VOLVO XC40

YOUR OWN XC40 IS IN REACH

The Volvo XC40 is the authentic SUV for the city. High ground clearance, large wheels and true SUV proportions give it a powerful stance. And from the T-shaped front light signatures, to the beautifully detailed tail-light, it's every inch a Volvo. Uniquely Scandinavian and unmistakably urban, it's built for city life.

Bold, progressive design is the hallmark of the Volvo XC40, and the cabin embodies forward-thinking Scandinavian style. An uncluttered layout lets you focus on the beautiful details, while the high seating position means you always feel in control. Carefully crafted and selected materials indulge the senses, and intuitive technology, such as the central touchscreen, puts you in command.

The Volvo XC40, designed to make every day easier.

¹⁾ All models are type approved to WLTP (Worldwide harmonised Light-duty vehicles Test Procedure) standards. WLTP is the new official test regime for passenger cars replacing the New European Driving Cycle (NEDC) test. WLTP emission figures will be used to calculate the vehicle tax on vehicles first registered from 1st April 2020 and from 6th April 2020 for company car Benefit-In-Kind purposes. The exact CO₂ figures of the vehicle will vary according to any options and packs specified.

²⁾ Vehicles with a retail price over £40,000 (including paint, options, packs and delivery costs) when new, pay an additional £325 per year on top of the standard rate, for five years from the start of the second licence.

³⁾ P11D value for Benefit-In-Kind purposes is the retail price plus delivery charge. BIK % is shown for the 2020/21 tax year.

⁴⁾ All 'On The Road' prices quoted in this price list include Volvo standard national delivery charge, inclusive of number plates and VAT at £725 and vehicle tax as 1st April 2020 (as set by the government). This charge does not include any provision for fuel. The On The Road price also includes a £55 first registration fee (as set by the government – excludes Channel Islands and Isle of Man). Recommended retail prices quoted do not include these additions.

⁵⁾ Preliminary technical data. Available Q1 2021.

All models are type approved to WLTP (Worldwide harmonised Light-duty vehicles Test Procedure) standards. WLTP is the new official test regime for passenger cars replacing the New European Driving Cycle (NEDC). Figures are intended for comparability purposes and do not express or imply any guarantee of the fuel consumption of a particular car. The fuel consumption achievable under real world driving conditions and CO₂ produced will depend upon a number of factors including accessories fitted after registration, variations in driving style, weather conditions and vehicle load.
