

IONIQ

Hybrid · Plug-in Hybrid · Electric

Welcome to Hyundai. Welcome to Candoism.

Innovation is at the heart of what we do. We call it 'Candoism' and it keeps us focused on the future. Since launching our industry-leading 5 year unlimited mileage warranty, we've become one of the world's fastest growing car companies.

In 2016 we launched IONIQ – the only car available in Hybrid, Electric and Plug-in Hybrid options. 2017 saw us premiere the i30 N, an exciting dive into the world of high quality performance vehicles. In 2018 we introduced the KONA electric, the first fully-electric subcompact SUV in the European market. 2019 has seen the launch of NEXO, our latest innovation in the mass production of zero-emission Hydrogen Fuel Cell vehicles. We've also revolutionised the buying experience with Click to Buy – our clever website which allows you to buy your next Hyundai from the comfort of your sofa. We're proud of what we've achieved in a short space of time.

So what happens next? The answer is inspired by you, our customers, because our next innovation will happen with you in mind. For us 'done' will never be 'done' – we're always excited to start again. Welcome to Candoism. Welcome to Hyundai.

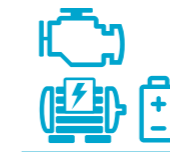

With smooth silhouettes, sharp lines and sleek interiors, IONIQ Hybrid, Plug-in Hybrid and Electric give drivers the ultimate in efficiency, comfort and performance.

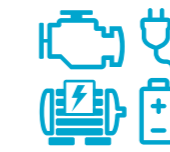

The first car in the world to feature three electrified powertrains.

The unique choice of three electrified powertrains in one model gives the Hyundai IONIQ a very special status. As a ground-breaking achievement, the focus is on combining efficiency, low emissions and outstanding performance. From start/stop city driving to long-distance trips, the IONIQ provides the perfect option for a variety of lifestyles.

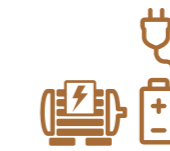

IONIQ Hybrid

The IONIQ Hybrid's electric motor works together with the petrol engine when you pull away or come to a standstill. It smoothly improves fuel consumption and lowers emissions in start/stop city driving, while providing an extra kick of power and torque if required.

IONIQ Plug-in Hybrid

The IONIQ Plug-in Hybrid can travel up to 32 miles on electric power, which covers most day-to-day trips. On longer trips, the electric motor works intelligently with the petrol engine to improve fuel economy and reduce CO₂ emissions, or offer more performance.

IONIQ Electric

For pure, zero-emission driving, the fully electric powertrain is this model's trump card. Delivering a significant 136 PS, its battery gives you maximum range of 193 miles. Just as impressively, you can charge it to 80% in just under an hour.

A pioneering design concept that combines form with function.

The IONIQ's streamlined exterior creates far more than a striking, coupé-style silhouette. It creates an aerodynamic form that improves every aspect of efficiency.

Sleek and attractive, the IONIQ makes a powerful first impression. However, it's the detail that's gone into its exterior that makes it a real game-changer from any perspective. LED light clusters draw the eye with their dynamic outline, seamlessly integrated into the car's profile, and the side sill mouldings keep air close to its body as the front wheel air curtains redirect turbulent air. The beautiful sloping fast-back style roofline enhances the airflow even further, adding to a clean, stylish design that's built around aerodynamic performance. The 3-D honeycomb grille and unique wheel designs make the IONIQ a feast for the eyes whether it's parked up or on the open road.

Car shown IONIQ 1st Edition in Polar White Solid Paint.

The IONIQ Hybrid: a driving experience without compromise.

The IONIQ Hybrid combines technology with power to deliver a smooth driving experience. The electric motor and engine work seamlessly together to deliver plenty of torque when you need it most and maximum efficiency when cruising or at low speed.

6-speed Dual Clutch Transmission

An impressive Dual Clutch Transmission (DCT) places the IONIQ Hybrid truly at the forefront of innovation, delivering a smooth ride for a truly enjoyable driving experience. With one clutch operating odd-numbered gears and a second operating even-numbered gears, DCT gives you a faster power response and a more dynamic overall experience. There are two driving modes to suit your style: In normal driving mode the engine and the battery work together for maximum performance and minimum energy consumption. The paddle shifter sets the level of regenerative braking, providing drivers full control over how much kinetic energy they wish to harvest. Sport mode allows for greater acceleration and lends extra weight to the steering for more responsive handling.

The IONIQ Plug-in Hybrid: ultra-low emissions at your command.

The Hyundai Plug-in Hybrid combines the qualities of a conventional hybrid vehicle and an all-electric vehicle. With up to 32 miles of pure electric range it's ideal for commuting, local travel and those special long drives for holidays.

When used as a conventional hybrid electric vehicle, the HEV computer selectively switches between the engine and the electric motor – or uses both at the same time – depending on the level of power required to travel. When it's operating in electric mode, the vehicle is driven only using the electric motor until the charge from the high voltage battery becomes too low, at which point it reverts to hybrid mode automatically. Pure electric mode gives you up to 32 miles with zero tailpipe emissions, depending on your driving style and road conditions. The efficiency of the IONIQ Plug-in Hybrid is greatly enhanced if the car is driven mainly in electric mode, which is why it's highly recommended to have a wallbox installed at home. The high voltage battery can be fully charged by connecting the plug to an external electric power source, taking about 2 hours 15 minutes to fully recharge the 8.9 kWh battery.

Car shown IONIQ Plug-in Hybrid Premium SE in Polar White Solid Paint.

These figures were obtained using a combination of battery power and fuel. The IONIQ Plug-in Hybrid is a Plug-in Hybrid vehicle requiring mains electricity for charging. Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

The IONIQ Electric: zero tailpipe emissions, maximum enjoyment.

Sleek, with plenty of room and miles of range, the IONIQ Electric is the new definition of a family friendly car.

Packed with innovative features and a choice of driving modes, the IONIQ Electric has everything the IONIQ Hybrid offers, along with a zero-emission driving experience. The powerfully responsive fully electric 136 PS powertrain offers excitement and instant torque for reassuring acceleration, keeping you safe when overtaking and pulling out of junctions. City or motorway driving is no issue for IONIQ Electric, with a choice of Eco, Normal and Sport driving modes to ensure powertrain dynamics perfectly suit the road ahead. The level of kinetic energy harvested can be set with the paddle shift to give a subtle, natural feel to regenerative braking. With maximum regenerative braking, the IONIQ Electric can come to a complete standstill, meaning that the only pedal needed to drive is the accelerator. This provides maximum comfort and control for the driving experience. Eco mode optimises the performance of IONIQ by setting the controls to the most efficient balance, ensuring maximum range can be achieved. Normal mode harmonises responsiveness and efficiency, and SPORT mode gives a significant boost to acceleration by increasing torque from 265 Nm to 295 Nm. Driving Electric – rewarding at every level.

Efficient and energetic, IONIQ Hybrid arrives with power in all the right places.

Cutting-edge technology powers the IONIQ, maximising all available energy to deliver the optimum drive. Its outstanding performance is down to the ambition and ingenuity of our engineers, who have pushed the boundaries to deliver a car that excels on every level.

The epitome of forward-thinking motoring, the 1.6-litre GDi direct-injection petrol engine in the IONIQ Hybrid and Plug-in Hybrid is intelligently designed to work with the electric motor to deliver maximum power and economy. The latest evolution of our 16-valve Kappa design, works by keeping the intake valves open for longer than a traditional combustion engine, reducing the compression ratio in the process. This makes it more fuel efficient and works perfectly on the hybrid, where engine torque can be boosted instantly by the electric motor.

We've utilised friction-reducing roller bearings, low-viscosity oil and a cooled Exhaust Gas Recirculation (EGR) system to optimise heat recovery and produce a design that boosts thermal efficiency by 40%. By using innovative technology such as rectangular section copper wire and internal core components up to 10% thinner than normal, the motor delivers in excess of 95% efficiency. In simple terms, it means that the energy is used almost solely to power the vehicle, rather than being lost on the way. The result is instantly available torque that creates smooth acceleration and a truly agile driving experience that surpasses other cars in its class.

Start/Low Speed Electric Motor (EV mode)

IONIQ runs solely using its electric motor (zero fuel consumption).

Acceleration/Uphill Engine + Electric Motor

The Kappa 1.6 GDi engine starts automatically to work with the electric motor providing a fuel-efficient operation.

Driving Engine

IONIQ operates using only its engine when travelling steadily at mid-to-high speeds.

Deceleration/Downhill Recharging

Engine is turned off and kinetic energy is captured by the brakes and converted into electrical energy, which is used to recharge the battery.

Stop Engine Hold

When the vehicle is not in motion, both the engine and motor are stopped.

Images shown reference examples of various driving scenarios. The performance of the Hybrid System is influenced by the driving style, the state of charge of the high voltage battery, the route, the weather conditions, the weight of the cargo and other external factors.

Lightweight, aerodynamic and electrified. It's efficient in every way

With the cleverly integrated electric motor, it's clear the IONIQ was designed with economy in mind. And there's so much more that adds to its efficiency, from its aerodynamic form and lightweight materials to ECO Driving Assist (ECO DAS) and adjustable regenerative braking. It really is all in the detail.

The IONIQ Hybrid's sleek, smooth silhouette is more than just design-led; it's a scientifically developed form that creates an incredible drag co-efficient (Cd) of just 0.25. With cleaner airflow on every aspect, including the wheels and side sill mouldings, less power is required to propel the car forward, resulting in fewer emissions. Crucial to efficiency is the car's weight – selected body panels are made of aluminium to decrease the IONIQ's overall kerb weight. The bonnet is 6.5 kg (46%) lighter than its steel equivalent, while the tailgate is 6.1 kg (45%) lighter. This 12.6 kg saving comes with no compromise on noise or vibration. The striking front grille conceals active air vents which open when extra cooling is required, so it's an extremely lightweight, efficient model in every way. The ECO DAS driving system is a brand new approach to driving efficiency, predicting energy output demand from driver behaviour and road topology to deliver increased efficiency from the advanced engine management technology.

Car shown IONIQ Plug-in Hybrid Premium SE in Polar White Solid Paint.

The IONIQ's interior - designed around the philosophy of clean simplicity.

Ergonomics and technology meet in the interior of the IONIQ. Key features are designed to stand out and controls are refined to blend in as the ongoing evolution of driving continues. Designed for control, the simple layout keeps the driver front and centre.

As advanced as the rest of the car, the interior brings Hyundai technology to life in a fluid, elegant manner. At the heart of it all sits a D-cut steering wheel to bring an air of sportiness to the design, with black gloss and chrome accents, gear shift and throughout the cabin to add to the modernist luxury feel. Memory function driver's seat and heated front and rear seats come with the top-spec models, while soft-touch materials add to the feel of premium quality that runs throughout the range. IONIQ even features thicker window glass to keep the cabin quiet.

Interior shown IONIQ Hybrid Premium SE.

Split Screen with Live Services

Driving Rear-view Monitor (DRM)

In a connected world, everything's at your fingertips.

A contemporary car in every way, the IONIQ has connectivity at its heart. With LIVE Services, interconnected music and a surround-sound speaker system, an abundance of technology takes the journey to the next level.

Through technology with design, we're changing the way we use and interact with our cars. The 10.25" interactive display and BlueLink, Hyundai's new connected car service, give you unprecedented control of your Hyundai driver systems whether you're in the car or remote. With enhanced functionality to give you intuitive control over entertainment and engine management systems, you can customise the large screen to your preferences.

Live services are embedded in the system, giving information about routes, fuel stations, weather and traffic, and with multichannel Bluetooth, two phones can be linked to the car at the same time, playing music via Apple CarPlay™ and Android Auto™.

BlueLink technology connects drivers to their cars through their smartphones, making life on the road more comfortable, convenient and safe. Technology combines to send and receive detailed information on your journeys, and you can check on the status of your car remotely, lock it and receive health checks from on-board systems like the engine, air bags, and brakes to help make your journeys safer and more efficient.

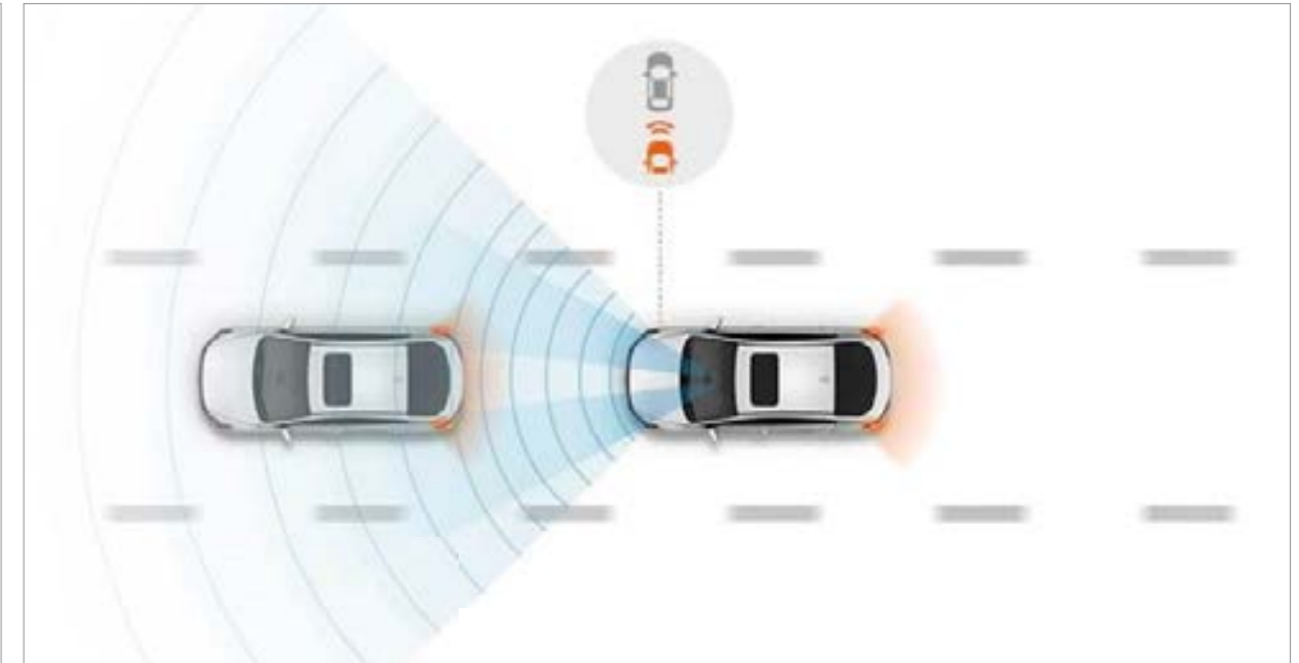

IONIQ features eCall as standard which provides reassuring help and greater support in case of an emergency. In the event of a serious accident, a call to an emergency services call centre is triggered automatically or by pressing the button, ensuring first responders arrive quickly to protect you and your passengers.

Tireless technologies to keep you safe.

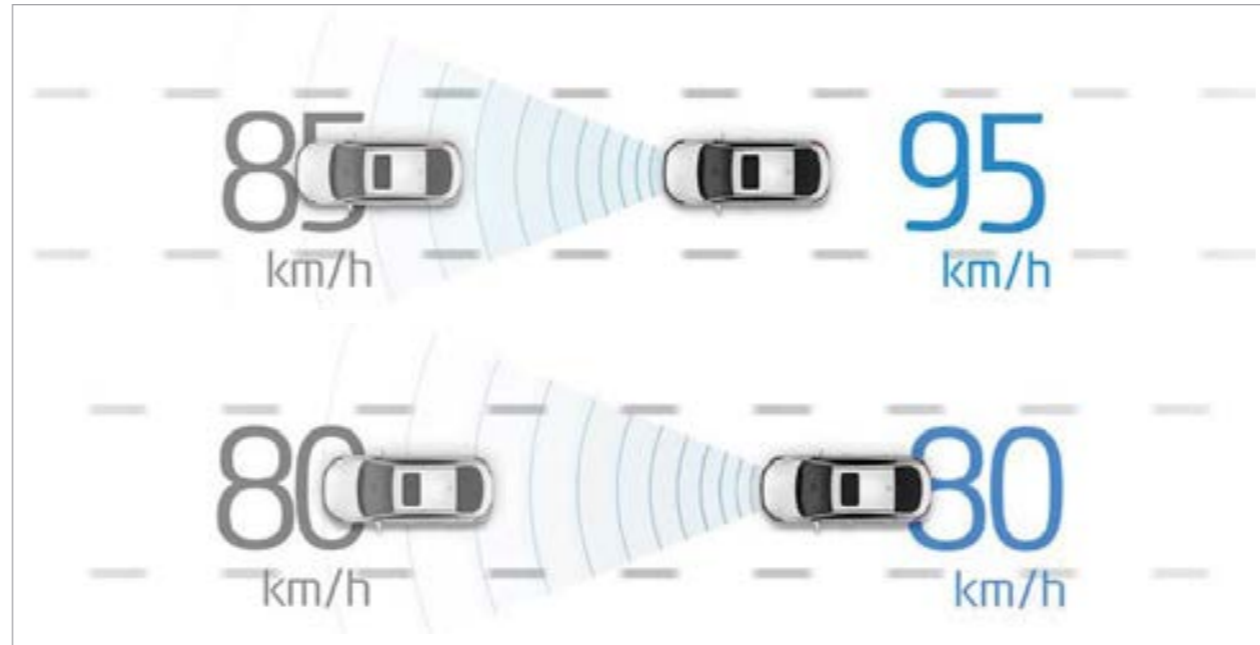

The IONIQ's safety features are in a class of their own, with a combination of advanced technologies and perceptive innovation to keep you on course.

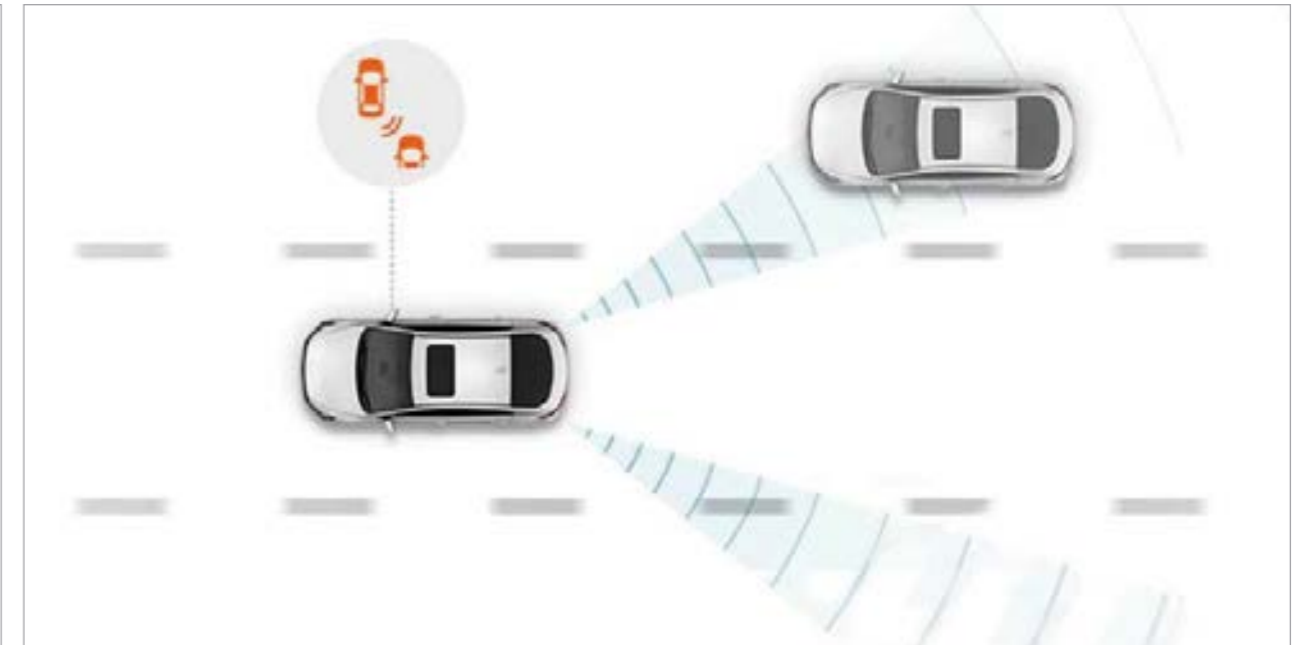

Lane Departure Warning (LDW) System with Lane Keep Assist (LKA)*

Autonomous Emergency Braking (AEB)*

Smart Adaptive Cruise Control (SCC)*

Blind Spot Detection System (BSD)*

The IONIQ comes complete with a range of advanced innovative driver assist technologies. 7 airbags bring peace of mind, and advanced sensors give IONIQ unrivalled road presence. The Lane Departure Warning System with Lane Keep Assist warns if you veer out of lane and applies corrective steering if necessary. Autonomous Emergency Braking helps avoid collisions with cyclists, pedestrians or other road users with visual and audible warnings and can even apply partial or complete braking if required. Rear radar sensors provide Blind Spot Detection when changing lanes or reversing, and Smart Adaptive Cruise Control keeps a safe distance between you and the vehicle in front. The cutting-edge combination of built-in radar, cameras and sensors take care of you and other road users intuitively, allowing you to enjoy the drive and know that the IONIQ has your safety covered.

* Subject to specification and trim level.

Charging to fit your lifestyle.

Charging your IONIQ Electric or Plug-in Hybrid is refined refueling. You can take advantage of safe and efficient charging almost anywhere. With over 80% of recharging being done at home, we've partnered with POD Point to provide homechargers, giving you the flexibility to roam when and where you want. And when you're out and about, there is a huge number of charging points available – all easy to find on the Zap-Map website. Charging quickly becomes part of the routine, and we've made it easier and more economical with Bluelink. The Bluelink app links to the car energy management system and allows you to check the state of charge remotely, activate it or stop it – you can even schedule the temperature setting so the car is at the right temperature when you want to go : literally allowing you to jump in your car and drive off with no need to wait for the defrosting function to kick in on a cold morning (IONIQ Electric only). Driving Electric is definitely the way forward.

Charging on-the-move

CCS Combo

(IONIQ Electric only)

Charging speed: Rapid

Connection to car: CCS Combo

Output connection: CCS Combo

Estimated charge times:

50 kW: approx. 57 minutes

(to 80% of the charge)

Rating: Varies from manufacturer to manufacturer. Not supplied by HMUK.

7-Pin Type 2

(IONIQ Electric and Plug-in Hybrid)

Charging speed: Normal

Connection to car: Type 2

Output connection: Type 2

Estimated charge times:

Approx. 6 hours 5 minutes (Electric)

2 hours 15 (Plug-in Hybrid)

(to fully charge, 100%)

Rating: 240V/32A/7kW

Charging at home

7-Pin Type 2

(IONIQ Electric and Plug-in Hybrid)

Charging speed: Normal

Connection to car: Type 2

Output connection: Type 2

Estimated charge times:

Approx. 6 hours 5 minutes (IONIQ Electric)

2 hours 15 (IONIQ Plug-in Hybrid)

(to fully charge, 100%)

Rating: 240V/32A/7kW

Emergency

In-Car Control Box (ICCB)*

(IONIQ Electric and Plug-in Hybrid)

Charging speed: Trickle/Slow

Connection to car: Type 2

Output connection: 3 Pin Plug

Estimated charge times:

19 hours (IONIQ Electric)

5 to 6 hours (IONIQ Plug-in Hybrid)

(to fully charge, 100%)

Rating: 230V/10A/2.3kW*

Please note that the IONIQ Electric 7.2 kW on Board charger (OBC) will impose the following maximum rating: 230V/28A/7.2 kW and the IONIQ Plug-in Hybrid OBC will impose the following maximum rating: 230V/14A/3.3kW

* Not to be used with an extension lead

Hybrid SE Connect offers the following features as standard:

- 15" Alloy Wheels
- 8" Touchscreen Media Centre
- Android Auto and Apple CarPlay
- Automatic Headlights with Dusk Sensor
- Autonomous Emergency Braking with pedestrian and cyclist detection (AEB)
- Climate Control
- Cruise Control - Conventional
- Daytime Running Lights - LED
- Driver Attention Alert
- Driver's Seat Lumbar Support (Electric)
- e-Call
- High Beam Assist
- Lane Departure Warning with Lane Keep Assist (LKA)
- Leather Wrapped Steering Wheel
- Parking Guidance System
- Rear Parking Sensors
- Rear View Monitor
- Seat Trim - Cloth
- Tyre Repair Kit

Options:

- Metallic / Pearl / Special Paint

Hybrid Premium offers the following features over Hybrid SE Connect:

- 15" Alloy Wheels
- Automatic Dimming Rear View Mirror
- Bluelink Telematics
- Front Seats - Heated
- Headlights - LED
- Interior Door Handles - Chrome Effect
- Smart Key - Keyless Entry with Engine Start/Stop Button
- Steering Wheel - Heated
- Wide Touchscreen Satellite Navigation (10.25") with MapCare
- Window Surround - Chrome Finish
- Wireless Phone Charging Pad

Options:

- Metallic / Pearl / Special Paint

Hybrid Premium SE offers the following features over Hybrid Premium:

- 17" Alloy Wheels
 - Automatic De-fog System
 - Automatic Wipers with Rain Sensor
 - Blind Spot Detection System (BSD)
 - Cruise Control – Adaptive Speed Control with Stop & Go
 - Driver's Seat Electric Adjustments & Memory
 - Electric Parking Brake
 - Exterior Door Handles - Chrome Insert
 - Front Seats - Heated and Ventilated
 - Lane Follow Assist
 - Privacy Glass
 - Rear Seats (Outer) - Heated
 - Rear Cross Traffic Alert (RCTA)
 - Seat Trim - Leather (Seat Facings Only)
- Options:**
- Metallic / Pearl / Special Paint
 - Shale Grey or Red Umber Leather
 - 15" alloys in lieu of 17" alloys*
 - Sunroof - Tilt and Slide Non-Panoramic

Plug-in Hybrid Premium Offers the following features as standard:

- 16" Alloy Wheels
- Android Auto and Apple CarPlay
- Autonomous Emergency Braking (AEB) with pedestrian and cyclist detection
- Automatic Dimming Rear View Mirror
- Automatic Headlights with Dusk Sensor
- Bluelink Telematics
- Climate Control
- Daytime Running Lights - LED
- Driver Attention Alert
- Driver's Seat Lumbar Support (Electric)
- e-Call
- Electric Parking Brake
- Front Seats - Heated
- Headlights - Full LED
- High Beam Assist
- Interior Door Handles - Chrome Effect
- Lane Departure Warning with Lane Keep Assist (LKA)
- Leather Wrapped Steering Wheel
- Parking Guidance System
- Rear Parking Sensors
- Rear View Monitor
- Smart Key – Keyless Entry with Engine Start/Stop Button
- Seat Trim - Cloth
- Steering Wheel - Heated
- Tyre Repair Kit
- Window Surround - Chrome Finish
- Wireless Phone Charging Pad
- Wide Touchscreen Satellite Navigation (10.25") with MapCare

Options:

- Metallic / Pearl / Special Paint

Plug-in Hybrid Premium SE Offers the following features over Plug-in Hybrid Premium:

- Automatic De-fog System
- Automatic Wipers with Rain Sensor
- Blind Spot Detection System (BSD)
- Driver's Seat Electric Adjustments & Memory
- Exterior Door Handles - Chrome Insert
- Front Seats - Heated and Ventilated
- Lane Follow Assist
- Privacy Glass
- Rear Outer Seats - Heated
- Rear Cross Traffic Alert (RCTA)
- Seat Trim - Leather (Seat Facings Only)

Options:

- Metallic / Pearl / Special Paint
- Shale Grey or Red Umber Leather
- Sunroof - Tilt and Slide Non-Panoramic

Electric Premium offers the following features as standard:

- 16" Alloy Wheels
- Android Auto and Apple CarPlay
- Automatic De-fog System
- Autonomous Emergency Braking (AEB) with pedestrian and cyclist detection
- Automatic Dimming Rear View Mirror
- Automatic Headlights with Dusk Sensor
- Automatic Wipers with Rain Sensor
- Bluelink Telematics
- Climate Control
- Daytime Running Lights - LED
- Driver Attention Alert
- Driver's Seat Lumbar Support (Electric)
- Electric Parking Brake
- e-Call
- Front Seats - Heated
- Headlights - LED
- High Beam Assist
- Interior Door Handles - Chrome Effect
- Lane Departure Warning with Lane Keep Assist (LKA)
- Leather Wrapped Steering Wheel
- Parking Guidance System
- Rear Parking Sensors
- Rear View Monitor
- Seat Trim - Cloth
- Smart Adaptive Speed Control with Stop and GO
- Smart Key – Keyless Entry with Engine Start/Stop Button
- Steering Wheel - Heated
- Tyre Repair Kit
- Window Surround - Chrome Finish
- Wireless Phone Charging Pad
- Wide Touchscreen Satellite Navigation (10.25") with MapCare

Options:

- Metallic / Pearl / Special Paint

Electric Premium SE offers the following features over Plug-in Hybrid Premium:

- Blind Spot Detection System (BSD)
- Driver's Seat Electric Adjustments & Memory
- Exterior Door Handles - Chrome Insert
- Front Seats - Heated and Ventilated
- Lane Follow Assist (LFA)
- Privacy Glass
- Rear Outer Seats – Heated
- Rear Cross Traffic Alert (RCTA)
- Seat Trim - Leather (Seat Facings Only)

Options:

- Metallic / Pearl / Special Paint
- Shale Grey or Electric Shadow Leather
- Sunroof - Tilt and Slide Non-Panoramic

IONIQ DIMENSIONS

These vehicles have been type approved under the Worldwide Harmonised Light-Duty Vehicles Test Procedure (WLTP). These test figures are for comparative purposes and may not reflect actual driving results. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

* Charging times for the high voltage battery may vary as it is dependent on the condition of the high voltage battery, charger specifications and ambient temperature.

† Kerb Weight defined as the total weight of a vehicle with standard equipment (the minimum figure) and factory fitted optional equipment (the maximum figure) and all necessary operating consumables such as oils, coolant, air conditioning refrigerant and a full tank of fuel, while not loaded with either driver, passengers or cargo.

‡ Payload is the difference between the Gross Vehicle Weight and the Kerb Weight.

** Gross Vehicle Weight is the maximum allowable weight of the vehicle, fully loaded with passengers and cargo (The Payload) and includes the weight of the vehicle.

†† The Gross Train Weight is the weight of the fully loaded vehicle plus a fully loaded trailer and must not be exceeded.

Δ These figures were obtained using a combination of battery power and fuel. IONIQ Plug-in Hybrid requires mains electricity for charging its high voltage battery. These test figures are for comparative purposes. Only compare, Fuel Consumption, CO₂ and electric range figures with other cars tested to the same technical procedures.

††† These figures were obtained after the battery had been fully charged. The IONIQ Electric is a battery electric vehicle requiring mains electricity for charging its high voltage battery. Figures shown are for comparability purposes. Only compare, CO₂ and electric range figures with other cars tested to the same technical procedures.

Hyundai Finance

Hyundai Finance provides a range of products to make the purchase of your Hyundai even more accessible. To meet your requirements, our plans are simple but offer you the same quality and flexibility as your new Hyundai. Applying for a finance plan through your local Hyundai dealer is easy and they will support you in choosing the right plan for your needs.

As a customer your satisfaction is at the heart of our business, and whilst you are able to manage your account online, we are only a phone call away should you require any help or assistance. We offer two main products to assist your car purchase:

PERSONAL MOTOR LOAN

Personal Motor Loan is a simple and traditional way to finance your car over a fixed period. You decide to fund the entire purchase price or put down a deposit and as your interest rate is fixed you'll pay the same amount each month. After all repayments have been made you'll own the car.

PERSONAL CONTRACT PURCHASE (PCP)

Personal Contract Purchase could make it easier for you to get behind the wheel of your Hyundai, it may also help you to change your car on a more regular basis.

The way it works is simple — you decide what level of deposit to pay. From nil, up to a maximum of 50%. You also decide your repayment period (typically 25, 37 or 49 months) and set your anticipated annual mileage. This will determine your optional final payment.

You will then make fixed monthly repayments based on the outstanding balance and interest, less your optional final payment, and at the end of your monthly repayment period you will have three choices: return, retain or renew.

RETURN: you can hand the car back to us with nothing further to pay (subject to fair wear and tear, and/or excess mileage charges may apply).

RETAIN: you can pay the optional final payment and the car is yours.

RENEW: you can part exchange the car, using any equity over and above the optional final payment as deposit on your next car (equity is anticipated, but this cannot be guaranteed).

PERSONAL CONTRACT HIRE

Personal Contract Hire is the choice favoured by most people who would prefer to lease a car, rather than own one. You pay an initial upfront advance rental (amount dependent on size of monthly rental), usually the equivalent to three, six or nine monthly rentals. You then pay a fixed monthly rental fee (plus VAT) and in return have the right to use your chosen car over a pre-agreed period and mileage.

At the end of this period you are not responsible for the disposal, you simply return the car without further cost, providing it has not exceeded the agreed mileage and the condition is reflective of its age and mileage. There is no option to own the car at the end of the contact.

T&Cs apply. Subject to status. Applicants must be 18 or over. Guarantee/Indemnity may be required. Hyundai Finance, RH2 9AQ

5 Year Unlimited Mileage Warranty

At Hyundai we continually invest in the latest manufacturing technology designed to give you years of enjoyable motoring. Our trust in our products is backed up by our comprehensive aftercare package to ensure you have the best possible experience as a Hyundai owner.

Only Hyundai-trained technicians will carry out any warranty work, and we'll also check for any software updates to keep your car running smoothly. You can be sure that we'll only use Hyundai Genuine Parts - tested and approved by us.

5 YEAR UNLIMITED MILEAGE WARRANTY

Peace of mind comes as standard with our manufacturer-backed, unlimited mileage, 5 year warranty* which protects your Hyundai against manufacturing defects** and is fully transferable to the next owner.

HYUNDAI ROADSIDE ASSISTANCE

24 hour roadside assistance should you ever need it, anywhere in the UK or Channel Islands, with Onward Travel included to get you home if your car can't be fixed at the roadside†.

5 ANNUAL VEHICLE HEALTH CHECKS

Free, expert visual inspections by your Hyundai dealer on key areas of your car, to help spot any potential problems early.

ADDITIONAL AFTERCARE

A 12 year anti-perforation warranty against perforation of the bodywork, from the inside of the panel outwards.

8 YEAR BATTERY WARRANTY

For peace-of-mind long into the future, you'll also receive an 8 year warranty on the high voltage battery of your IONIQ.

* Vehicles used for taxi, daily rental hire and reward or light commercial vehicles are limited to 100,000 miles. Terms and conditions apply. Visit hyundai.co.uk/warranty for further details.

** Vehicles used for taxi or private hire are covered by a 5 year, 100,000 mile warranty. Cover excludes fair wear and tear.

† Complimentary Hyundai Roadside Assistance automatically covers your Hyundai for 12 months from the date of first registration and can be re-activated annually upon adhering to the recommended service schedule at an Authorised Hyundai Dealer. Visit hyundai.co.uk/assistance for further details.

Hyundai Service Plans

For the school runs and the shopping trips. The multi-storeys and the motorways. Holidays, the commute, the appointment you simply can't be late for. This is your driving life.

Hyundai Service Plans are a convenient way to plan ahead, with a bespoke plan, tailored for your individual circumstances. So you're simply free to live your driving life knowing your servicing costs are already covered. With payment options to suit you and no interest or credit checks. Just the certainty that your Hyundai is always in great hands.

For more information visit hyundai.co.uk/owning, contact your local dealer or call us on **0800 981 981**.
