

NEW A110

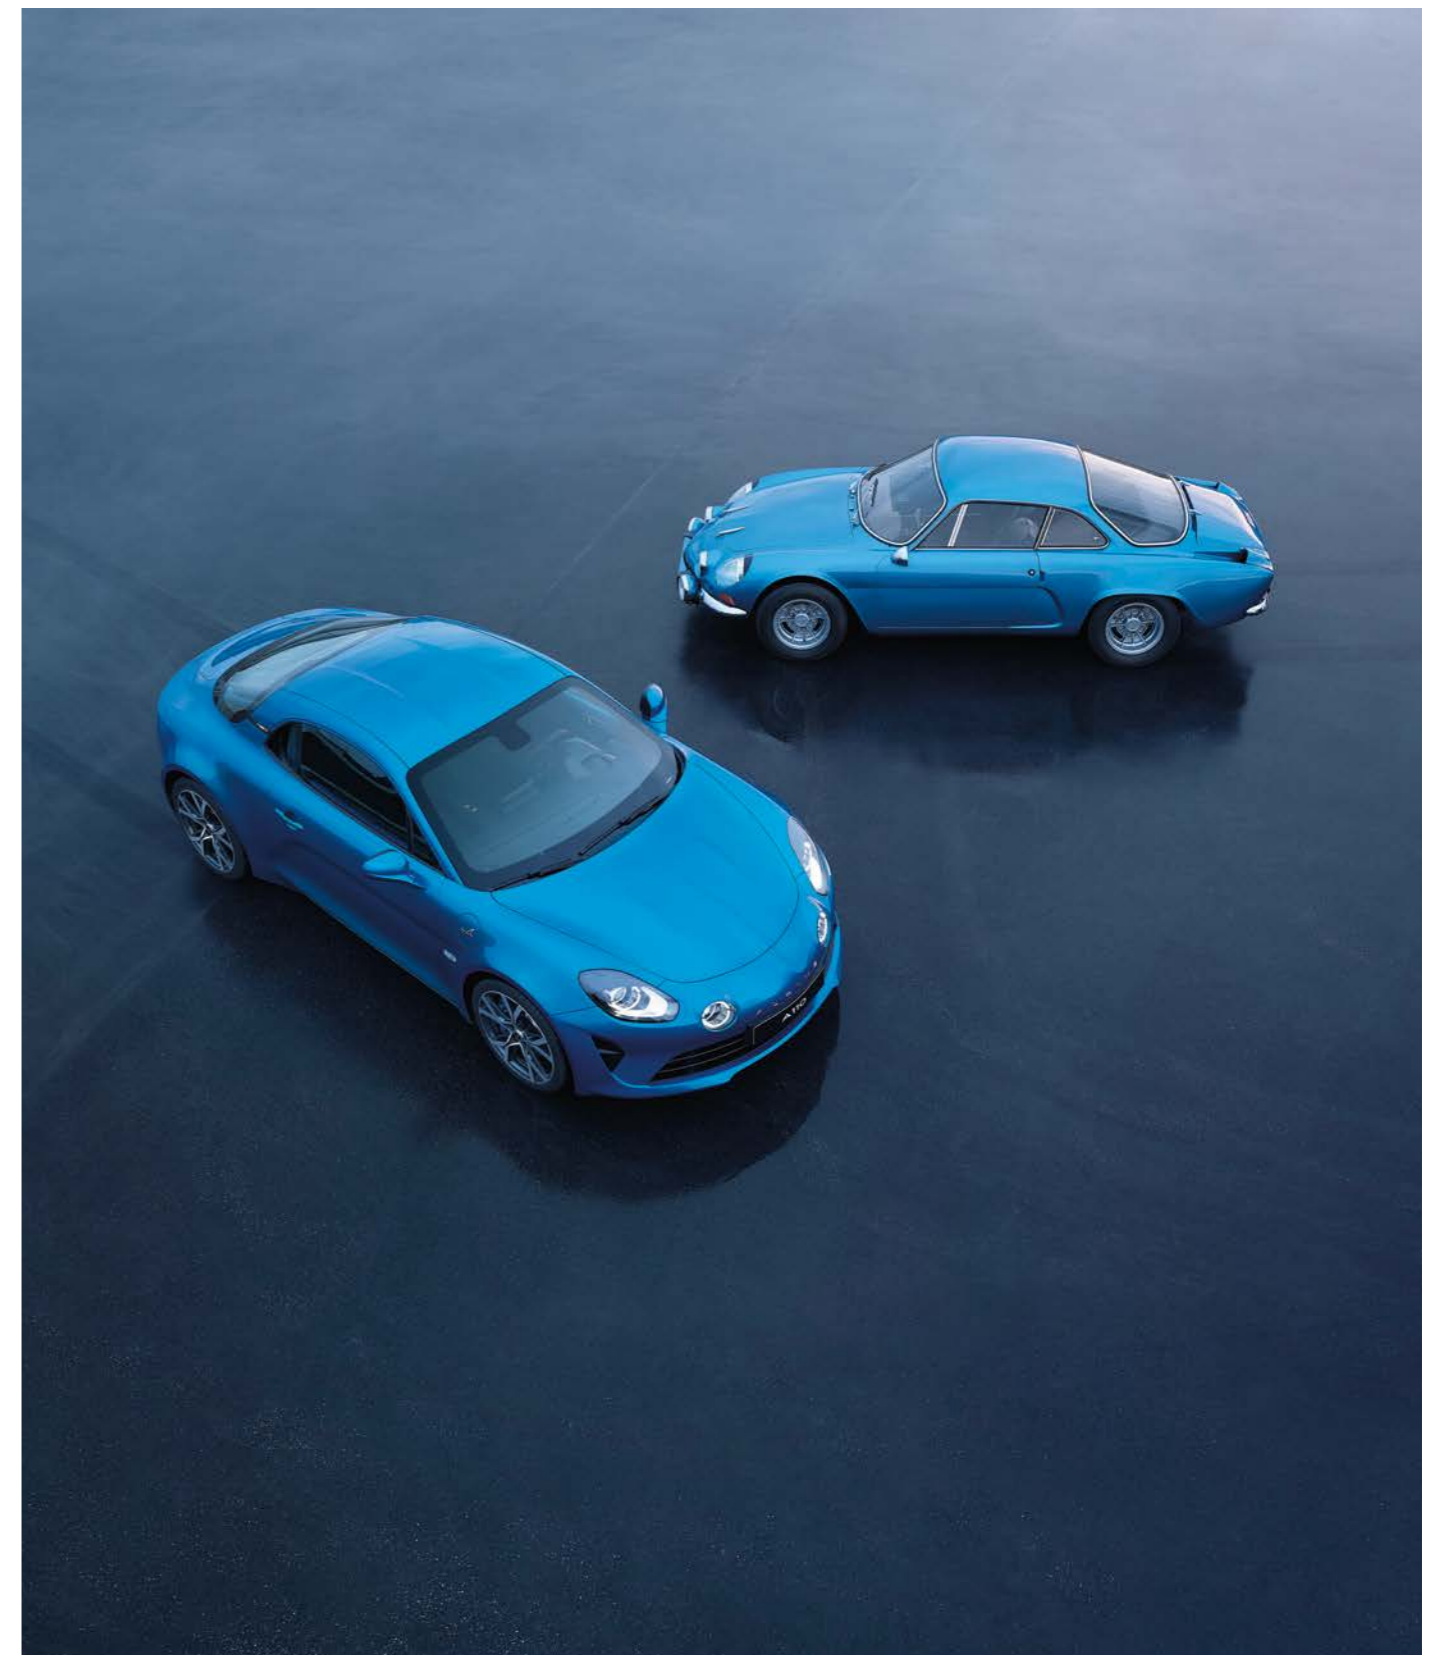

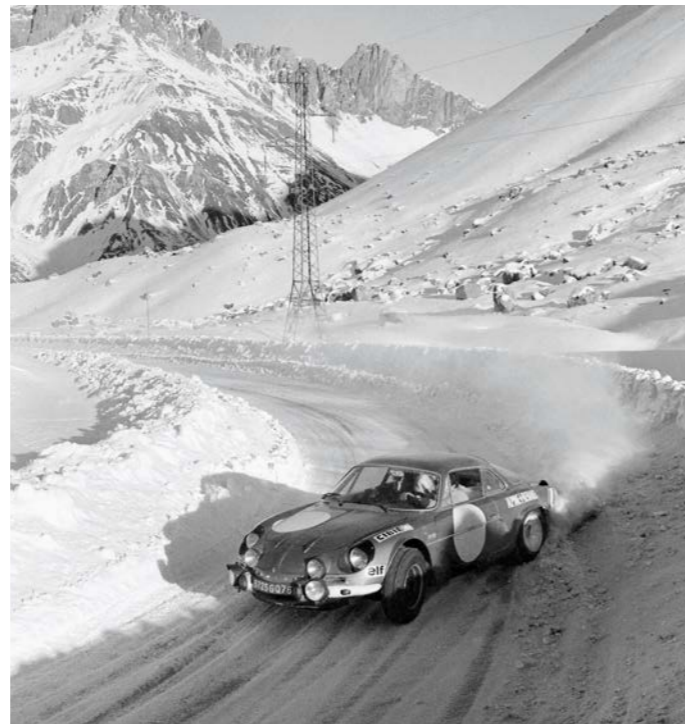

ALPINE

A LEGEND SHAPING THE FUTURE

Alpine was founded in France in 1955 by a man passionate about motorsport. It is his favourite playground, the Alps, that inspired the name Alpine. He built the success of the brand Alpine on three principles: lightness, agility and competitive spirit. From Alpine's first victories to today, they have remained at the core of the brand's DNA.

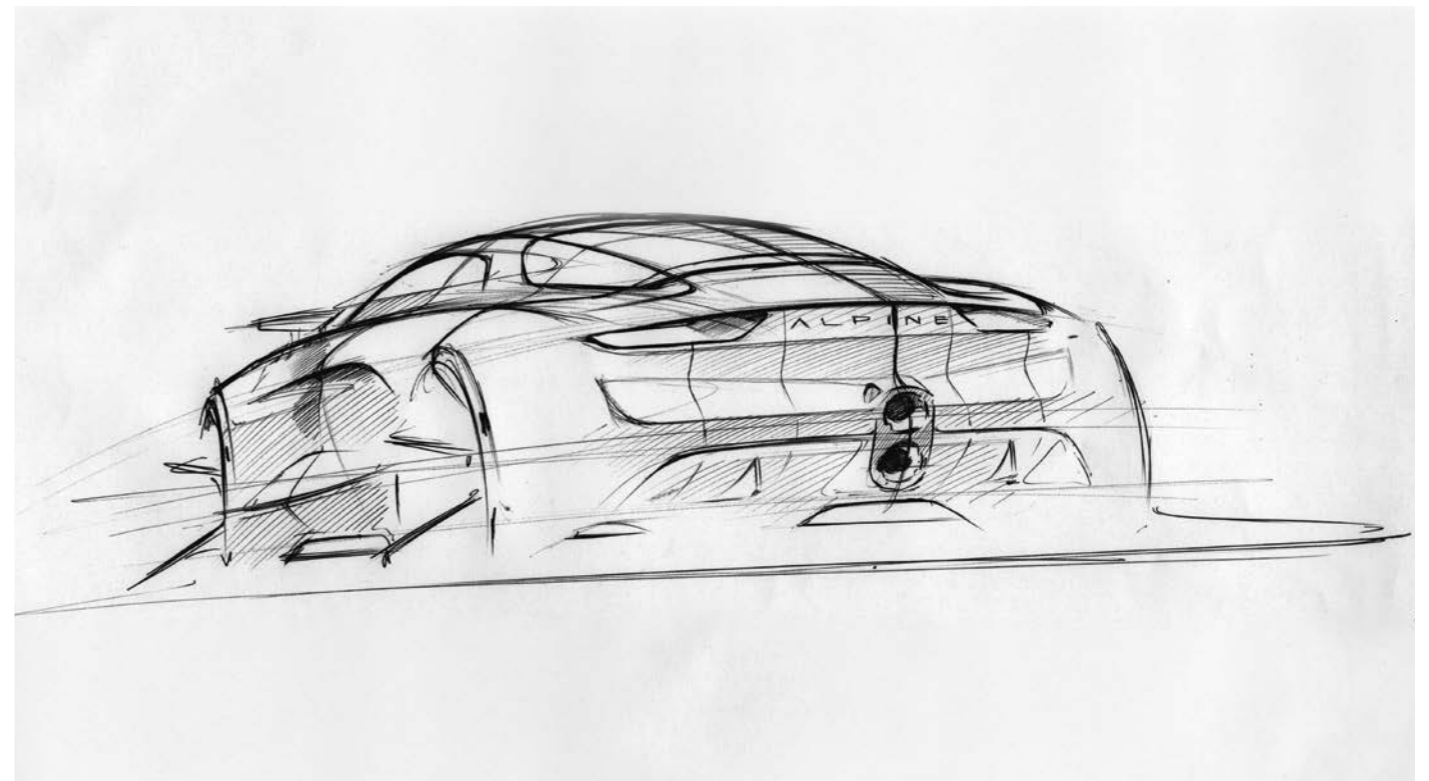

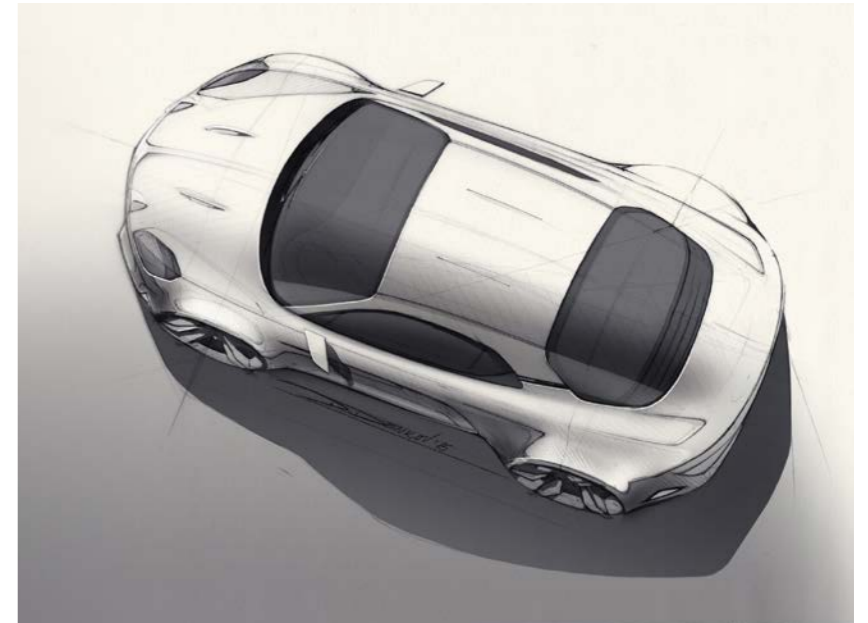

The new A110 offers a modern reinterpretation of those fundamentals with one timeless philosophy *elevated driving for everyone, every day.*

ALPINE IS THE TALE
OF A BRAND THAT STARTED
WITH THE VISION OF A MAN,
TRANSFORMING TODAY INTO
A JOURNEY OF RENEWAL.

ICONIC DESIGN

The design team has captured the Alpine spirit to create an elegant design that will stand the test of time. The Alpine A110 combines styling cues from the iconic A110 berlinette with modern design features.

WHEN FORM FITS FUNCTION
IN THE MOST INTIMATE WAY,
YOU CAN TRULY SEE AND FEEL
AGILITY IN ITS PUREST FORM.

“
The particularity of this design is a tense line drawn with a single trait. It comes to life as a second skin moulding the mechanical parts closely. Some design elements perpetuate the distinctive features of the old Alpine cars, like the hollowed-out body sides and the central vein on the hood.”

Antony Villain, Alpine Design Director.

MOTORSPORT DRIVEN

BUILDING ON REMARKABLE VICTORIES THROUGHOUT ITS HISTORY, ALPINE IS THE EPITOME OF MOTORSPORT À LA FRANÇAISE.

Motorsport is in Alpine's DNA. From the creation of the brand to today, cars sporting the arrowed A have always raced in competitions. Alpine's legacy commences in 1971 at the Monte-Carlo Rally with the victory of the A110 berlinette. It replicated this performance in 1973, also winning the first World Rally Championship that same year. In 1978, Alpine won at the 24 Hours of Le Mans with the A442b in the endurance category.

2021 marked an important milestone in the history of the brand with its commitment to Formula 1 crowned with a victory at the Hungarian GP. At the same time, the brand returned to the premier class of the World Endurance Championship with a podium at Le Mans. Finally, Alpine reaches new heights by winning the FIA RGT Cup.

FROM TRACK TO ROAD

THE A110 BUILDS ON ALPINE'S RACING HERITAGE TO PROVIDE FEATURES THAT ARE USUALLY RESERVED FOR SUPERCARS, LIKE A CLEAN-SHEET CHASSIS.

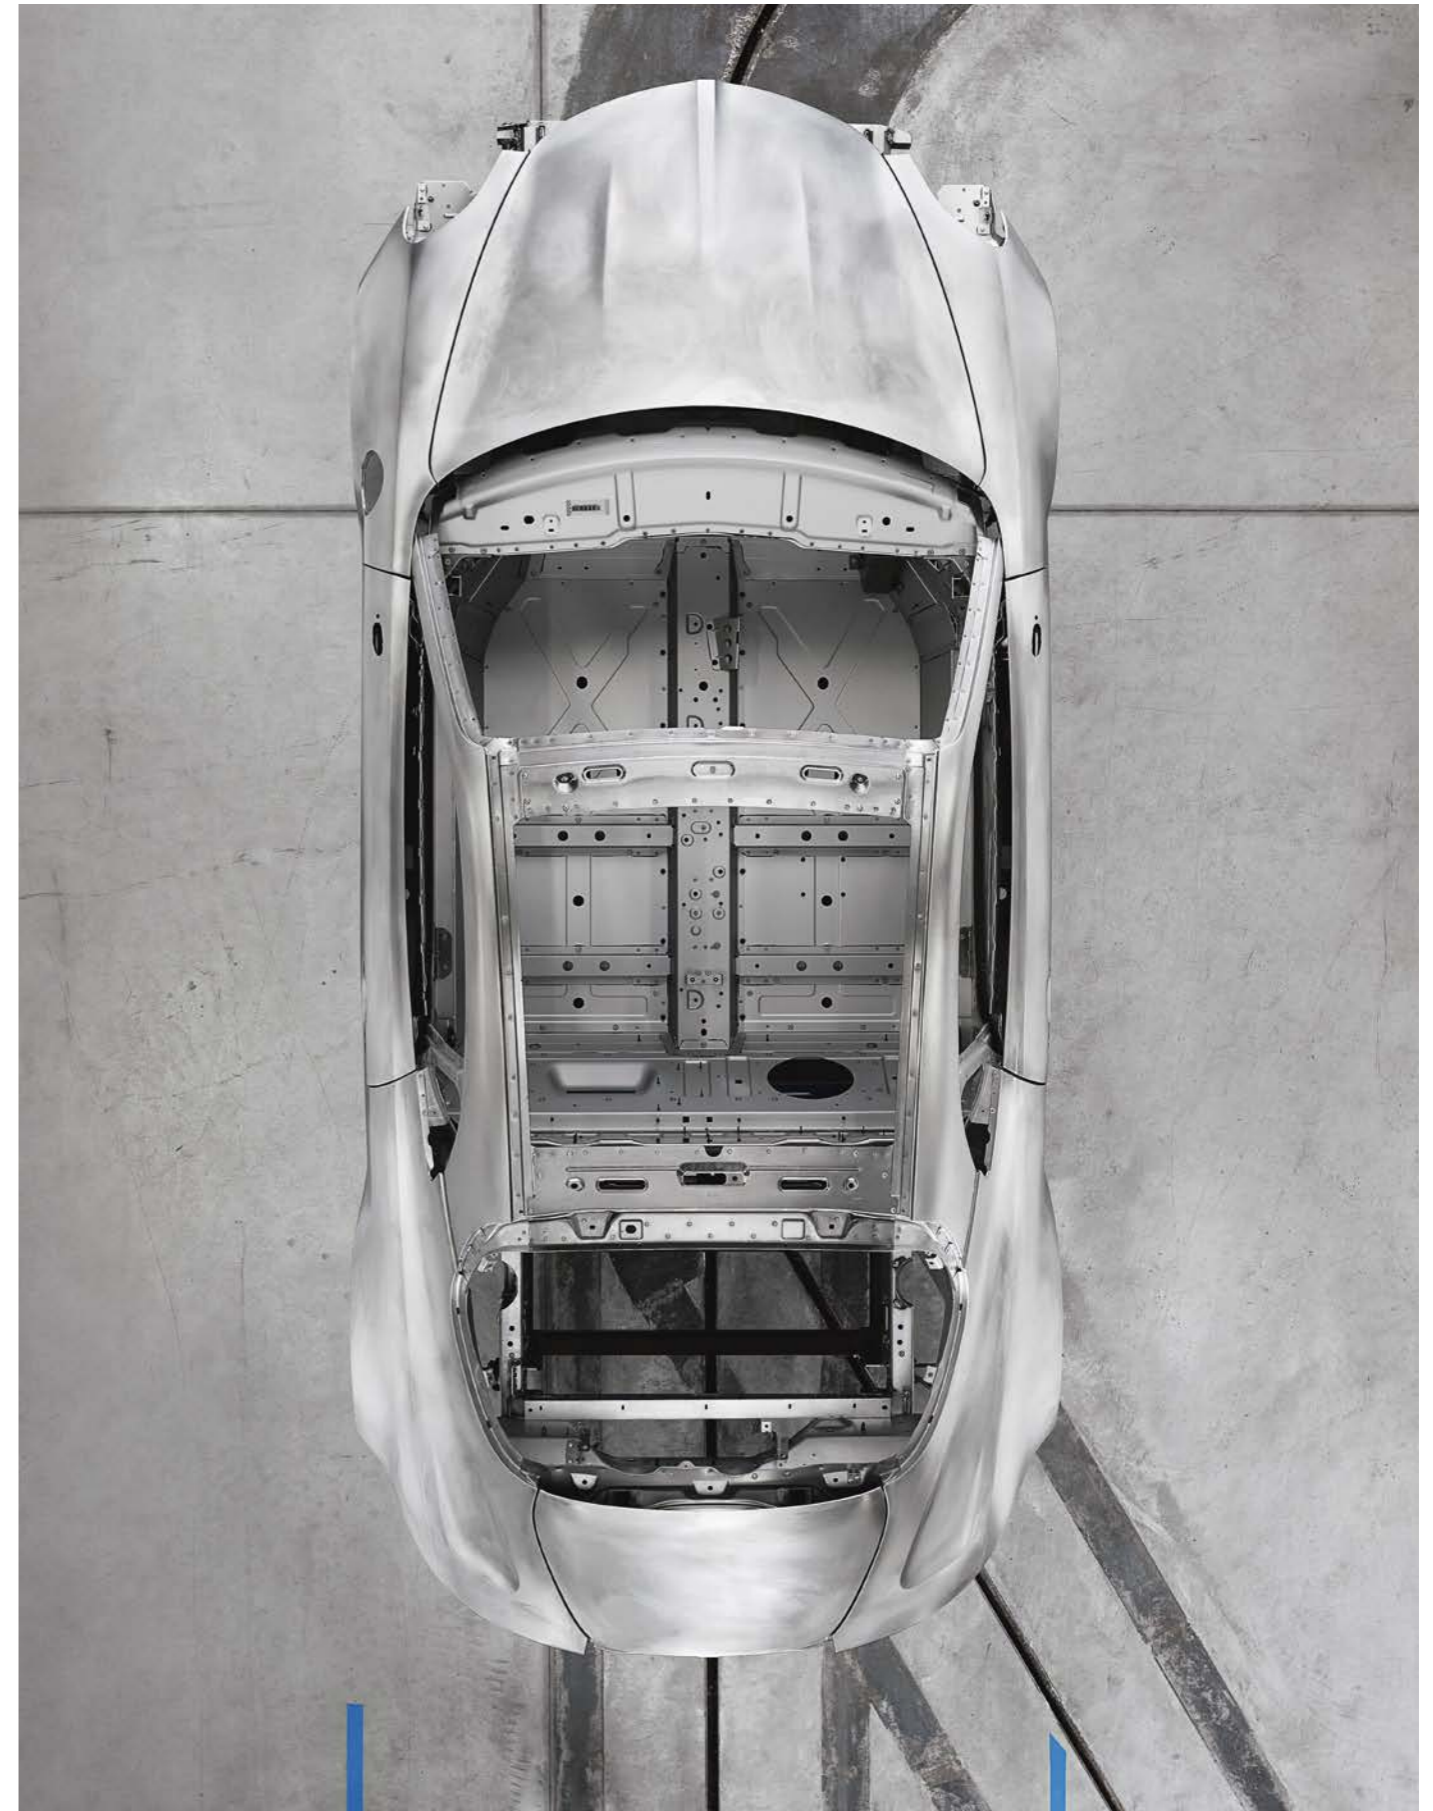

Alpine engineers have also paid particular attention to the aerodynamic development of the Alpine A110, using technical solutions borrowed from the world of racing. Thus, the A110 features an integral flat floor, a technique carried over from the world of high-level motor racing. Thanks to a rear diffuser located beneath the rear bumper, the A110 offers excellent rear handling.

CHASING LIGHTNESS

THE MOST AGILE CAR IS THE LIGHTEST ONE. AS A FIRM BELIEVER OF THIS MANTRA, THE ALPINE ENGINEERING TEAM CHASED EVERY KILOGRAM TO CREATE A LIGHT SPORT CAR THAT PROVIDES EXTRAORDINARY DRIVING PLEASURE.

With compact dimensions and aluminium chassis and bodywork, the Alpine A110 weighs only 1,102 kg. The streamlined design and the riveted and bonded bodywork elements are perfect examples of weight-saving measures that benefit performance and robustness. Designed and built with exceptional attention to detail, the A110 allows the driver to feel every sensation through the car.

EXHILARATING PERFORMANCE

LOCATED BEHIND THE PASSENGER COMPARTMENT AND POWERING THE REAR WHEELS, THE TURBOCHARGED FOUR-CYLINDER ENGINE IS THE BEATING HEART OF THE A110.

Tuned by Alpine powertrain engineers, the 1.8-litre direct injection engine delivers thrills and strong performance. The new 300 hp engine offers a torque of 340 Nm generously available from 2,400 to 6,000 rpm, accelerating from 0 to 100 km/h in 4.2 seconds and reaching up to 275 km/h.

Expressive. Always seeking to please. Growling at times. Thanks to its active sport exhaust system, the A110 delivers a signature sound for deep-seeded emotions.

A 252 hp tamed version is also available.

THRILL AT EVERY TURN

The centred weight distribution is critical to amplified driving sensations. It equates to 56% on the rear axle with an engine in a mid-rear position and 44% on the front with a fuel tank positioned behind the front axle. This gives the A110 exceptional balance and agility either on or off mountain roads.

You decide if you want the car to show off its expressivity or be a quiet companion. And for longer drives, you can count on its bucket seats for excellent lateral support and exceptional comfort.

In any case, the A110 will deliver exhilarating sensations.

BEHIND THE WHEEL OF THE A110, AGILITY IS INHERENT. ITS INCISIVE CHASSIS AND UNIQUE LIGHTWEIGHT GIVE YOU AN IMMEDIATE FEELING OF BEING CLOSE TO THE ROAD.

ENHANCED CONNECTIVITY

With the Alpine multimedia system, you get access to seamless connectivity. Find and personalise your favourite widgets on the touchscreen and enjoy Android Auto™ and Apple CarPlay™. Thanks to the enhanced connectivity, you have instant access to new automatic services such as navigation and system updates over the air, or real-time fuel prices.

Alpine Telematics provides real-time access to technical data recorded by the vehicle's sensors (pressures, temperatures, engine speed, steering wheel angle, etc.) and presents it via digital graphs. In addition, the integrated chronograph allows you to measure lap timing and performance.

A110 S
A110 GT
A110

A110 S

DRAMATIC
SPORTINESS

A 300 HP MACHINE WITH SPECIALLY DESIGNED AERODYNAMICS, THE A110 S IS RAW ENERGY FULL OF INTENSE EMOTION. IT DELIVERS THRILLS WHEREVER IT GOES, FROM THE TRACK TO THE ROADS.

SABELT® RACING SEATS

Faithful to Alpine's underlying principles of lightweight construction, the one-piece Sabelt® racing seats weigh only 13.1 kg each. Trimmed in microfiber and featuring bright orange seat belts, they bring out the racing driver in every one of us. A brand new optional "Microfiber Pack" including the dashboard, roof lining and steering wheel is also available.

CHASING LAP TIME

Equipped with the Aero Pack, the A110 S comes with a front blade and a spoiler in carbon, increasing downforce on the car. With better stability and improved aerodynamics, it reaches a maximum speed of 275 km/h on the track. As an exclusivity for the A110 S, the two-tone livery mixes the Orange Fire body paint with the glossy black roof highlighting the sportiness of this version.

DIAMOND-CUT 18" ALLOY WHEELS

Finished in black, diamond-cut to reveal the car's sporty character, the A110 S 18" "GT Race" alloy wheels are exclusive to this model. The optional high-performance semi-slick tires increase the sensation when used on the track.

A110 GT

GRAND TOURING
BY ALPINE

THE A110 GT IS THE PERFECT BLEND BETWEEN
ELEGANCE AND PERFORMANCE. A GRAND TOURER THAT
PROMISES A THRILLING ESCAPE WITH REFINED COMFORT.

ESCAPE IN COMFORT

Six-way adjustable comfort seats upholstered in black or brown leather underscore the A110 GT refinement on the inside. Combining excellent lateral support with exceptional long journey comfort, they make every ride aboard this 300 hp Grand Touring car a sublime escape.

A UNIQUE ACOUSTIC EXPERIENCE

The four-speaker Focal® audio system incorporates the patented flax cone technology, which helps keep the car's weight to a minimum while giving a crisp and rich sound quality. Audiophiles can further upgrade to Focal® Premium an integrated subwoofer.

GRAND TOURING SPIRIT

The Grand Touring spirit of the A110 GT is written all over its body, with unique blue calipers, a GT badge on the rear of the car, and a sport exhaust system that projects the thrilling sound signature of the 300 hp engine.

A110
THE ORIGINAL
THRILL

THE A110 IS THE GUARDIAN OF THE ORIGINAL ALPINE THRILL. PLAYING ON THE ROADS WITH EXCEPTIONAL AGILITY, IT DELIVERS THE PUREST EXPRESSION OF ALPINE SENSATIONS.

SABELT® SPORT BUCKET SEATS

The one-piece Sabelt® sport seats offer maximum support while also contributing to the extreme lightness of the A110. They ensure comfort during long journeys and in daily use.

COMFORT PACK

The optional "Comfort Pack" makes the everyday experience of your A110 even more enjoyable. It adds six-way Comfort seats, 18" Sérac wheels, aluminium sport pedals, front and rear parking assistance with a reversing camera, and a Focal® audio system.

THE AUTHENTIC THRILL

The A110 distinguishes itself by subtle design elements on its body, like a new A110 rear badge. Its Alpine Blue heritage colour reveals its simplicity and authenticity. And with its 252 hp rear mid-engine, it provides agility and versatility on every road.
