OMODA E5

INTELLIGENT DESIGN

OMODA E5

The OMODA E5's unique shape not only sets it apart from other vehicles, but also helps to improve performance, by reducing drag.

Owning an OMODA E5 with its distinctive shape is sure to turn heads and make you stand out from the crowd.

THE ART OF INNOVATION

OMODA E5

Every journey is an emotional experience with the OMODA E5. Every curve, every electric fixture and detail is meticulously designed to stimulate your senses and make a bold statement on the road.

The result is not just an ordinary electric car, but a vehicle that ignites our passion for driving.

The Art of Space

The OMODA E5 interior is crafted with a focus on comfort, blending modern innovation with user-friendly interfaces. Every detail, from the high-quality materials to the thoughtfully designed seating and ergonomics, creates an atmosphere of indulgence and relaxation. When you step inside the OMODA E5, you'll be greeted by a space that invites you to enjoy the journey, knowing that your safety is our priority.

Luxury Interiors

Every aspect of the OMODA E5 interior has been meticulously crafted for comfort, blending modern innovation with intuitive interfaces and advanced features.

Ergonomically designed seating, premium materials and exquisite detailing, create an environment of indulgence.

OMODA E5

Entertainment at Your Fingertips

The dual screen puts infotainment at your fingertips with its intuitive interface. Navigate easily through a wealth of features, options and information. These are all presented with stunning clarity on the crisp display and digital dash. The centre display also allows you to wirelessly connect via Android Auto or Apple Carplay.

Multimedia

Personalise the mood of the OMODA E5 interior with over 60 colours, elevating the stylish interior. Intelligent voice control can adjust skylight window, air conditioning, ambient lights and headlights.

The multimedia system provides access to the sound field settings in the cabin; personalises the driver assistant; and chooses the colour of the atmospheric interior lighting, which flickers to the rhythm of the music.

Powerful 50W Wireless Charging

Leave your cables at home and hit the road. Keep devices powered without the hassle of plugging in cables. Simply place your compatible device on the charging pad and let the magic happen.

EFFORTLESS CHARGING

OMODA E5

In just 28 minutes, the OMODA E5 61 kWh battery will be effortlessly charged from 30%-80%.

*80kW charging speed.

Powered by the 204bhp electric motor, the OMODA E5 can reach 0-62mph in just 7.2 seconds.

OMODA

OMODA E5

Dual HD Display

Dominating the dashboard are two 12.25" HD screens, curved towards the driver with the digital instrument cluster and touchscreen infotainment system. Vehicle functions including settings, driver assistance features, lighting and drive modes are controlled via the touchscreen menu.

OMODA E5

Introduction to Chery

Chery, established in 1997, is China's largest vehicle exporter with ambitious global expansion plans. It has launched two internationally focused brands, OMODA and JAECOO.

The recent JD power survey crowned Chery as the most reliable Chinese Brand of 2024.

Tongyue Yin - Chairman

OMODA E5

Chery is the only automotive company in the industry achieving simultaneous growth in fuel and new energy vehicles across domestic and global markets.

Named among China's 'Top 20 Best Overseas Image Enterprises' five times, Chery aims to enhance its global presence through its 'Brand Upward, Market Outward, Technology Forward' strategy, striving to build a world-class brand.

WORLD CLASS

OMODA E5

R&D

Chery emphasises technological innovation and boasts a regional R&D facility in Frankfurt. Chery leads China in mastering core technologies in engines, gearboxes, chassis, platforms, and new energy.

Innovation

Chery was China's first manufacturer to export vehicles and manufacturing technologies globally. Its strategy emphasises localisation and talent development to strengthen its global network.

Inspired by design, advanced technology and top-of-the-line safety standards, Chery has secured over 29,000 patents and is a global leader in independent innovation and engineering.

Global Presence

Chery operates in over 100 countries, with 15 million global users and 100,000 employees. Recognised as China's top car exporter for 20 years, Chery ranks 385th in the Fortune Global 500.

Manufacturing

Currently, all Chery's cars for Europe are built in Wuhu, China, but production is set to expand. A partnership with Spain's EV Motors will enable OMODA and JAECOO models to be manufactured at a former Nissan factory in Barcelona. .
