

The new
SEAT Tarraco.

Why not now?

Model shown: Tarraco XCELLENCE Lux with Dark Camouflage metallic paint.

Too difficult? Too late? Too old? Excuses are easy. But change takes courage. The new SEAT Tarraco is for those who feel the fear and do it anyway. The SUV for explorers who refuse to let life pass them by. Because once in a lifetime experiences never happen twice.

Created in Barcelona.

1953. The first SEAT rolls off our Barcelona production line and a whole country starts moving. More than 60 years later and we're moving people all over the world.

But Barcelona still inspires us. Its creative spirit runs through our veins. Feeds into every car we produce. (In fact, 50% of the energy we use to make our cars comes direct from Mediterranean sunshine.) This is a city that never stops. And neither will we. Why? Because you have places to be.

Because if it doesn't set you free, drive you forward, make things better, what's the point?

It's time for a change of image. The new SEAT Tarraco comes with contemporary, state-of-the-art interior design elements that refine every ride. Sophisticated black roof liner. Technology

A world of experiences. At your fingertips.

The new SEAT Tarraco comes with the most advanced technology for a life on the move. Like the Top View Camera, featuring cameras in the front, rear and exterior mirrors that provide 360° visibility and work with Park Assist to help you park hands-free. And the virtual pedal makes sure you can open and close the boot when you have your arms full.

What's coming? The customisable 10.25" SEAT Digital Cockpit lets you switch between maps, music and driving assistance features in one easy-to-see, central display. Want more? Optimise each drive with your choice of Drive Profile for the road ahead.

Safety

It's about feeling secure. Every step of the way.

The new SEAT Tarraco is designed with your safety and wellbeing in mind. That's why it comes with the latest in advanced safety features. Like Adaptive Cruise Control, which automatically speeds up and slows down your car according to traffic. And everything else you need to keep moving forward fearlessly.

01

01. Emergency Call.

In case of a serious accident, eCall notifies emergency services automatically. Or you can make a call just by pressing the button on the ceiling.

02

02. Lane Assist.

Advanced sensors measure the distance between the Tarraco and other cars in traffic so it can accelerate or decelerate accordingly. Without ever leaving the lane.

03

03. Front Assist.

Bike zips in front of you? Car ahead slams on the brakes? Front Assist reacts instantly and brakes automatically to maintain a safe distance. No worries needed.

Your way.

We've made it really simple to pick the SEAT Tarraco that's right for you. There are 4 individual trims, each with their own unique equipment and appeal.

Model shown: Tarraco XCELLENCE Lux with Dark Camouflage metallic paint and optional panoramic sunroof.

A dirt road winds through a hilly, brush-covered landscape. The road is light-colored and appears to be made of gravel or dirt. The surrounding vegetation is dense and consists of various shrubs and grasses in shades of brown, tan, and green. The hills are rolling and the overall scene is natural and somewhat rugged.

1 Pick the trim that sounds like your kind of car.

2 Choose the engine that suits you.

3 Personalise your Tarraco with your favourite colour.

And that's it. It couldn't be easier to do your thing.
