISSAN LEAF : ALERT TO FULL CHARGE IN UP TO 7H30 MIN**  
**NISSAN LEAF e+ : ALERT TO FULL CHARGE IN UP TO 11H30 MIN**

\*Figures quoted are for a 40kWh (Nissan LEAF) and 62kWh (Nissan LEAF e+) batteries. Time dependent on charging conditions, including charger type and condition, battery temperature as well as ambient temperature at point of use. Indicated rapid charging time requires use of a CHAdeMO rapid charger. The Nissan LEAF is designed to support the majority of journeys in daily life and is equipped with charging safeguards to protect the battery during repeated rapid charging sessions in a short period of time. The time taken for successive rapid charging can take longer if the battery temperature activates the battery safeguarding technology.

# Choose your charging and keep moving

**PUBLIC QUICK CHARGING**  
CHADEMO 50KW RAPID CHARGER\*

**NISSAN LEAF : 20% TO 80% IN AROUND 60 MIN**  
**NISSAN LEAF e+ : 20% TO 80% IN AROUND 90 MIN**

# Plug into savings embrace the freedom

**FIND OUT WHY MORE IS LESS** Driving electric has more than a few unexpected benefits. Without a petrol engine, of course there are no more fill-ups, but you also do away with a lot more. There are fewer moving parts overall, which translates into less maintenance. Now you just have to decide what to do with all the extra free time.

#### GOODBYE PETROL ENGINE

With a 100% electric motor, say goodbye to all the check-ups and maintenance, and hello to more time on the road. Save time and money by charging your battery instead of filling up the tank.

#### GOODBYE OIL CHANGES AND MORE

No more petrol means no more oil or oil changes. And no more transmission, spark plugs, radiator, belts, and more, which makes ownership costs go down by up to 40%. Free time goes up.

#### GOODBYE PETROL STATION

Forget about having to stop at the petrol station on the way to work. Now you can wake up fully charged and ready to take on the day.

#### HELLO INNOVATIVE BATTERY

LEAF's battery pack has been developed in-house, rigorously tested, and has an extraordinary record of reliability, meaning you can feel confident you are driving some of the best battery technology around.

NISSAN INTELLIGENT MOBILITY

# Seamless connectivity to your world

The new, more responsive 8" touchscreen in Nissan LEAF is your portal to NissanConnect: intuitive navigation, advanced technology and audio, while our smartphone app offers a range of services including sending journey plans to your Nissan LEAF. So buckle up: you're ready to go.

## CHARGING

Get your battery status wherever you are with the NissanConnect Services app, and begin charging right from your phone so you can take advantage of cheaper night-time electricity.

## SAFETY AND CAR HEALTH

In trouble? Alerts and reports tell you what's wrong, and your Nissan will call for immediate assistance in the event of an emergency.

## NAVIGATION AND DRIVING

Turn-by-turn navigation including send to car and points of interest gets you where you need to go. Insights including energy consumption and average speed can help you drive even better.

## CONNECTIVITY

Connect your Android or iOS device for seamless connectivity including voice control. Access your favourite music, messaging and other apps to stay informed and entertained as you drive.

## CONVENIENCE AND COMFORT

Access remote services including journey planning from the NissanConnect app. And if you ever need help, Nissan Assistance is just a click away.

 NissanConnect Services

Scan the code to download now the NissanConnect Services app and connect to your New Nissan.

**APPLE CARPLAY + ANDROID AUTO.** Plug in your smartphone and access your favourite navigation app, stream your music and enjoy your favourite podcast while you are driving.

**CHARGER LOCATIONS.** Easy access to the nearest chargers around you and find the best charger location that suits your needs: Opening hours, price, accessibility, maximum power... Finding the most convenient place to charge is never a problem.

**DOOR-TO-DOOR NAVIGATION.** The Mobile App enables you to navigate end to end, from where you parked your car to your destination. You can also plan your trip in advance, synchronise your car and phone navigation services and start getting directions before you start driving.

**YOUR MUSIC. YOUR WAY**  
Access your music using Bluetooth, USB or connect with Apple CarPlay or Android Auto.

**REMOTE CLIMATE CONTROL.** Pre-heat or cool down your car before entering while you are still plugged-in and charging. Regulate the temperature or even turn off the heating... without emptying out your car battery. You can do what you want to maximise your comfort on board. Let's go !

# New NissanConnect

Featuring a stunning floating 8" display screen, New NissanConnect for Nissan LEAF is your central control system. Connect your smartphone to your car, optimise your routes, better manage your battery, get help and support throughout your journey and even improve the way you drive. Simply download the NissanConnect Services App Smartphone App to get in sync.

DISTINCTIVE DASH

HEATED SEATS

IMPRESSIVE LEGROOM

UNIQUE BLUE ACCENTS

# Experience comfort at the sound of silence

Supreme refinement for a relaxed drive. Try stepping inside the luxuriously quiet cabin and you'll find a new level of silence - until you turn up the Bose Premium Audio System, that is. Add comfort features such as heated seats and heated steering wheel, and every drive has a chance to be amazing.

\*Available from Tekna grade

**BOSE**  
**BOSE PREMIUM AUDIO SYSTEM\***  
Even the audio system is energy-conscious. With seven small, lightweight, and strategically placed speakers, the Bose engineers created an audio system that saves power, without sacrificing sound quality. All so you can rock out more efficiently.

# Load up whatever the day demands

LEAF is ready for your next outing with an impressive amount of cargo space, a low rear cargo floor and 60/40 split rear seats that fold down easily. It all adds up to a vehicle that can handle just about anything you ask of it with a capacity of 435 litres\*.

\*Tekna grade with BOSE Premium Sound System boot capacity 420 litres

NISSAN INTELLIGENT MOBILITY

# Electrify the world

At Nissan, we believe in a sustainable tomorrow, and we're convinced that it will only happen if we act now. That's why we're leading the work on electric mobility solutions to shape the smart cities and create a better future today.

**NISSAN ELECTRIC VEHICLES.** Join the electric revolution. Start driving the car of the future, today. Nissan's pioneering range of 100% electric cars and vans offer top class performance and cutting-edge technology, allowing you to enjoy your drive while producing zero emissions.

**THE NISSAN LEAF 100% ELECTRIC.** The Nissan LEAF can travel 168 miles (or 239 miles for LEAF e+)\*. on a single quick charge and is packed with Intelligent Mobility features including ProPILOT, ProPILOT Park and e-Pedal technology.

**EXPANDING CHARGING INFRASTRUCTURE.** Nissan works with the EV fast charging standard CHAdeMO and has already built the most comprehensive quick charging network in Europe. Work is now in progress to create charging or "green" corridors for long-distance driving along popular routes.

\*Range figures are obtained from laboratory testing in accordance with EU legislation and are intended for comparison between the different types of vehicles. The information does not refer to a particular individual vehicle and does not constitute part of the offer. The figures may not reflect real driving results. Optional equipment, maintenance, driving behaviour and non-technical factors like weather conditions may affect the official results. AT NISSAN,  
**WE FOCUS  
ON QUALITY.**

## MASTERED THROUGH EXPERIENCE

At Nissan, we do everything with the customer in mind. Every action and decision we make, is made with the utmost care, precision and quality because ultimately, it's for you. From conception to car construction, from testing to transparency, from customer service to commitment. Quality is in every fine detail.

### 360° PROCESS

We build in quality from the outset, meticulously conceiving each car to make them more comfortable and more durable through innovative design, intelligent technology and thoughtful details inspired by you.

### SAFETY

We work with our intelligent driving systems to constantly look out for you and help you avoid any mishaps for a bolder, more confident driving experience day after day. Our Intelligent Around View Monitor uses 4 cameras to give you a virtual birds eye view of your car in its surroundings.

### EXTREME RELIABILITY

We push our cars to the limit to guarantee their daily performance and reliability. We travel millions of kilometres in pre-production tests, open and close doors and bonnets thousands of times a day and use real volcanic dust from Japan to test window resistance.

### ULTIMATE PROOF | reevoov

Our commitment to quality is best demonstrated by you. Search for testimonials, reviews and ratings online or find out what people are saying about Nissan on Reevoov. It's the best place to compare vehicles and get real answers from real owners you can trust.

OUR PROMISE. YOUR EXPERIENCE

**THERE'S NO TIME LIMIT** ON HOW LONG YOU WILL BENEFIT FROM OUR PROMISES. IF YOU HAVE JOINED THE YOU+NISSAN PROGRAM, AND WANT TO BE SPOKEN TO IN A GENUINE, OPEN AND HONEST MANNER, WE WILL LOOK AFTER YOU. FOREVER. **THAT IS OUR PROMISE.**

**FREE COURTESY CAR**

**We promise** to keep you on the road whilst your car is being serviced. Book in advance and we'll ensure that a free courtesy car is available for you. We even have electric cars available at select service points, and a range of other transport solutions to suit your needs.

**FREE VEHICLE HEALTH CHECK**

**We promise** to give your car a free health check prior to any work being carried out, so you know exactly what needs to be done, and how much it will cost. All our prices are also fully accessible online and at our dealers.

**SERVICE PRICE MATCH**

**We promise** to deliver the highest care for your Nissan thanks to the expertise of Nissan trained teams and the use of Nissan genuine parts. We simply know best how to service your Nissan. And to guarantee best value-for-money, Nissan will price match like-for-like quotes within 10 miles of your local dealer.

**LIFETIME NISSAN ASSISTANCE**

**We promise** to keep you on the road 24/7. Should anything unexpected happen, we guarantee 24-hour Nissan assistance, whatever the age of your Nissan.

ANYWHERE, ANYTIME, ANYTHING. JUST CALL 0330 123 1231 AND WE'LL BE RIGHT THERE.

 **SERVICE CONTRACTS**

A Nissan Service Contract is the best way to keep your Nissan LEAF fully maintained, with servicing available throughout the UK at one of our dedicated Nissan dealerships, we will replace parts and fluids in line with the Nissan service schedule and perform vehicle health checks for peace of mind motoring.

 **EXTENDED WARRANTY**

Nissan Extended Warranty gives you the opportunity to extend the 3 Years/60,000 mile warranty for a longer period or mileage. Select the contract that best suits your driving usage. In case of a repair, only Nissan genuine parts will be used and fitted by Nissan trained technicians. For your peace of mind, 24/7 European roadside assistance is included (if applicable).

**AT NISSAN, YOU BRING OUT THE BEST IN US.**

You spark our imagination. You provoke our ingenuity. You inspire us to change the rules and innovate. And at Nissan, innovation is not just about additions and extensions; it's about crossing the line to reinvent the status quo. It's about developing unexpected solutions to satisfy your wildest and most pragmatic desires. At Nissan, we design cars, accessories and services that break the mould - making the practical exciting and the exciting practical to offer you a more exhilarating driving experience everyday.

**NISSAN LEAF OFFERS YOU:**

- 5-YEAR / 60,000 MILE WARRANTY ON ALL EV DEDICATED COMPONENTS AND
- 3-YEAR / 60,000 MILE WARRANTY FOR STANDARD COMPONENTS
- 8-YEAR / 100,000 MILE WARRANTY FOR NISSAN LEAF LITHIUM-ION BATTERY.
- 18,000 MILE SERVICE INTERVAL
- NISSAN LEAF LITHIUM-ION BATTERY WARRANTY ALSO PROTECTS AGAINST CAPACITY LOSS BELOW 9 BARS OF CAPACITY (OUT OF 12) AS SHOWN ON THE LEAF'S CAPACITY GAUGE.

## NISSAN INTELLIGENT MOBILITY

Nissan Intelligent Mobility guides everything we do. We're using new technologies to transform cars from mere driving machines into partners. Together the journey is more confident, connected and exciting. Whether it's cars that share the task of driving with you, or motorways that charge your EV as you drive along, it's all in the very near future. And it's a future already taking shape in the Nissan you drive today.
