Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price.

GLC

Technology

Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice or touch input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC[1] lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

Personalisation

- Turn the new GLC into your very own Mercedes-Benz by personalising driving modes, radio stations and
much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Touch inputs

- Beside voice control you can operate MBUX via touchscreen or the touch control buttons on the steering wheel

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a petrol station? Just ask your MBUX – it will tell you the answer

[1]LINGUATRONIC off-board functions are currently only available for three years

Mercedes me connect Stay connected any time, anywhere.

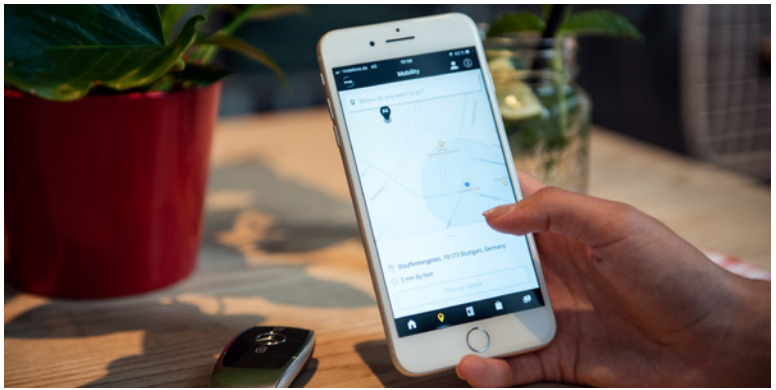

Mercedes me

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

Safety and Service – Mercedes me connect helps to keep you and your car safe

Check your car's oil level, tyre pressure and fuel from your phone so you'll be ready for every journey.

Infotainment – Online and Entertainment services from Mercedes me connect

Love music? Get a 3-month free subscription to Tidal when you connect your car.

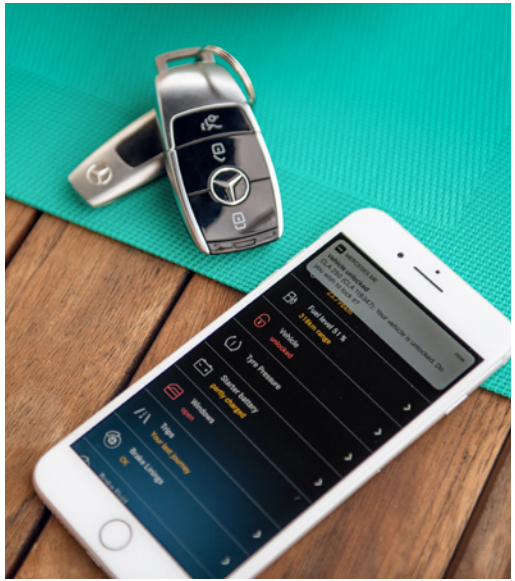

Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect

Forgot where you've parked? Parked Vehicle Locator[1] will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Retailer or visit the Mercedes me connect store at shop.mercedes-benz.com/en-gb/connect

Comfort – connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock[2] you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

[1]Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

[2]Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

GLC

Plug-in Hybrid

Plug-in Hybrid Electric Vehicles (PHEVs) Benefits of driving plug-in hybrid.

Our plug-in hybrids feature either a petrol or diesel powertrain, combined with a High Voltage battery and electric motor. Enjoy hybrid mode for maximum efficiency, or all-electric mode for local emission-free driving.

Lower road fund license

Plug-in hybrid vehicles have lower emissions – this means you pay less for road tax.

Cleaner vehicle discount

Plug-in hybrid models qualify for the 100% cleaner vehicle discount within the London Congestion Charge zone.

Business benefits

With 100% first-year capital allowances[1] and lower Company Car tax, electric cars offer significant benefits to businesses and employees.

› Click here for more information

[1]100% first-year capital allowances only apply to vehicles less than 50 g CO_2/km

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price.

Plug-in Hybrid Electric Vehicles (PHEVs) The new GLC 300 e.

Plug-in hybrid vehicles enjoy the same functionality of full Hybrid technology, with the added benefit that they can be charged from an external electricity source.

GLC 300 e 4MATIC
Petrol – 1,999 cc, 4-cylinder, 204 hp/150 kW
Electric motor – 136 hp/100 kW

OTR from **£62,210**[1]

Available as: AMG Line, AMG Line Premium and AMG Line Premium Plus

Standard equipment	
Charging cable – Mode 3 cable (4 metres, straight) for wallbox and public charging stations	Pre-entry climate control
Charging socket	Radar-based recuperation
Charging system – AC charging system rated at 7.4 kW AC	Remote and Charging Services Plus

Technical details	
Equivalent All-Electric Range (EAER)[2]	up to 80 miles
Charging time – wallbox (7.4 kW AC) 10–100%[3]	2 hrs 30 mins
Range power consumption, combined[2,4]	20.4–22.5 kWh/100 km
Battery type (capacity)	lithium-ion (31.2 kWh)
Capacity on-board charger	7.4 kW AC

[1]The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£730.00 incl. VAT), new vehicle registration fee (£55.00), fuel (£50.00 incl. VAT), and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%. Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price [2]The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. For Plug-in Hybrid Electric Vehicle (PHEV) figures determined with the battery fully charged, using a combination of both battery power and fuel. These models require mains electricity for charging [3]Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wallbox (three-phase) or standard socket (single-phase) [4]The certified electrical consumption is generally determined at maximum AC charging capacity using a Mode 3 cable. It is therefore recommended that vehicles with a HV battery preferably be charged at a wallbox or an AC charging station with a Mode 3 cable in order to achieve shorter charging times and improved charging efficiency

Mercedes me Charge One registration, one contract, one billing.

Mercedes me

Mercedes me Charge provides access to a multitude of public charging stations located in shopping centres, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK. Customers also get six months free bp pulse+ membership which reduces the electricity price when charging.

Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes me app
- RFID card
- Mercedes-EQ Vehicle Head unit

Green charging

All charging using Mercedes me Charge, will be retrospectively 'greened' by Mercedes-Benz. Please click **here** for more info.

Transparent and easy billing

One invoice charging processes for payment.

Easy access

Charging stations are displayed in Mercedes me app and in MBUX multimedia system.

No fees

Mercedes me Charge is standard for one year with discounted IONITY rapid-charging for one year.

Mercedes me Charge Tariffs

Mercedes me

For more transparency and predictability, enjoy numerous features tailored to your charging habits with the new Mercedes me Charge fixed-priced tariffs S, M and L. Owners of a new Plug-in Hybrid model will be entitled to the Mercedes me Charge tariff M free of charge for the duration of 12 months.

Tariff L

Recommended for 'frequent drivers'

Choose our tariff L to benefit from the best fixed prices for public charging, including discounted rapid-charging at IONITY charging stations as well as all Mercedes me Charge features. This tariff is recommended for frequent and long-distance drivers.

Consisting of:

- All Mercedes me Charge features
- Fixed prices per kWh (AC: £0.30/kWh; DC: £0.39/kWh)[1]
- IONITY rapid-charging stations discounted (£0.26/kWh)

£16.20/month

Tariff M

Recommended for 'regular drivers'

Should you wish to downgrade your tariff package after 12 months but still want to benefit from fixed prices, discounted rapid-charging at IONITY charging stations and complete transparency, choose tariff M. This tariff is recommended for regular drivers.

Consisting of:

- All Mercedes me Charge features
- Fixed prices per kWh (AC: £0.35/kWh; DC: £0.45/kWh)[1]
- IONITY rapid-charging stations discounted (£0.45/kWh)

Free of charge for the duration of 12 months. Thereafter: £4.90/month

Tariff S

Recommended for 'casual drivers'

Should you wish to downgrade your tariff package after 12 months, there is the option to go for tariff S, which still offers you all the Mercedes me Charge features based on flexible prices per kWh. This tariff is recommended for casual drivers.

Consisting of:

- All Mercedes me Charge features
- Flexible prices per kWh

£0/month

[1]Tariff rate excludes the BP Pulse charging network

Home charging with bp pulse Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a home charger. Charge your vehicle with the home charger up to 3x faster than using a standard domestic socket.

Home charging with bp pulse: £999* incl. VAT and standard installation

Key benefits of bp pulse:

bp pulse is one of the only full-service charging solution providers in the UK – producing and installing tens of thousands of their own smart-enabled and reliable Homecharge units across the country.

A comprehensive 3 year warranty.

The standard installation package includes up to 15 m of external cabling.

It comes with a bundled offer of 3 month free subscription to the public network and 250 free miles of charge.

The bp pulse home unit is designed from the ground up to be user friendly, future proofed and feature packed with an exciting roadmap of over the air updates ahead.

The bp pulse public network consists of over 9,000 charging bays across the UK. Average costs are between £0.30–£0.55 per kW across fast, rapid and ultra-rapid charge points with the best rates on a subscription basis.

Choice of tethered or un-tethered units

OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger.[1]
To find out whether you are entitled please contact your local Retailer.

Questions?

Please contact your local Retailer to submit an enquiry to your chosen charging partner on your behalf. To find your local Retailer, please click the button at the top right hand corner.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change
[1]The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21.

Home charging with Pod Point Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a home charger. Charge your vehicle with the home charger up to 3x faster than using a standard domestic socket.

Home charging with Pod Point: £875* incl. VAT and standard installation

Key benefits of Pod Point:

- Pod Point is one of the leading provider of EV charging in the UK with over 120,000 home chargepoints installed.
- A comprehensive 3 year 'swap out' warranty is included.
- Auto Power Balancing lets you adjust your charge so that your electrical supply doesn't get overloaded when your home is using a lot of energy.
- Built-in earthing protection removes the needs for expensive earth rods.
- The Pod Point public network consists of over 6,200 charging bays across the UK with over 80% of the charge points free to use.
- The standard installation package includes up 15 m of external cabling.
- Choice of tethered or un-tethered units.

OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger.[1]
To find out whether you are entitled please contact your local Retailer.

Questions?

Please contact your local Retailer to submit an enquiry to your chosen charging partner on your behalf. To find your local Retailer, please click the button at the top right hand corner.

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change
[1]The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21.

GLC Model lines overview

Driving Assistance package Plus

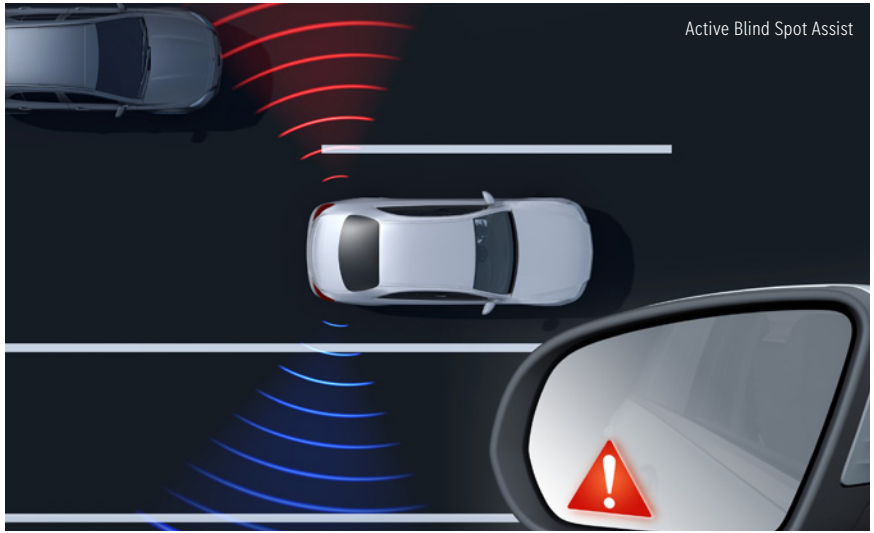

The Driving Assistance package Plus[1] contains a range of highly intelligent features to help you stay safe on the road – by making the drive more effortless, by warning of danger, and by taking steps to protect you in an emergency.

Driving Assistance package Plus[1] (code P20) – designed and priced as a package, including items as listed.

Only available for AMG Line Premium Plus **Total incl. VAT £1,695.00**

Active Blind Spot Assist can warn the driver of vehicles in the blind spot during a lane change and can help to avoid a collision by means of one sided braking intervention.

Active Braking Assist with cross traffic function can help to avoid accidents with vehicles ahead, crossing traffic and also pedestrians, and/or mitigate their consequences.

Active Distance Assist DISTRONIC relieves the strain on the driver and provides support in both flowing and stop and go traffic. The intelligent system controls the distance from the vehicle in front, adapts the driving speed to what is happening en route and takes on the demanding task of following a queue or traffic jam

Active Lane Change Assist supports you by bringing you into the parallel lane if there is space when changing lanes.

Active Speed Limit Assist helps you to observe the stipulated maximum permissible speed, even in unclear situations. A camera detects maximum permissible speeds, which Active Distance Assist DISTRONIC automatically adopts and sets as the speed for enhanced safety and comfort when driving.

Evasive Steering Assist can support the driver in making evasive manoeuvres if, in a dangerous situation, he/she moves to avoid any pedestrian detected by the system

PRE SAFE® can prepare the occupants for a side on collision and reduce the risk of injury. Like a bodyguard, it pushes the driver or front passenger away from the danger zone towards the inside.

PRE SAFE® PLUS when a rear end collision threatens, PRE SAFE PLUS can initiate preventive measures, including warning following traffic and locking the brakes on standstill.

[1]Our driver assistance and safety systems are aids and do not relieve you of your responsibility as the driver. Please take note of the information in the Owner's Manual and the system limits which are described therein

Trailer coupling with ESP® trailer stabilisation

Trailer coupling with ESP trailer stabilisation (code 550)

Available on all models **Total incl. VAT £695.00**

Expand your transport options: with this practical equipment you can hitch up both trailers or caravans and also mount cycle racks. The trailer coupling is ready for use in no time at all – and can be folded in again behind the rear bumper just as quickly when it is no longer needed.

Operating safety is the top priority: to fold out the trailer coupling, you must first unlock it via the control button in the boot. As soon as the button light goes out, the trailer coupling is correctly engaged and is therefore ready for use.

Even when driving you can benefit from a comprehensive safety concept: the ESP® trailer stabilisation is able to intervene automatically in critical situations when driving with a trailer. The associated sensor system detects the trailer independently as soon as the electric plug is connected to your vehicle.

The ESP® stabilisation functions are automatically active from a speed of 40 mph. When undesired oscillating motions are detected, the Trailer Stability Assist actively dampens these with the aid of alternate brake actuation of each individual wheel. In most cases this is already sufficient to reduce dangerous oscillations. If necessary, the system additionally reduces the speed: for this, the engine torque is reduced and the vehicle is braked via all four wheels.

Safety and Assistance Systems			
Active bonnet – pedestrian safety measure which detects an impact and raises bonnet	●	●	●
Active Brake Assist[1]	●	●	●
Active Parking Assist with PARKTRONIC – detects parking spaces at up to 22mph, controls steering, in conjunction with automatic transmission it also helps with accelerating, braking and changing gear. Visual and audible warning of detected obstacles based on distance and position and on detecting crossing traffic when reversing out of a parking space. System is able to briefly limit the moving-off speed when an obstacle is detected in the direction of travel	●	●	●
Acoustic presence indicator	●	●	●
Adaptive brake lights	●	●	●
ADAPTIVE BRAKE system with HOLD function and dry braking in the wet	●	●	●
Anti-theft alarm system with immobiliser and interior protection	●	●	●

	AMG Line	AMG Line Premium	AMG Line Premium Plus
ATTENTION ASSIST – continuously analyses driver behaviour and steering movements. If patterns are recognised which characterise drowsiness, the driver is prompted to take a break, and an audible warning is sounded	●	●	●
Automatic child seat recognition sensor	●	●	●
Automatic front passenger airbag deactivation	●	●	●
Blind Spot Assist	–	●	●
Braking system with larger brake discs on the front axle (mild hybrid engines only)	●	●	●
COLLISION PREVENTION ASSIST PLUS – the driver is given a visual warning if the distance from a vehicle in front is inadequate. On detecting the danger of a collision there is an acoustic warning, driver braking can be assisted and, if the driver fails to react, the speed can be reduced autonomously. Autonomous partial braking only occurs if the driver fails to react and is travelling at a speed range between 4–65 mph speeds for moving objects and 4–31 mph for stationary objects	●	●	●
Dual-stage airbags – driver and front passenger; driver kneebag and windowbags for driver, front passenger and rear passengers	●	●	●
Electric parking brake	●	●	●
Electronic Stability Programme (ESP®) with Curve Dynamic Assist and Crosswind Assist – for greater driving safety and stability, in particular when accelerating on bends; counters understeer by one-sided braking action. Detects sudden, strong gusts of wind and helps the driver stay in lane by means of targeted braking	●	●	●
Fluorescent jacket for driver	●	●	●
GUARD 360° vehicle protection Plus	●	●	●
Instrument display in miles with English lettering	●	●	●
ISOFIX child seat attachment points with top tether in rear (two outer seats)	●	●	●
Mercedes-Benz emergency call system	●	●	●

[1]Our driver assistance and safety systems are aids and do not relieve you of your responsibility as the driver. Please take note of the information in the Owner's Manual and the system limits which are described therein

Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your GLC.

DUO plus child seat, with ISOFIX

Safe and secure: children between the ages of 9 months and 4 years (weight 9 to 18 kg) will enjoy travelling in the DUO plus child seat from Mercedes-Benz. The seat offers optimum protection in the event of an accident. A quick change of position: sitting, reclining and sleeping positions are adjustable with one simple manoeuvre. (A0009704302)

KIDFIX XP child seat, with ISOFIX

Support and safety for older children too: The KIDFIX XP child seat is suitable for children between the ages of 4 to 12 years (body weight of 15–36 kg). It is securely attached to the vehicle using ISOFIX. The front-facing seat can also be secured in place using the 3-point seat belt. (A0009704902)

Mercedes-Benz roof box

The Mercedes-Benz roof box allows you to safely transport your leisure accessories. Easy to slide into place and secure, the roof box is UV-resistant, impact-resistant, sturdy and durable.
(Capacity approx. 400 litres: A0008401100; Capacity approx. 450 litres: A0008401200)

Basic carrier bars for roof rails

Our basic carrier bars for roof rails are precision-tailored to the body of your vehicle. They offer the basis for a range of Mercedes-Benz transport accessories, for example, bicycle rack or roof boxes. (A2548901300)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Retailer for more information

[1]Figures according to Directive 80/1269/EEC in the currently applicable version [2]The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. For Plug-in Hybrid Electric Vehicle (PHEV) figures determined with the battery fully charged, using a combination of both battery power and fuel. These models require mains electricity for charging [3]The certified electrical consumption is generally determined at maximum AC charging capacity using a Mode 3 cable. It is therefore recommended that vehicles with a HV battery preferably be charged at a wallbox or an AC charging station with a Mode 3 cable in order to achieve shorter charging times and improved charging efficiency [4]Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wallbox (three-phase) or standard socket (single-phase)

[5]Mass of the vehicle in running order with at least 90% full fuel tank, plus the mass of the driver (estimated by law at 75 kg), fuel and fluids, equipped with the standard equipment as specified by the manufacturer as well as, where applicable, the mass of the body, cab, trailer coupling and spare wheel(s) as well as tools. Optional extras, additional equipment and accessories can influence the weight, residual payload, rolling resistance, aerodynamics, etc., and therefore also affect the consumption/CO_2 values [6]All figures are based on a standard specification with the smallest tyre size [7]The choice of wheels and transmission may affect CO_2 emissions and corresponding Road Fund Licence [8]The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK

AMG Line/Premium/Premium Plus

Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO_2 emissions. A first year rate for each taxation band will apply. The table below shows the bands (A–M) created by the DVLA and the corresponding Road Fund Licence. CO_2 emissions and the relevant Excise Duty are shown on the model pricing pages.

					Electric vehicles		Alternative fuel vehicles		Petrol/diesel vehicles	
Band	CO_2 emissions (g/km)	First year rate petrol and RDE2 diesel (£)	First year rate all other diesel (£)[1]	First year rate alternative fuel (£)	Standard rate (£)	Premium rate (£)[2]	Standard rate (£)	Premium rate (£)[2]	Standard rate (£)	Premium rate (£)[2]

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price.
[1]Applies to all Mercedes-Benz diesel models which do not comply with RDE (Real Driving Emissions) Step 2 Certified (Euro 6d)
[2]Premium rate only applicable to vehicles where the list price is over £40,000 including any factory-fitted options, standard UK delivery charge and VAT

Services and insurance

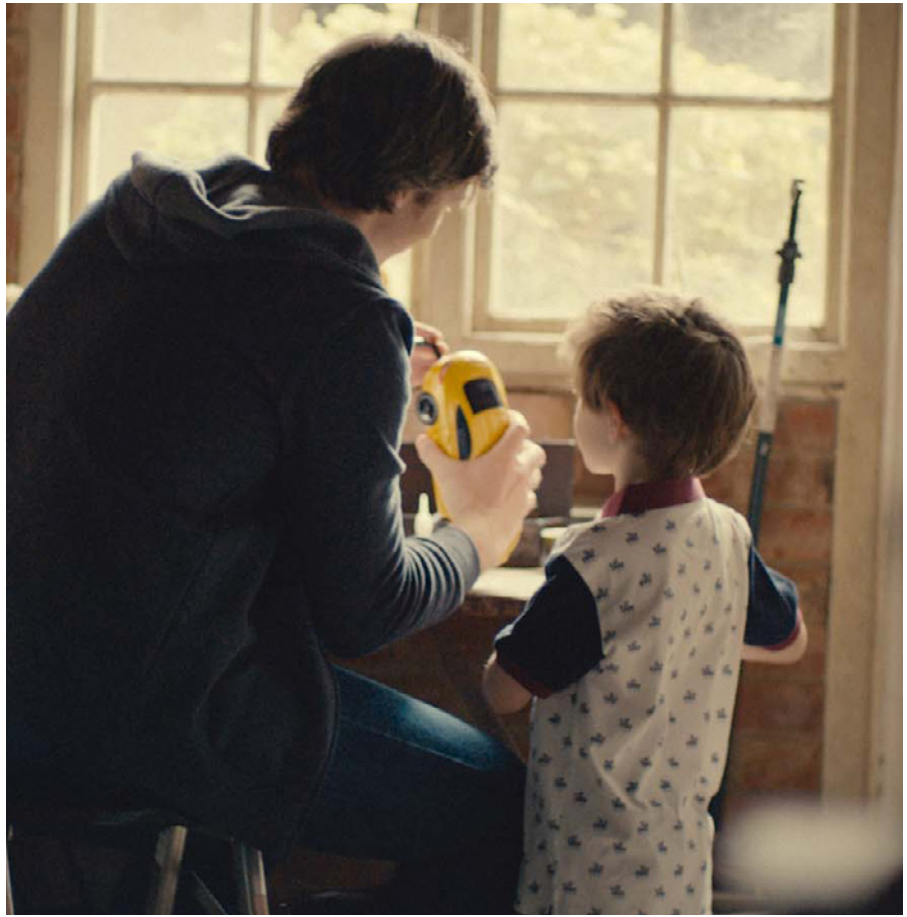

Mercedes-Benz ServiceCare
We believe that servicing costs should be as flexible and affordable as possible for your new GLC, which is why we offer ServiceCare, an easy way to budget for all your servicing costs. It spreads your bills into manageable payments based on whether you have a new or used Mercedes-Benz. With ServiceCare we guarantee the price of parts and labour for up to four services and safeguard against any further inflation. It also covers the cost of all recommended service items including brake fluid, spark plugs, air filters, fuel filters and screen wash.
You can choose either to add your servicing costs into your monthly spend or pay the full amount in a one-off payment, giving you peace of mind that they are taken care of for the period of the plan.

› Click here for more information

Warranty and breakdown cover
Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects[1] and up to 30 years warranty against perforation due to corrosion from the inside out.[2] What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.[2]

Motor Insurance
We know that once you have chosen your Mercedes-Benz you can't wait to drive it – that's why we created First Cover[3]. It gives you 7 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Retailer. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

› Apply for First Cover

[1]Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Retailers [2]Subject to full Terms and Conditions, dependent on date of registration, available upon request [3]Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance

Effective from September 2022 Production. Information correct at time of publication 29.09.2022.
Prices and specifications are subject to change without prior notice.
