

DAECIA DUSTER

FOR US, REAL PEOPLE

Dacia Duster goes further: more robust, more outdoor, more technological both on the outside and on board. It goes everywhere with you, whether in your daily life or on your getaways, thanks to its connectivity, unique features, and range of high-performance engines, which unveil a new offering: hybrid 155, mild hybrid 140 and petrol 4x4 with automatic transmission and eco-smart electric driving in the city.

THE REDESIGNED ICONIC SUV

Dacia Duster continues its success story and increases its versatility with its iconic design and its excellent off-road capabilities. Its Starkle® side protectors and wheel arches showcase its powerful SUV nature. Extremely practical for all your adventures, it comes with modular roof bars.

Y-shaped brand light

Heated electric door mirrors

NEW EXPERIENCE INSIDE

For the interior of its flagship SUV, Dacia has focused on ergonomics, design and your well-being on board. The driver has a carefully oriented 10,1" central display for easy access. The 7" customisable digital instrument panel keeps driving information in sight.

The new design of the steering wheel makes driving comfortable and makes it easier to get on board. In terms of style, the new graphic identity of the Y-shaped headlights is reflected in the door panel armrests and air vents, which come in Copper Brown for the extreme finish and Megalith Grey for the journey version.

In the extreme version, washable MicroCloud plastic-coated fabric upholstery

CONFIGURE AND ORDER

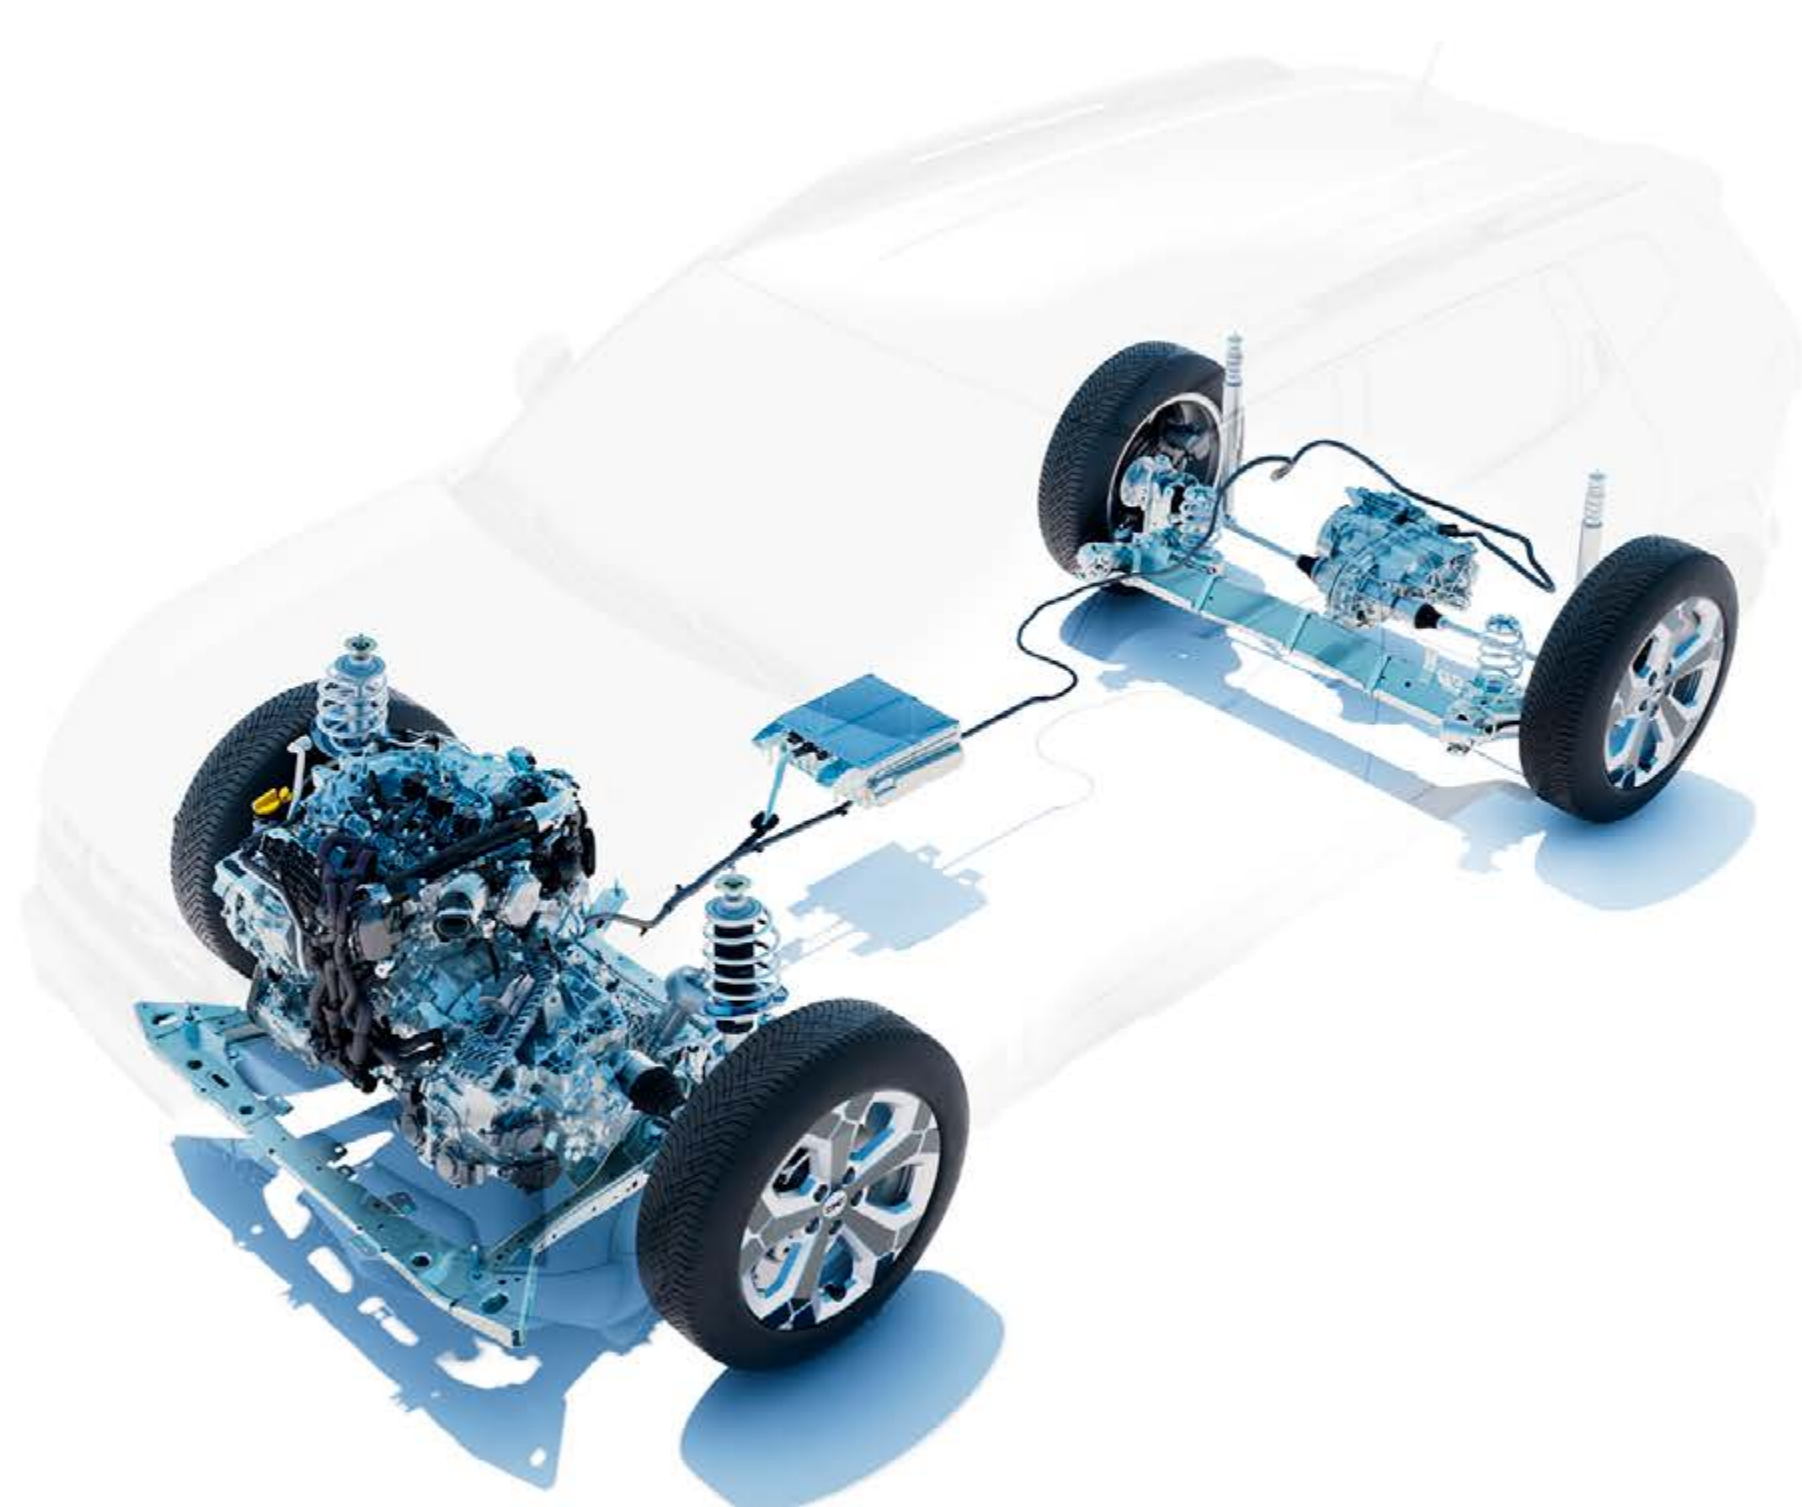

ALL-NEW HYBRID 150 4x4 ENGINE

Dacia is breaking new ground with the hybrid 150 4x4 engine, which offers unrivalled versatility by combining hybrid, electric 4x4 and a dual-clutch automatic gearbox. Equally at home in 4x2 or 4x4, Dacia Duster hybrid 150 4x4 can tackle any terrain thanks to its 5 driving modes. Its electric engine, located on the rear axle, means that it can be driven 60% of the time in all-electric mode in town, significantly reducing fuel consumption and emissions. On slippery roads, Snow mode ensures optimum safety thanks to all-wheel drive.

Its 6-speed automatic gearbox with steering wheel paddles ensures ultra-responsive, smoother gear changes.

Thanks to the combination of the automatic gearbox and the rear electric engine, 4x4 driving reaches a new level of simplicity and fluidity. When negotiating tricky stretches of road, there's no need to fine-tune the throttle: the automatic gearbox instantly adjusts gear changes for smooth, controlled progress. And to get out of ruts or tackle the most technical sections, the rear electric engine's immediate torque kicks in without delay.

The battery recharges automatically during deceleration and braking.

Steering wheel-mounted paddle shifters

6-speed automatic gearbox and drive mode selector dial

HIGH-PERFORMANCE HYBRID ENGINES

The Dacia Duster offers something completely new with a full range of mild hybrid and full hybrid engines, such as the 155 hp full hybrid engine coupled with a clutchless automatic gearbox: unrivalled driving pleasure, up to 80% of driving time in all-electric mode in urban areas, and up to 40% fuel savings⁽¹⁾. The battery recharges automatically during deceleration and braking.

Dacia Duster still exists in mild hybrid 140 petrol versions, supported by an electric system that accompanies the engine when accelerating and starting for more dynamic sensations and limiting your consumption.

(1) Driving in urban environments, compared with an equivalent internal combustion engine.

A TRUE OFF-ROAD VEHICLE

In its 4x4 version, Duster will enable you to tackle any situation in an instant thanks to its new automatic gearbox and the latest drive mode selector. With high ground clearance of up to 217 mm, an approach angle of up to 31° for climbing slopes in 4x4 mode, Starkle® anti-scratch materials: Duster boasts excellent crossover capabilities while keeping its SUV DNA.

Monitor your vehicle’s angle at all times using the “all road info” menu on the 10,1” central display and direct access to the multi-view camera.

Touchscreen with 4x4 information: slope angles and power per axle

NEW YOUCLIP ATTACHMENT SYSTEM

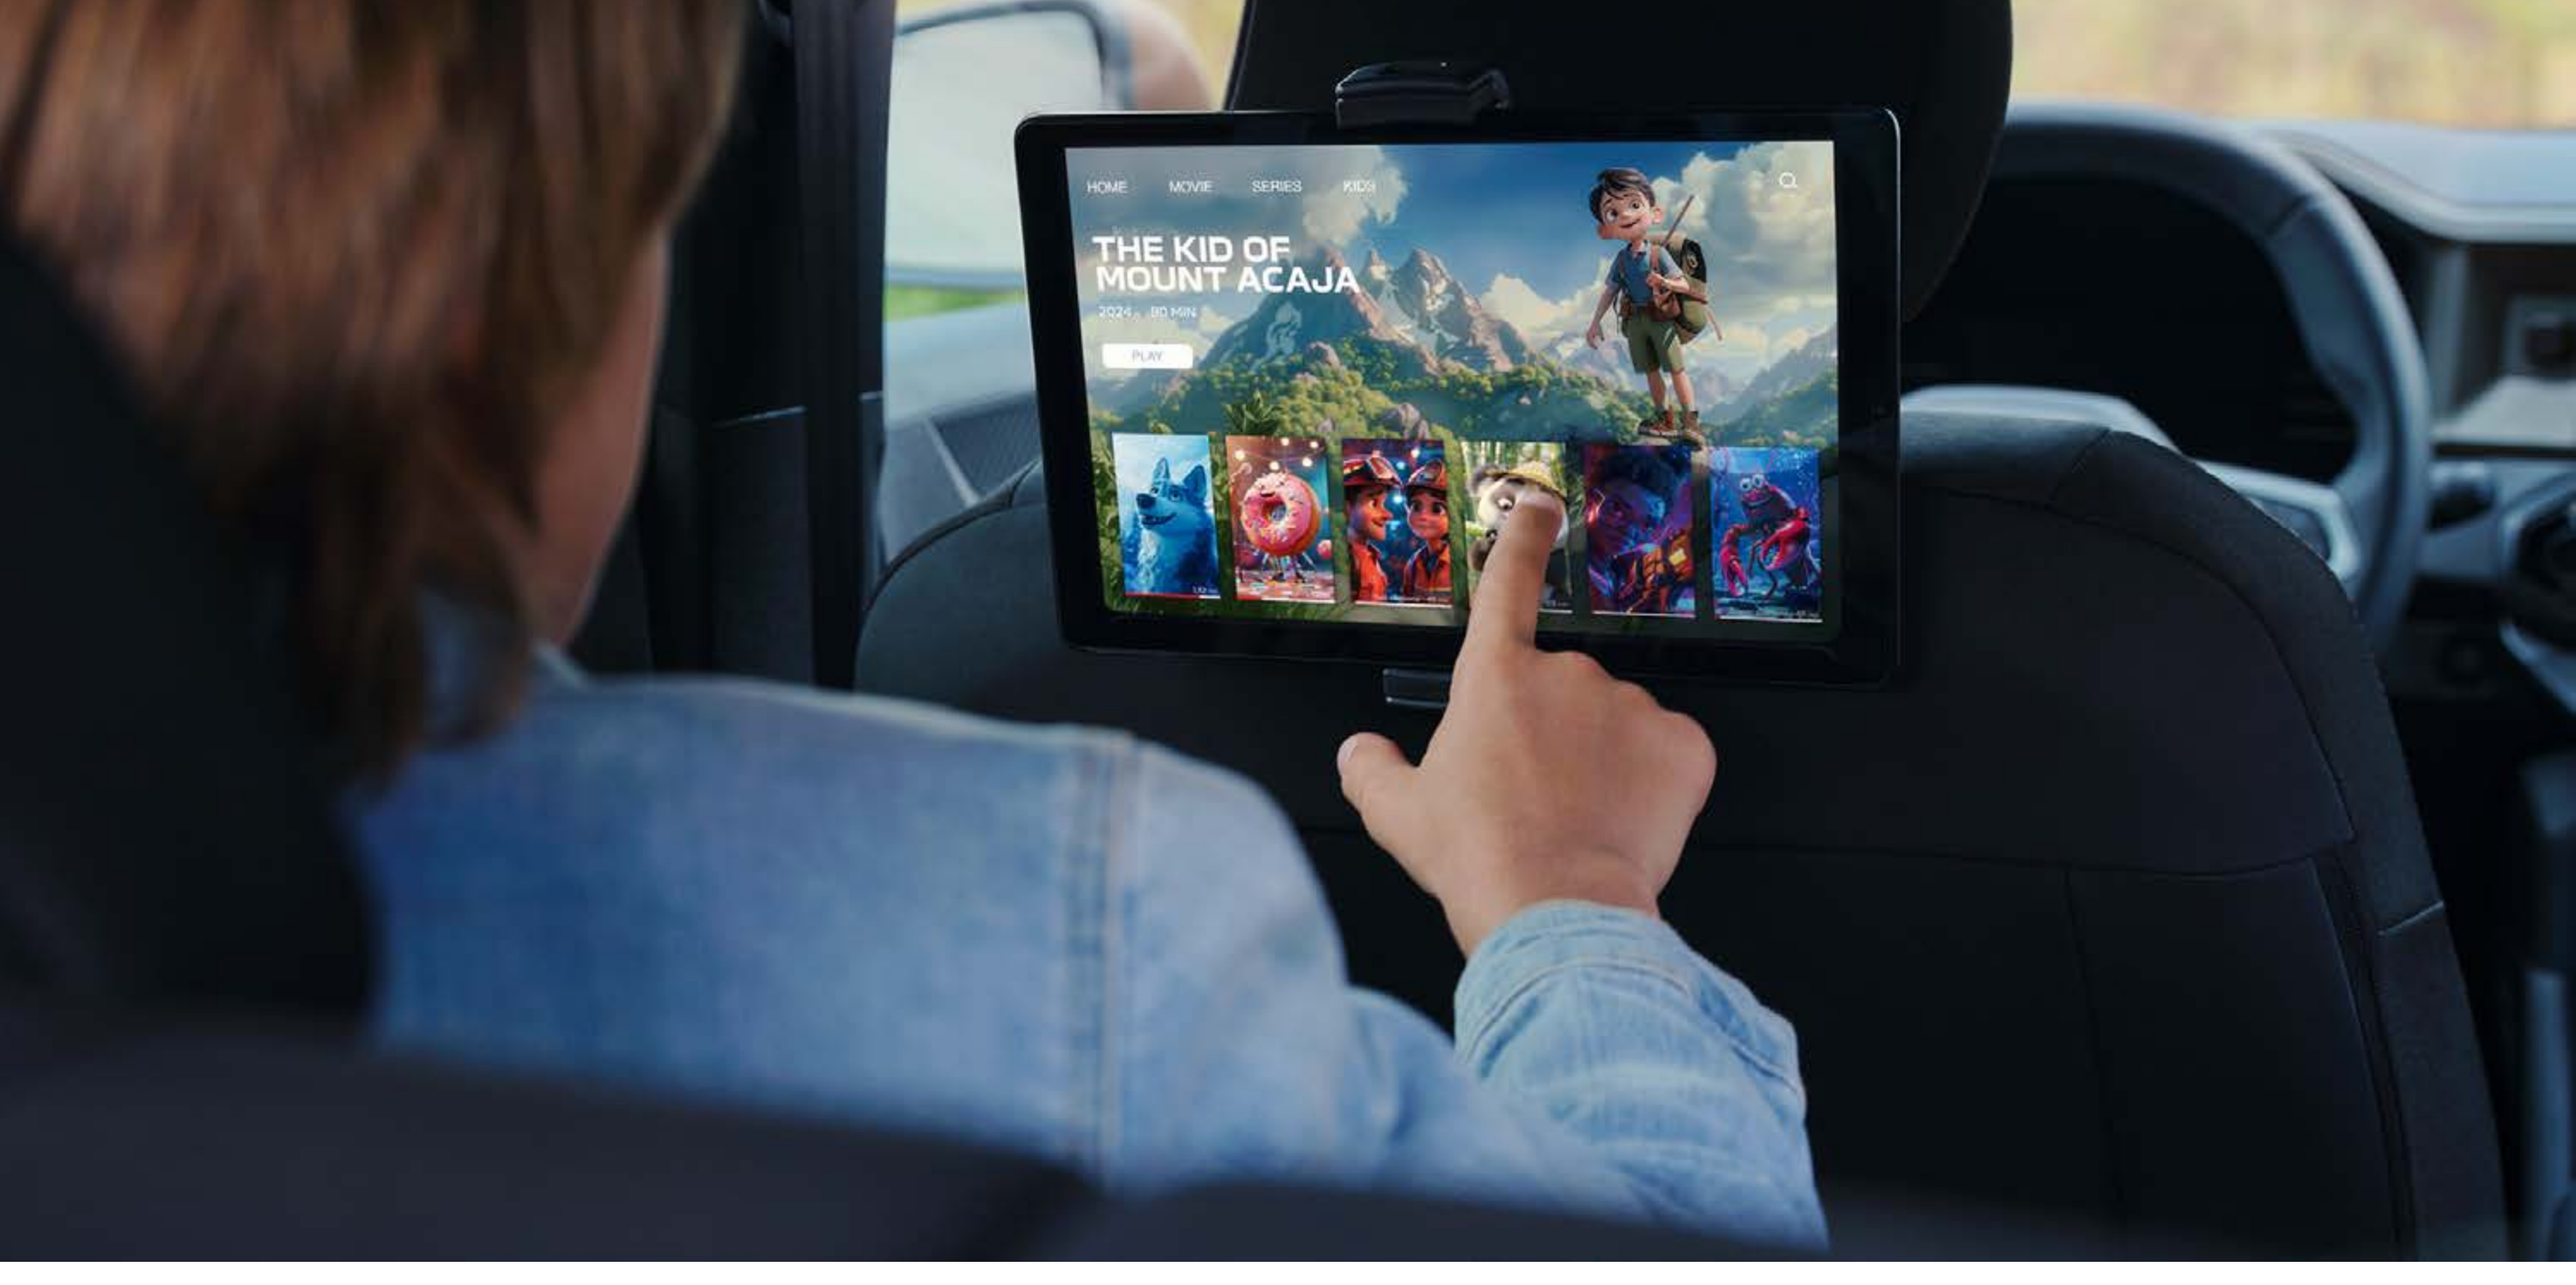

With YouClip, you get the smartest multi-purpose fastening system for hanging a wide variety of accessories available in the range. These can be easily clipped to 5 attachment points distributed throughout the passenger compartment and boot. And 2 additional points behind the headrests, available as accessories to extend the system and give you a maximum of 7 YouClip points. For even more comfort, the 3-in-1 YouClip accessory combines a cup holder, lamp and hook, which can be detached and used each in a different location on the vehicle or outside.

The YouClip range offers several other useful accessories: the new YouClip glasses case or the YouClip foldable shopping bag, the YouClip multimedia tablet holder and a YouClip pouch for organising activities on board. These practical YouClip products can be detached and used in different places in the vehicle.

YouClip - hook

FOR ALL YOUR SPACE NEEDS

Take advantage of a spacious passenger compartment, intelligently designed for your comfort and that of your passengers. Whatever your expectations, its modularity makes it perfectly versatile.

More space with the adjustable roof bars to take everything you want.

OUTDOOR PERSPECTIVES WITH THE InNature RANGE

Every getaway is unique with Duster. Treat yourself to comfortable nights surrounded by nature with the Sleep Pack⁽¹⁾ from the InNature range and its removable double bed measuring 1.90 m long and 1.30 m wide. It can be set up by one person in less than two minutes and is combined at the rear with a retractable table for breakfast, as well as generous storage space of 160 litres in the hybrid version and 175 litres for other engine types.

Don't forget the blackout blinds sold as accessories to block out light and glare. And to make the most of these relaxing moments, the roof awning is a new, sturdy and weather-resistant accessory that provides instant shade and shelter, while remaining compact and easy to carry.

For a more spacious base camp, the Dacia hatchback tent connects to your Duster when the boot is open, sleeping up to 3 more people and creating 10 m² of protected space at the rear of the vehicle.

Freedom also means being able to take everything that is useful to you. Choose the exclusive InNature roof rack for Duster. It can be easily attached to the modular roof bars in the transverse position, or to the optional transverse roof bars, which can carry loads of up to 80 kg.

Opaque blackout blinds

DRIVE IN COMPLETE SAFETY

To complete the range of equipment already on board for your safety and driving comfort, Dacia Duster is equipped with new-generation driver assistance systems. Using the My Safety button you can deactivate some of these assistance systems at any time. With Dacia, peace of mind accompanies you on every journey.

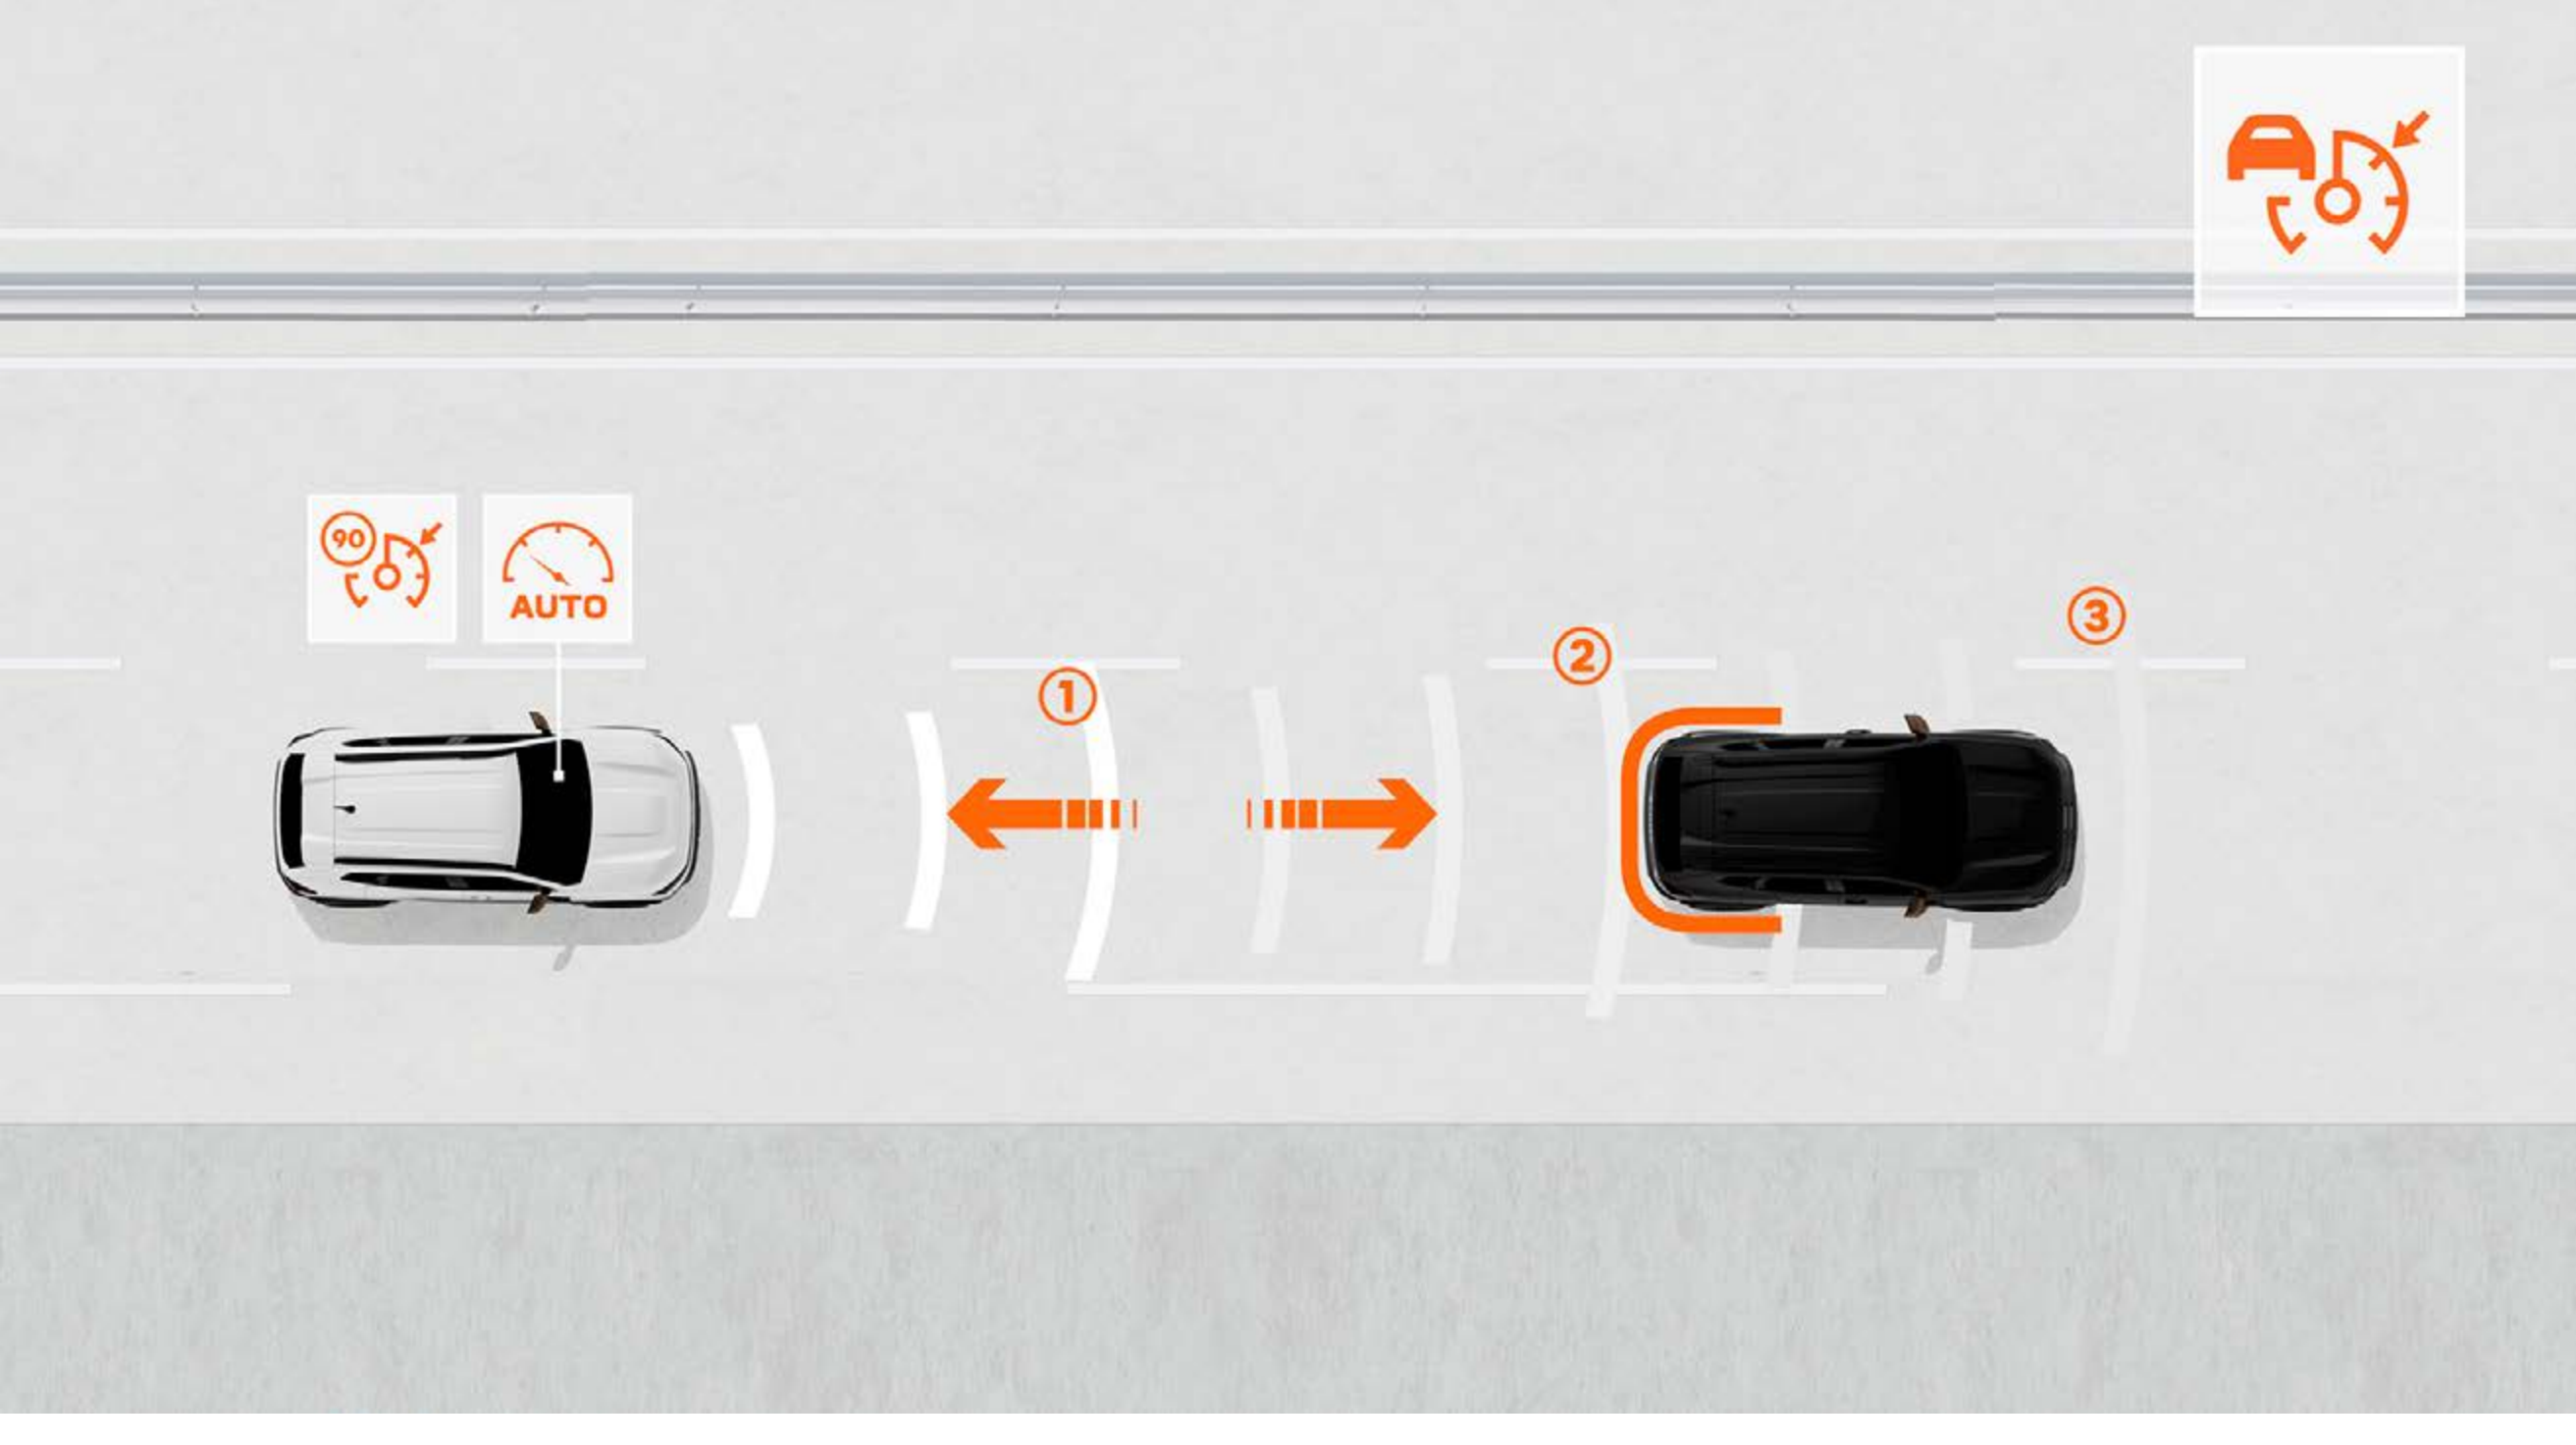

ACTIVE EMERGENCY BRAKING (AEB)

This system prevents the risk of frontal collisions involving other vehicles, pedestrians or cyclists straight ahead and at junctions. It alerts the driver and can automatically brake the vehicle if necessary.

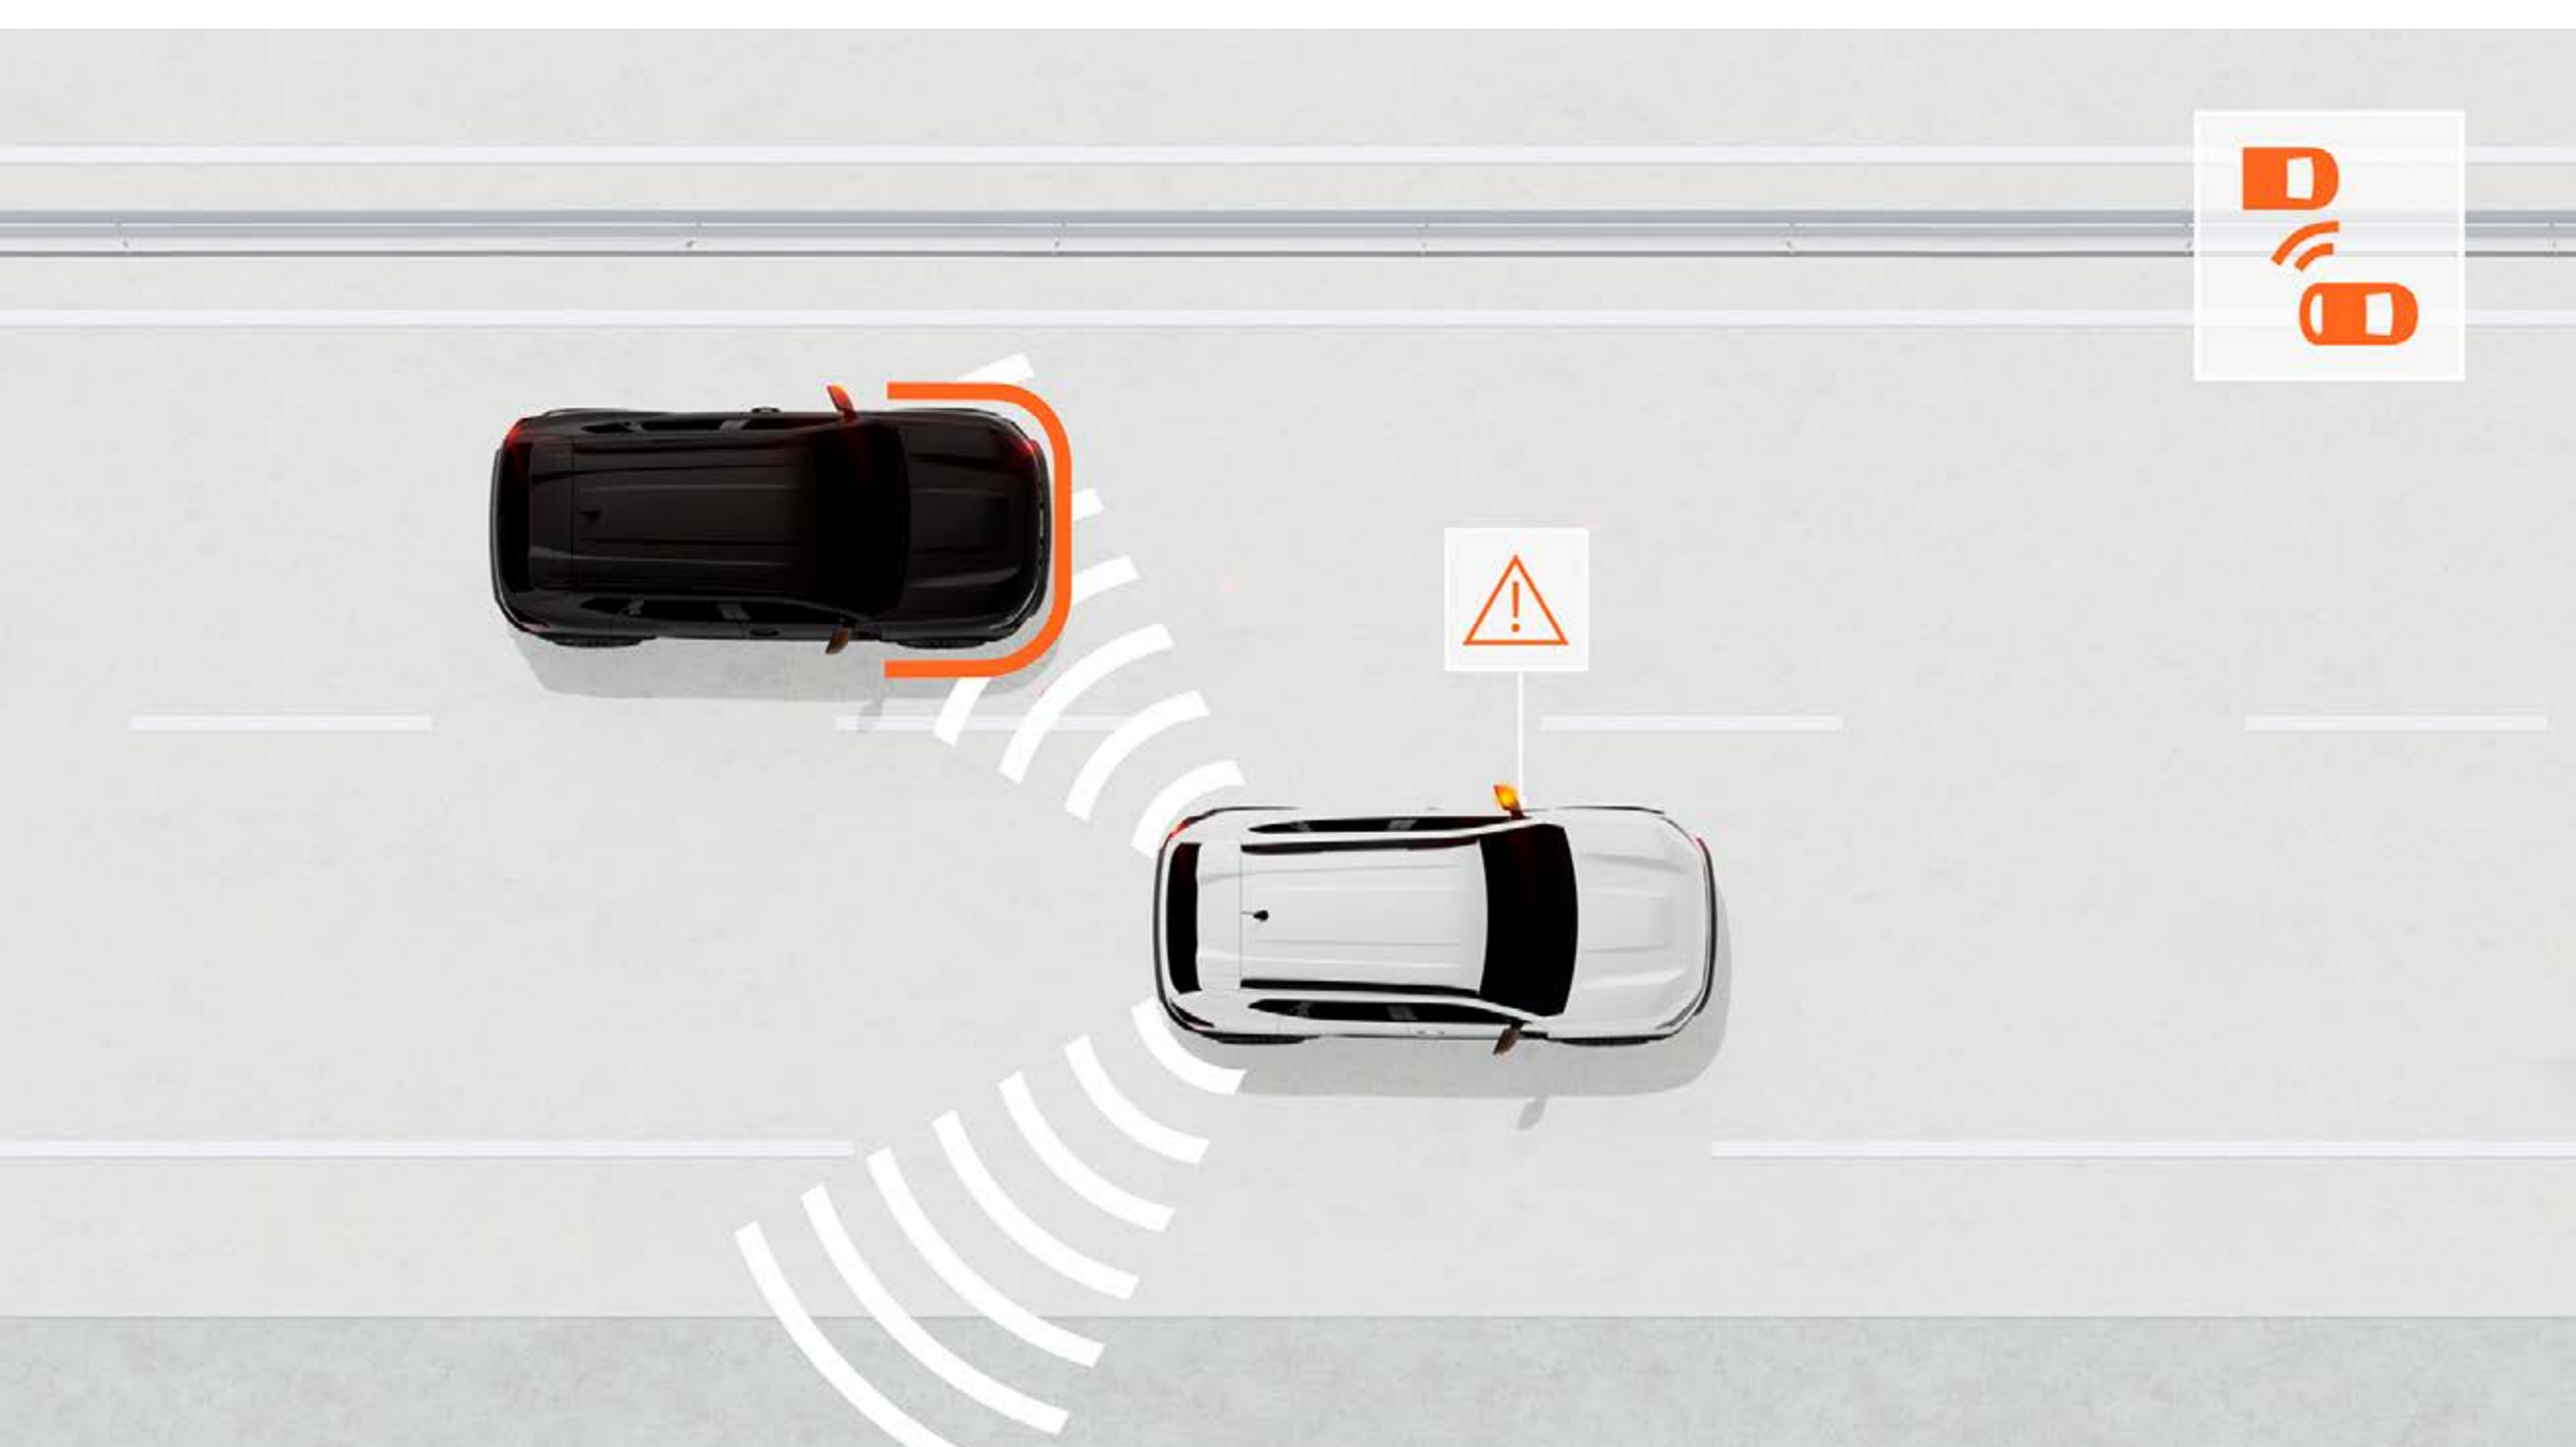

TRAFFIC SIGN RECOGNITION WITH SPEED ALERT

This system provides a reliable real-time indication of the maximum speed on the road and warns the driver if they exceed the speed limit with visual and audible alerts (which can be disabled).

ADAPTIVE CRUISE CONTROL⁽¹⁾

Let cruise control maintain a safe distance from the vehicle in front of you. The brakes are applied if the distance is too short and the car accelerates again when the traffic becomes more fluid.

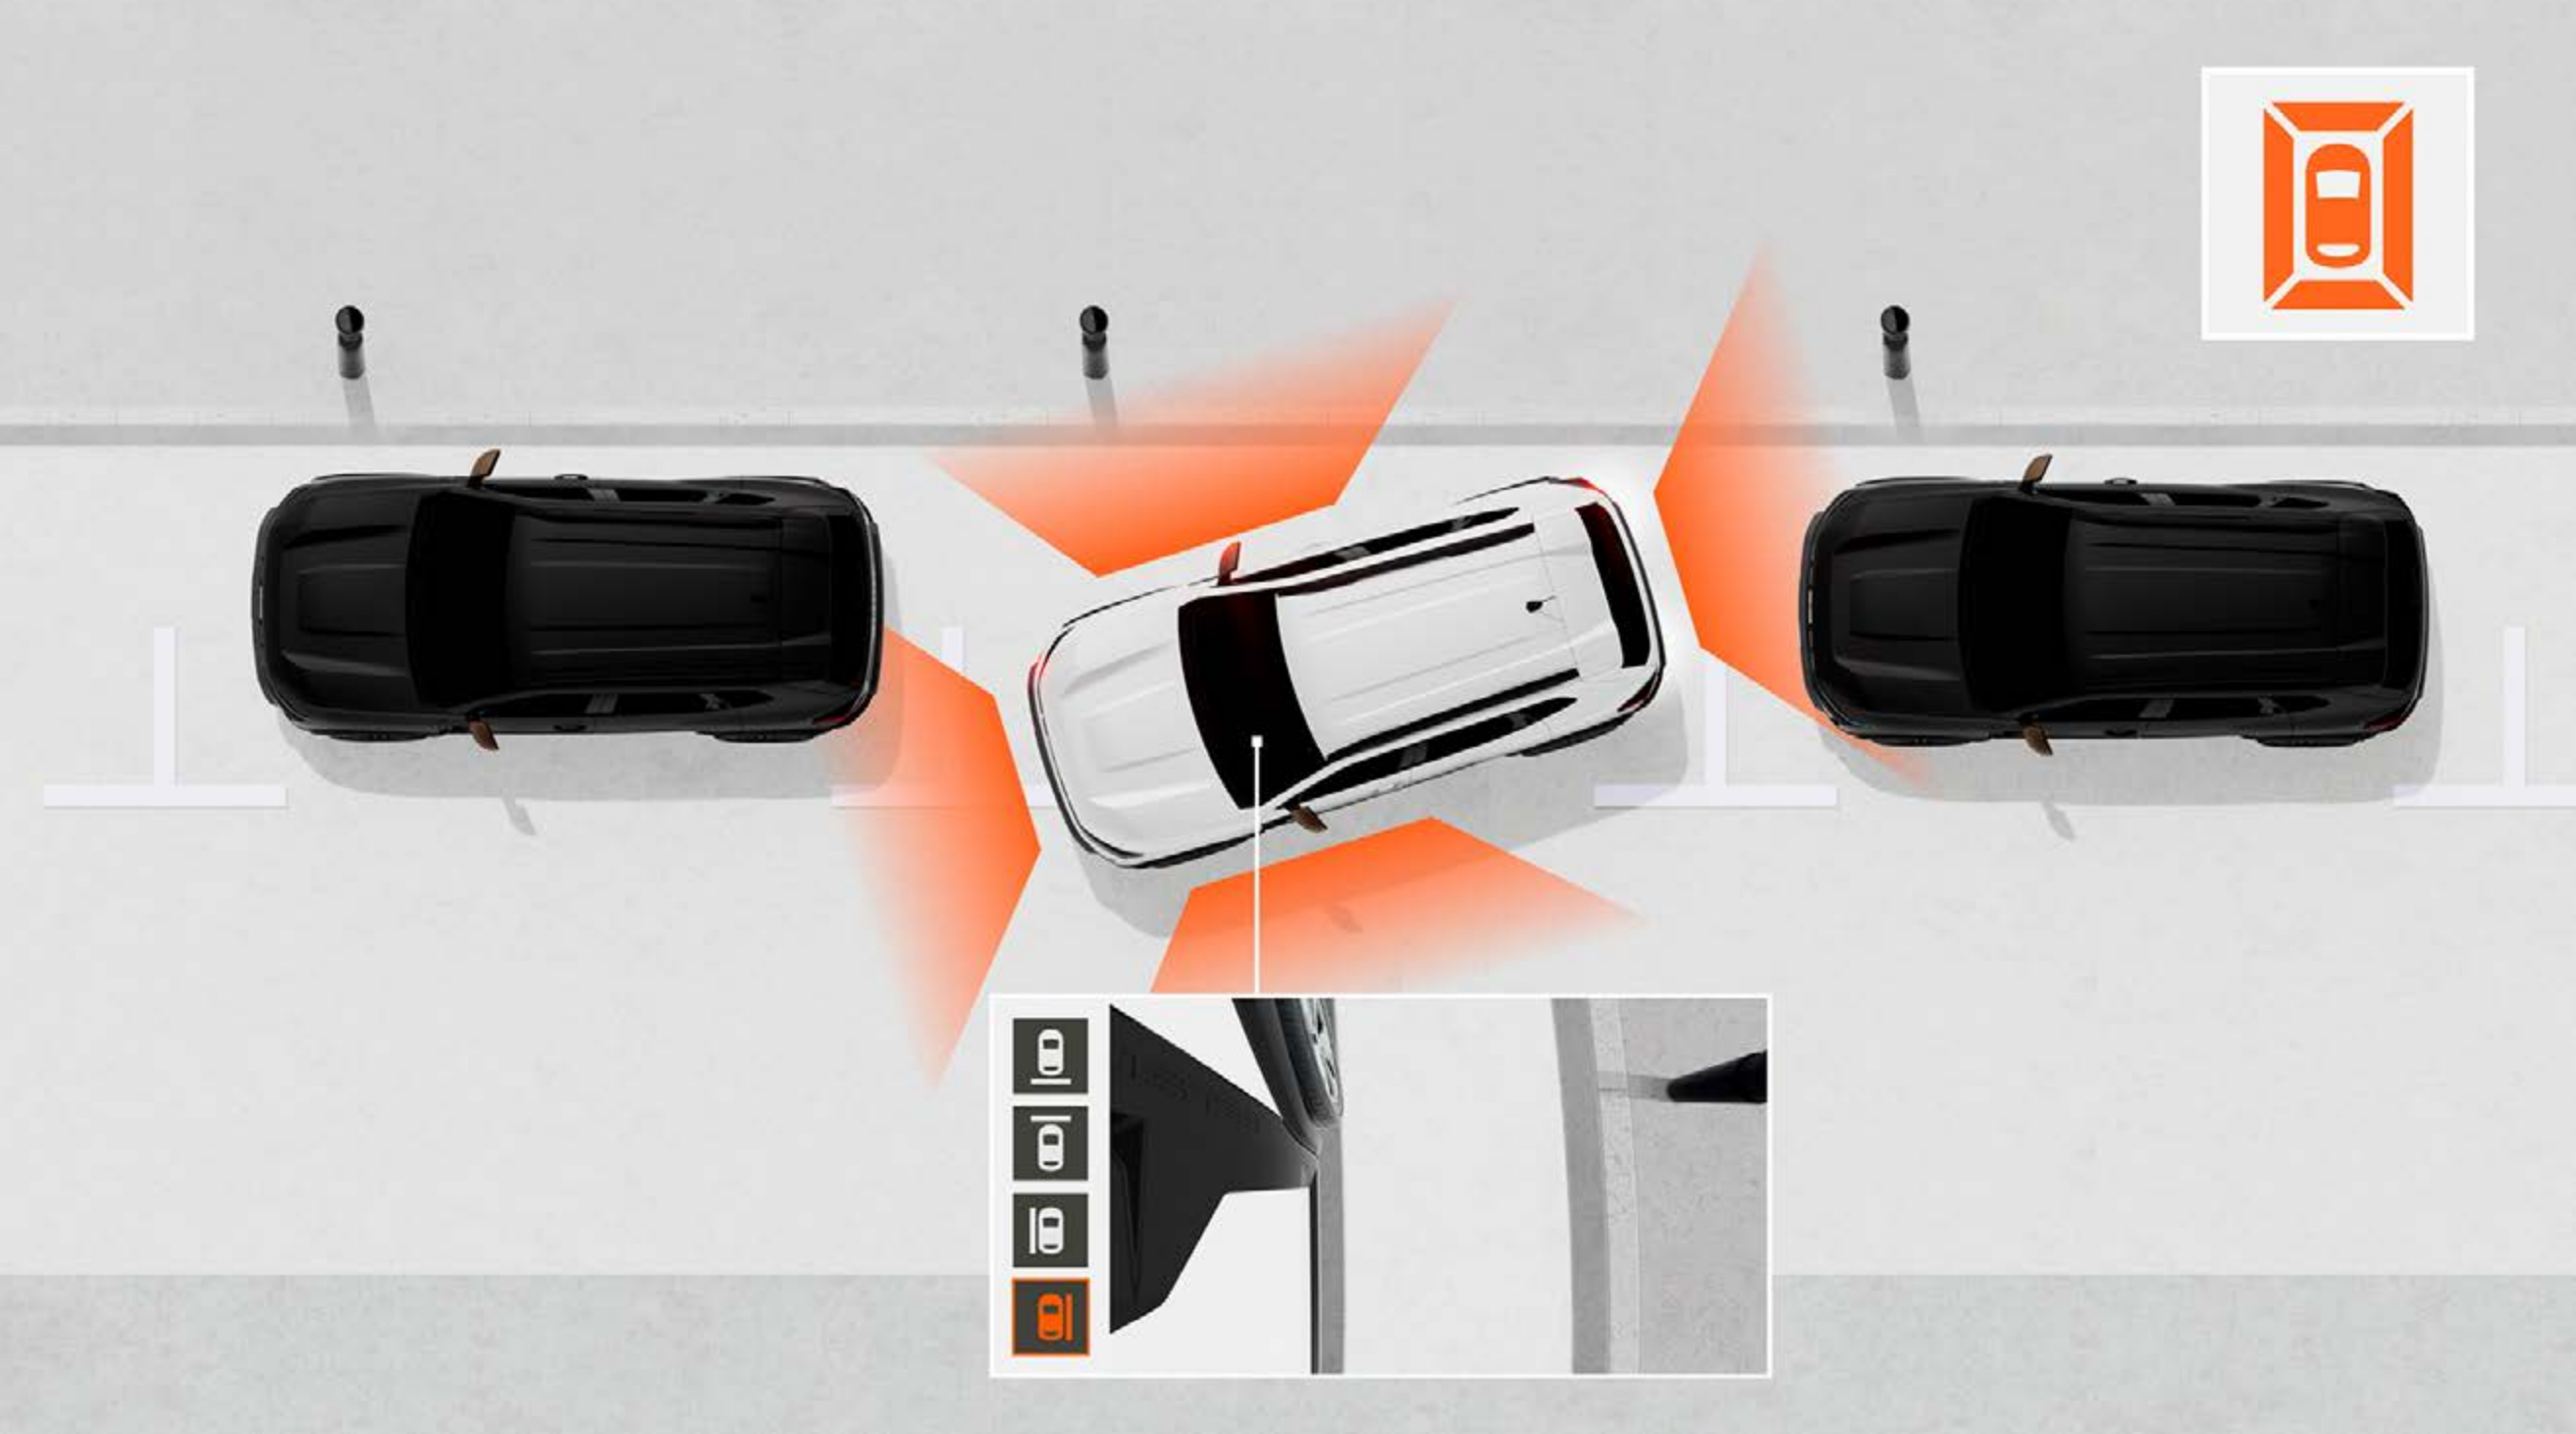

BLIND SPOT WARNING⁽²⁾

This aid monitors the driver's areas of restricted vision to warn them with a visual signal if another vehicle or road user is in the area, allowing them to make lane changes safely.

HILL DESCENT SPEED MONITORING

In steep descents, this system limits the speed taken by the vehicle without having to use the brake pedal.

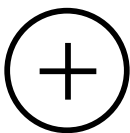

MULTIVIEW CAMERA⁽²⁾

The MultiView Camera gives you more eyes! It provides front, rear and side views, helping you detect holes, rocks or obstacles that are not always easy to see, and making driving easier for you.

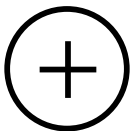

(1) Standard on Journey and Extreme hybrid versions (including Extreme hybrid 150 4x4). (2) Standard on Journey and Extreme versions.

06. ACCESSORIES

SIDE STEPS

A must-have accessory for accentuating the vehicle's 4x4 style. They allow you to enter and exit the vehicle more easily and to reach objects carried on the roof with ease. It also protects the bodywork from small daily bumps.

SHARK FIN AERIAL

Add an elegant touch with this shark fin aerial, which merges seamlessly into the lines of your vehicle.

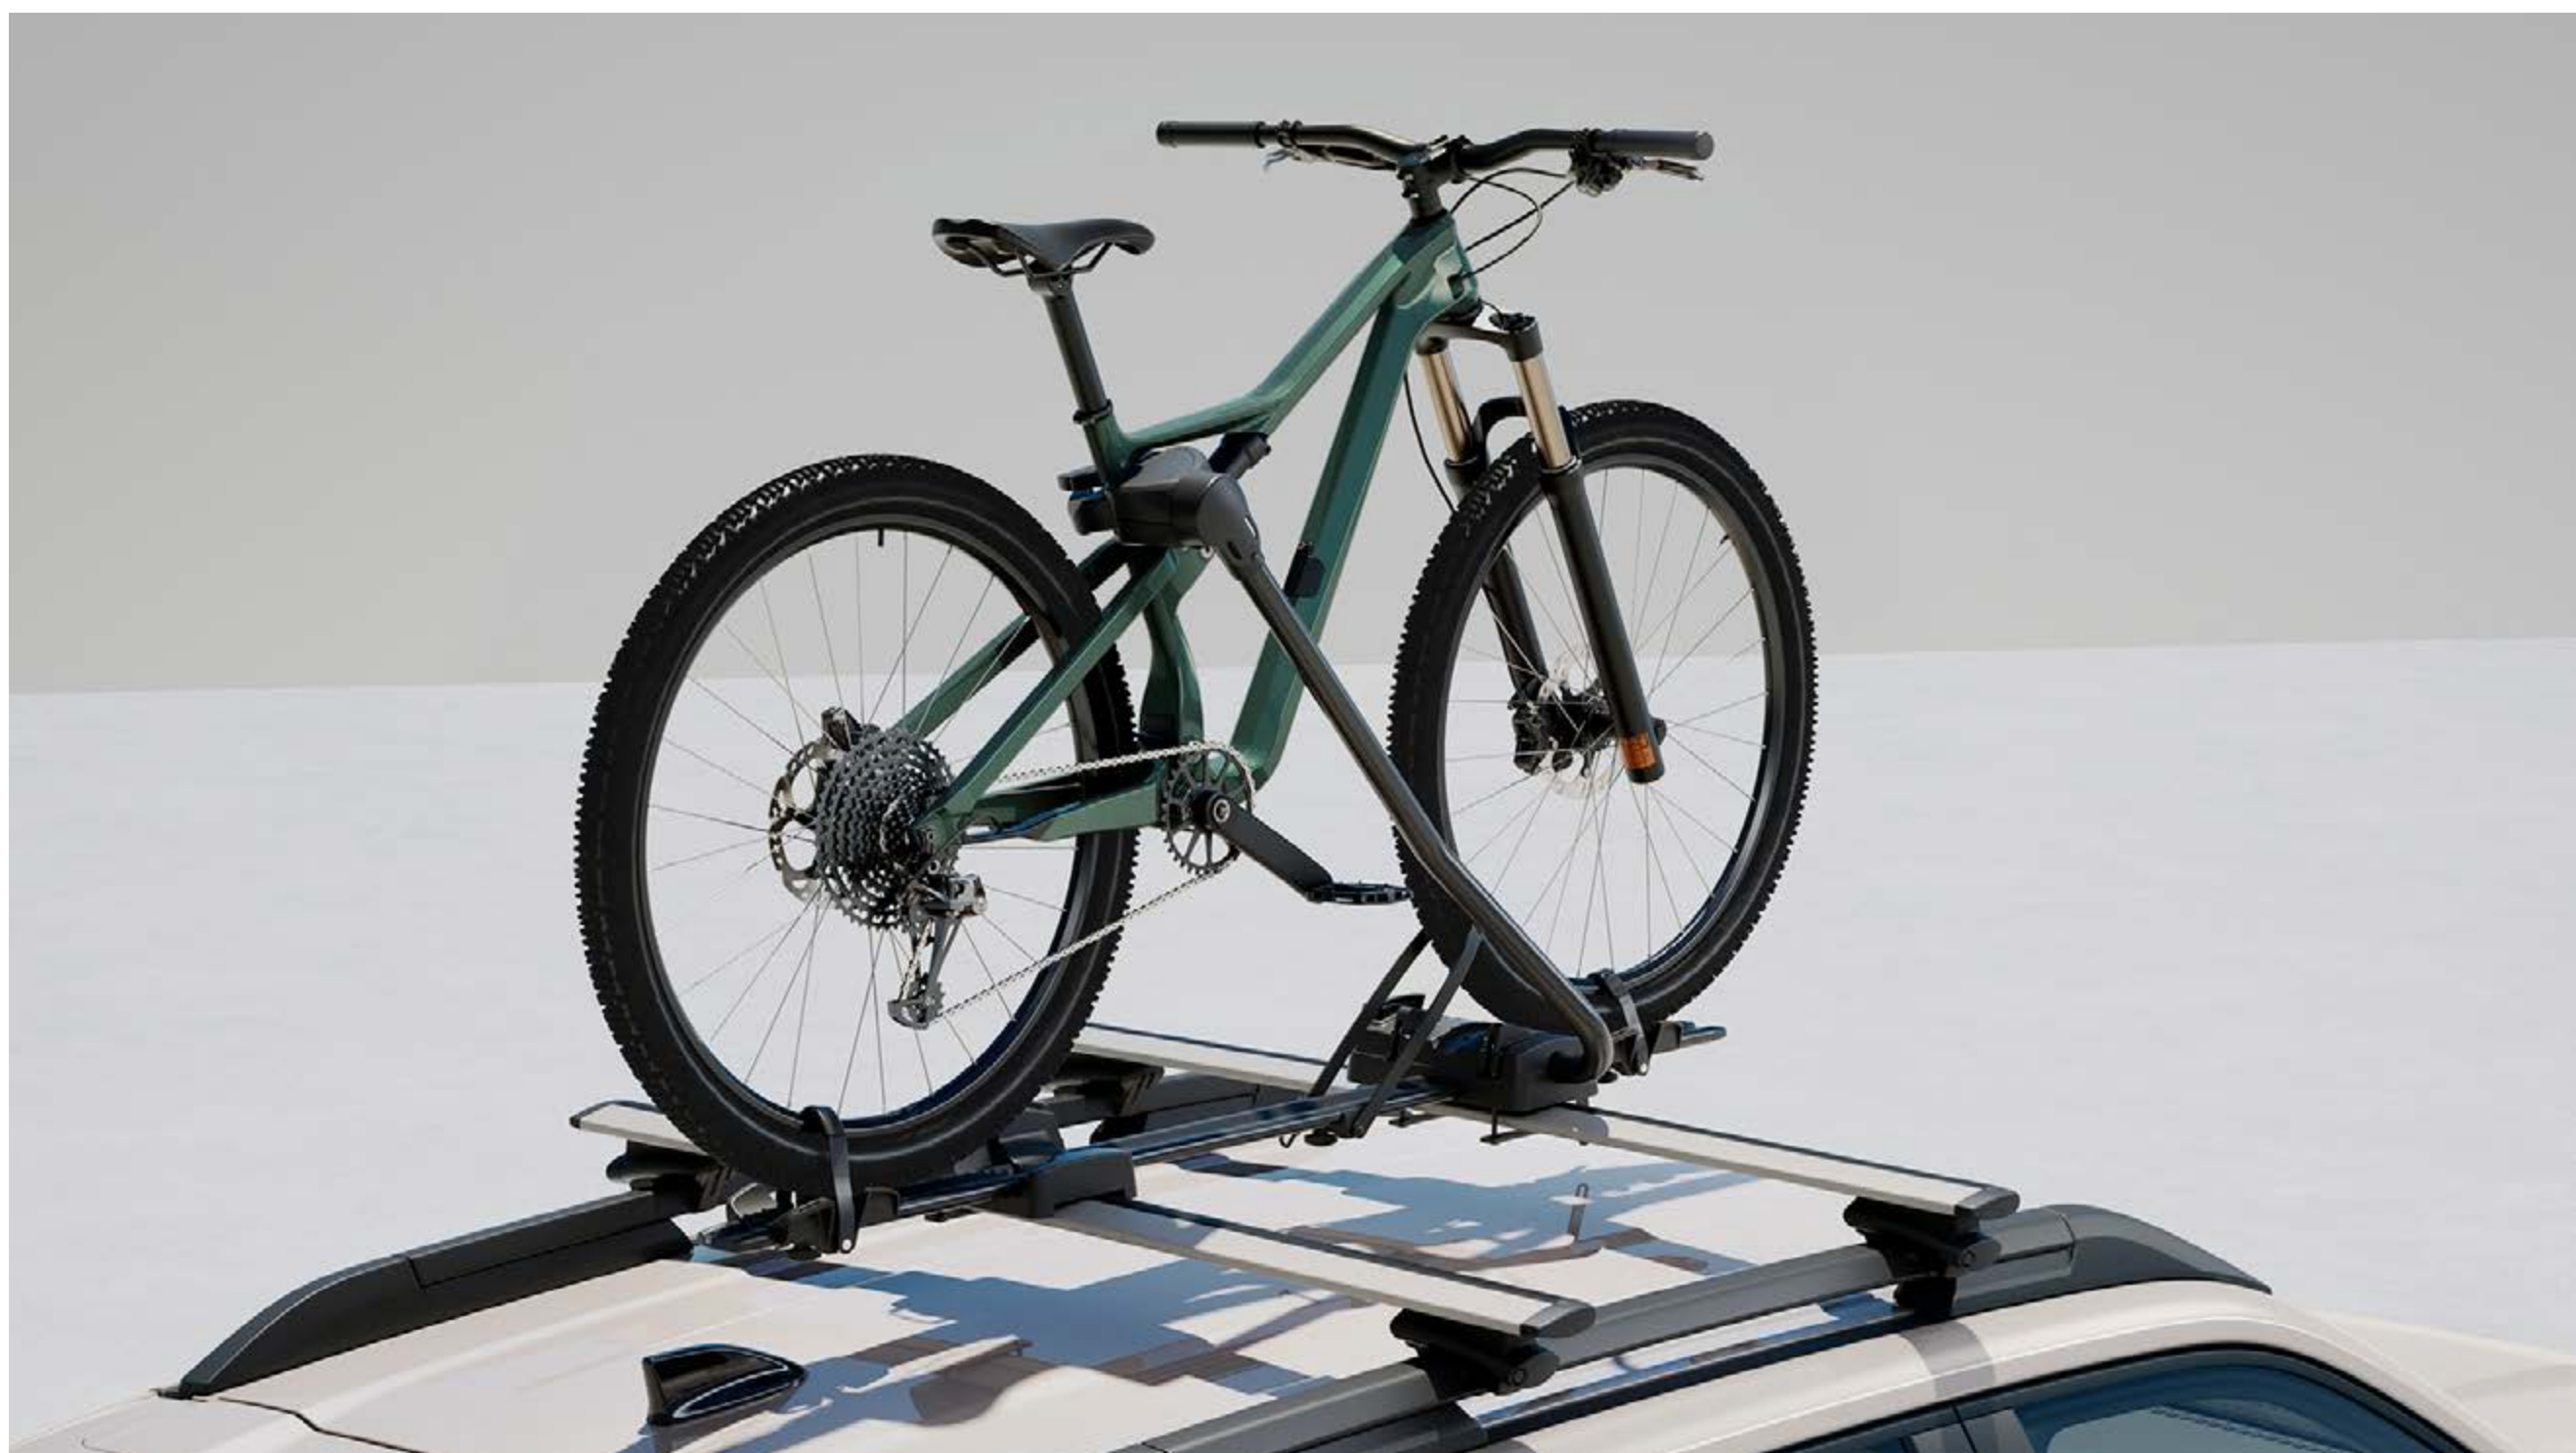

TOOL-FREE REMOVABLE TOWBAR

Tow or carry your bicycle, trailer, boat or canoe carriers in complete safety with this towbar developed by Dacia. Thanks to the ball joint that can be easily removed without tools, the aesthetic appeal of your vehicle is maintained.

DACIA AERO CARGO BOX™

For efficient storage and optimised aerodynamics, choose the Dacia 310-litre towbar box, compatible with our 2- or 3-bike tilting cycle carriers. Your personal belongings are easy to load and unload, and the boot remains accessible thanks to the tilting platform. You can convert everything back into a bicycle rack for your getaways.

TRANSVERSE ROOF BARS⁽¹⁾

Ideal for adding a bicycle rack, ski rack or roof box and increasing your vehicle's carrying capacity⁽²⁾. Thanks to the innovative Quickfix quick fastening system, they can easily be installed on longitudinal bars and no tools are required.

RUBBER MATS WITH TOPOGRAPHIC PATTERNS

Check out Dacia's rubber floor mats with high edges and topographical patterns, made from 20% recycled material. They provide extra protection for your vehicle and add a sense of elegance and modernity.

PREMIUM TEXTILE FLOOR MATS

Add extra protection to your vehicle with these custom mats marked with the Dacia logo. Made of quality carpet containing 33% recycled material, they will be practical and easy to maintain.

The Dacia logo is displayed in a large, white, stylized font across the upper middle of the image. The background is a photograph of a silver Dacia Duster driving on a winding asphalt road that cuts through a rugged, rocky mountain landscape. The sky is a pale blue, suggesting dawn or dusk. The car is seen from the rear, moving away from the viewer into the distance.
