

RENAULT 5

E-TECH

100% electric

19 November 2024

R5 IS BACK

With its mischievous and welcoming Pop design, the Renault 5 is electrifying its era. Its retro-futuristic design and its 100% electric E-Tech engine, the new made in Europe icon is revolutionising city driving. A lively city car with a range of up to 248 miles⁽¹⁾, 100% electric Renault 5 E-Tech offers exceptional driving pleasure.

A legendary vehicle, Renault 5 is reinventing electric vehicles with up to 150hp engine and its bi-directional functionality.

#R5INVENT

With its cheeky grin, the front of the Renault 5 beams at you. Featuring a subtle tricolour flag, the headlights seem to give a knowing wink⁽¹⁾. The design is sleek and the lines remain effortlessly elegant. With a customisable roof⁽²⁾ and vibrant pop yellow! colour, the Renault 5 is reimagining emotional design.

(1) from techno version. (2) optional from techno version.

ICONIC DESIGN

Instantly recognisable by its sleek grille and distinctive headlights, the Renault 5 has reinterpreted and refreshed the details of its seventies predecessor⁽¹⁾. The two rectangular shapes with rounded corners pay homage to the classic Renault 5 Turbo.

At the rear, the lights are vertically aligned, contributing to the Renault 5's aerodynamic shape. Moulding marked with a '5' emphasises the boot line, while the shark fin aerial punctuates the roof, which is edged with a contrasting roofline⁽²⁾⁽³⁾.

As a reminder, the bonnet ventilation grille has a new function. Transformed into a charge indicator, the number '5' illuminates when the driver approaches or when the battery is at its maximum⁽⁴⁾.

(1) in the 70s. (2) available from techno version. (3) roofline colour varies depending on bi-tone colour chosen. (4) available from techno version - the '5' illuminates in increments of 20% to reflect the battery's charge.

The retro-futuristic seats are at the cutting edge of modernity, enhanced with the grey and marled yellow fabric⁽¹⁾. A big '5' affirms their personality and the H-shaped seats are reminiscent of the previous Renault 5 turbo. With 5 seats and 5 doors, and a boot capacity of up to 326L - there is plenty of space for all.

(1) grey seats with marled yellow on iconic five version only.

STYLE ON THE INSIDE

Your Renault 5 isn't complete without our 3D accessories, printed in France, including centre console storage with multiple designs to choose from and the customisable e-pop shifter.

#R5ENERGIZED

E-Tech 100% electric choice of 120hp 150hp	up to 248 miles of driving range ⁽¹⁾	choice of 40kWh battery 52kWh battery
0 to 62 mph in 8.0 seconds	torque up to 245 Nm	15% to 80% driving range in 30 min of charging ⁽¹⁾

(1) pending wltп certification, expected early 2025.

CHARGING MADE EASY

Whether you're at home, at work or on the move, you can take advantage of a wide range of services to charge your Renault 5 E-Tech 100% electric vehicle.

charging at home

Mobilize power solutions⁽¹⁾

Order your charging solution and installation from a dealership. Install your Renault approved home charger via Mobilize power solutions.

Mobilize smart charge

Smart charging means you pay less. Try the free Mobilize Smart Charge app, smart charging management to get electricity at the best price, and save on charging at home.

maximum 11 kW AC charging⁽²⁾

Charge Renault 5 E-Tech 100% electric easily at home⁽¹⁾ using a wall-mounted charging point or when you are on the move, where Renault 5 will take a maximum of 11kW on AC.

My Renault app

Check your range at any time, start charging remotely or schedule it at off-peak times. My Renault also offers further benefits, such as setting the cabin temperature remotely, meaning you can always get into a warm or cool car, depending on your preferences.

on-the-go charging

Mobilize charge pass

Make charging on the road easier and pay less. Charge Renault 5 quickly and easily on the move with a pass to Europe's largest charging network at attractive rates. With the **Plug & Charge function⁽³⁾**, you no longer need to use a pass or credit card, Renault 5 and the charging station recognise each other: simply plug in your vehicle and charging starts automatically. You are invoiced directly, with no action required.

up to 100kW DC rapid charge⁽⁴⁾

Charge Renault 5 quickly and easily when you are on the move; with up to 100 kW DC available, depending on the battery. This means around 30mins of charge will top your car up from 15% to 80% charge⁽⁴⁾.

My Renault app

Locate the public charging points closest to your destination.

(1) Mobilize power solutions offering. For more information about Mobilize services, go to the Mobilize services page. For more information about charging call: 0800 032 0567. (2) all versions / batteries are up to 11 kW AC. (3) Plug & Charge feature only works on compatible DC fast charging stations, expected to be available during 2025 and accessed free of charge via the Mobilize charge pass. (4) 40kWh battery versions are able to charge up to maximum 80kW DC, 52kWh battery versions are able to charge up to maximum 100kW DC 15-80% in 30mins on both 40kWh and 52kWh battery versions, wltpt certification is pending, expected early 2025. Charging time may vary depending on charging conditions, including charger type and condition, on-site power usage, battery temperature as well as ambient temperature at point of use, battery age and state of charge, and if battery safeguarding technology is activated. Rapid chargers only available on public charger network - visit MyRenault for coverage details.

Renault 5 E-Tech 100% electric comes with a mode 3-type⁽¹⁾ cable for use with a home⁽²⁾ or public charging point.

#R5DIGITALIZED

Take advantage of the openR link connected multimedia system with Google built-in⁽¹⁾ which is packed with more than 50 apps and a range of advanced connected services.

Discover reno, the official Renault avatar, via the openR link 10.1" screen. An innovative and fun avatar, it responds to your voice, providing proactive solutions.

(1) My Renault, Google Maps and Google Assistant connected services are provided free of charge for 5 years from the date of delivery of your vehicle. Google, Google Maps, Google News, Waze and other brand names are all trademarks of Google LLC.

"HEY RENO"⁽¹⁾

Download the wt5 by reno app on your smartphone to find out everything you need to know about your reno companion and its capabilities. As an ambassador for your Renault 5, reno will give your passengers a good time (games, quiz), inform you about the charge level and advise you on your vehicle and your driving.

I can interact by voice

The official Renault avatar is on board the Renault 5 to help you get to grips with the car and support you in your day-to-day driving. Any questions? Simply say **"Hey reno"** and ask it.

I can make your daily life easier

To prepare your journeys as well as possible, reno can act on certain Renault 5 commands at your request. Schedule charging, start preheating, or activate the air purifier.

I can advise you

Reno advises you on the use of your Renault 5. It suggests actions suited to your journey and your driving style, for example switching from sport mode to eco mode in the event of a traffic jam.

I can take care of maintenance

Reno looks after the maintenance of your Renault 5 and alerts you when there are technical problems to be solved or when there is a technical service to be carried out.

I can answer your questions

Fuelled by artificial intelligence, reno has the answer to everything: it can tell you about Renault 5 and many other topics. It can also offer user tutorials to make the most of the features of Renault 5.

(1) available from techno.

Download the app wt5 by reno

#R5SOURCEFUL

The Renault 5 has bidirectional functionality, meaning the energy stored in its battery can be redistributed. This capability allows it to power electrical devices through Vehicle to Load (V2L) technology. Using an adapter* connected to the charging port, standard 3-pin appliances can be powered directly from the car.

* Vehicle to Load adaptor is standard on techno 52kWh and iconic five 52kWh versions, otherwise can be purchased as an aftersales accessory. See equipment list for more details

#MADE IN EUROPE

Assembled in France at the Douai manufacturing plant and in collaboration with regional suppliers, Renault 5 E-Tech 100% electric embodies Renault Group's sustainable development commitments and promotes employment in all Hauts-de-France regions.

Recruitment
Objective
+ 700 jobs

#S5CURITY

25 ADVANCED DRIVING ASSISTANCE SYSTEMS*

active driver assist

This system regulates your speed by taking the road environment into account, maintains safe distances and ensures you remain in lane. When traffic slows down, the vehicle stops and restarts automatically.

automatic emergency braking

Warns the driver of an imminent risk of frontal collision with a stationary vehicle or an obstacle, at low speed. Triggers automatic emergency braking to avoid or mitigate a collision.

front detection with emergency trajectory correction

The system warns you of a potential collision with an overtaking vehicle in the adjacent lane. If a collision is likely, it performs an automatic emergency trajectory correction.

parking sensors

Provides acoustic and visual warning of the proximity of obstacles in front of you, behind you or to your side.

occupant safe exit alert

Warns of danger if, when stationary, you or a passenger opens one of the doors while another vehicle pops up.

driver attention alert

Monitors and evaluates driver behaviour. If the driver become less attentive, it invites him or her to take a break.

driver-assistance systems

- active driver assist
- hill start assist
- automatic main-beam/dipped headlights activation
- speed limiter
- cruise control
- adaptive cruise control

park assist systems

- rear parking sensors
- front parking sensors
- side parking sensors
- reversing camera
- hands-free parking

safety assistance systems

- distance warning
- lane departure warning
- occupant safe exit alert
- lane keeping assist
- blind spot warning
- rear cross traffic alert
- front detection with emergency trajectory correction
- rear detection with emergency trajectory correction
- rear automatic
- automatic emergency braking when reversing
- automatic emergency brake assist with intersection function
- road sign recognition
- traffic sign recognition and speed alert
- driver attention alert

*Number of ADAS features is version dependant. Always follow road safety regulations. It is your responsibility to stay alert, drive safely and be in control of the vehicle at all times. You should not solely rely on driver convenience and assistance features. Some features may not work in all conditions and circumstances, and they have speed and other limitations.

human first program is a comprehensive safety programme developed by Renault in collaboration with researchers, experts and fire services.

Because road safety concerns all road users, whether pedestrians, cyclists or motorists, human first program by Renault is committed to:

- 1. preventing accidents by developing safety equipment and advanced driver assistance and safety systems**
up to 32 advanced driver assistance systems / over 60 safety equipment, up to 7 airbags, child seats (Isofix), Renault Fixe4sure solution / more than 2,000 safety-related patents filed since 1970
- 2. dealing with accidents based on innovations developed with fire services**
QRescue / Fireman Access / more than 5,000 firefighters trained over 10 years in 19 countries around the world / around 400 cars donated per year for their training
- 3. reducing the number of accidents and their severity by investing massively in R&D**
safety score / safety coach / connected services / big data / artificial intelligence and cybersecurity systems
