

KORANDO

e-MOTION

KORANDO

The logo for the Korando e-motion, featuring a stylized blue and white 'e' followed by the word 'MOTION' in a smaller, italicized font.

FUTURE-FORWARD DESIGN

Great design comes from any angle, the rear looks as elegant as it is functional. Clearly KGM with the wings badge, clearly a Korando with a wide opening tailgate and substantial loadspace to cater for the family needs, clearly electric signed off with an e-Motion logo.

ULTIMATE

Ultimate by name, ultimate by nature. Super charged with specification. Luxurious exterior and interior packed with the latest technology and safety features.

Grand white

Drivetrain

COLOUR AND TRIM

Driving the all-electric Korando e-Motion says something about you. Your choice of colour says something more. There's a range of sophisticated colours to match your personality.

Grand White

Platinum Grey

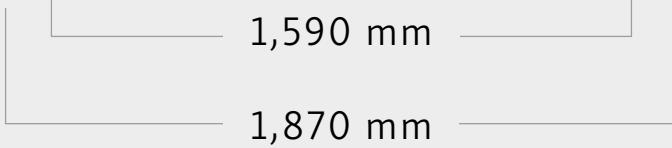

Dandy Blue

Space Black

DIMENSIONS

Every angle and detail designed with the best driving experience in mind. Whether parked kerbside, on the driveway or in the garage our size guide will help you plan for work, rest, and play.

HIGH EFFICIENCY. HIGH OUTPUT.

Korando e-Motion is powerful and quiet, smooth and efficient. The benefits of a battery electric vehicle are immediately apparent and appreciated.

Regenerative braking

The regenerative brakes harness the energy used by the motor when decelerating and converts it into latent power to recharge the batteries. Paddle shift levers behind the steering wheel offer 3 stages of control over the level of regenerative braking.

Range enhancing heating system

e-Motion Ultimate features an efficient heat system which compresses refrigerant under high pressure to generate heat which is used to heat the interior of the vehicle in place of a conventional heater. This uses less energy from the battery which increases vehicle range.

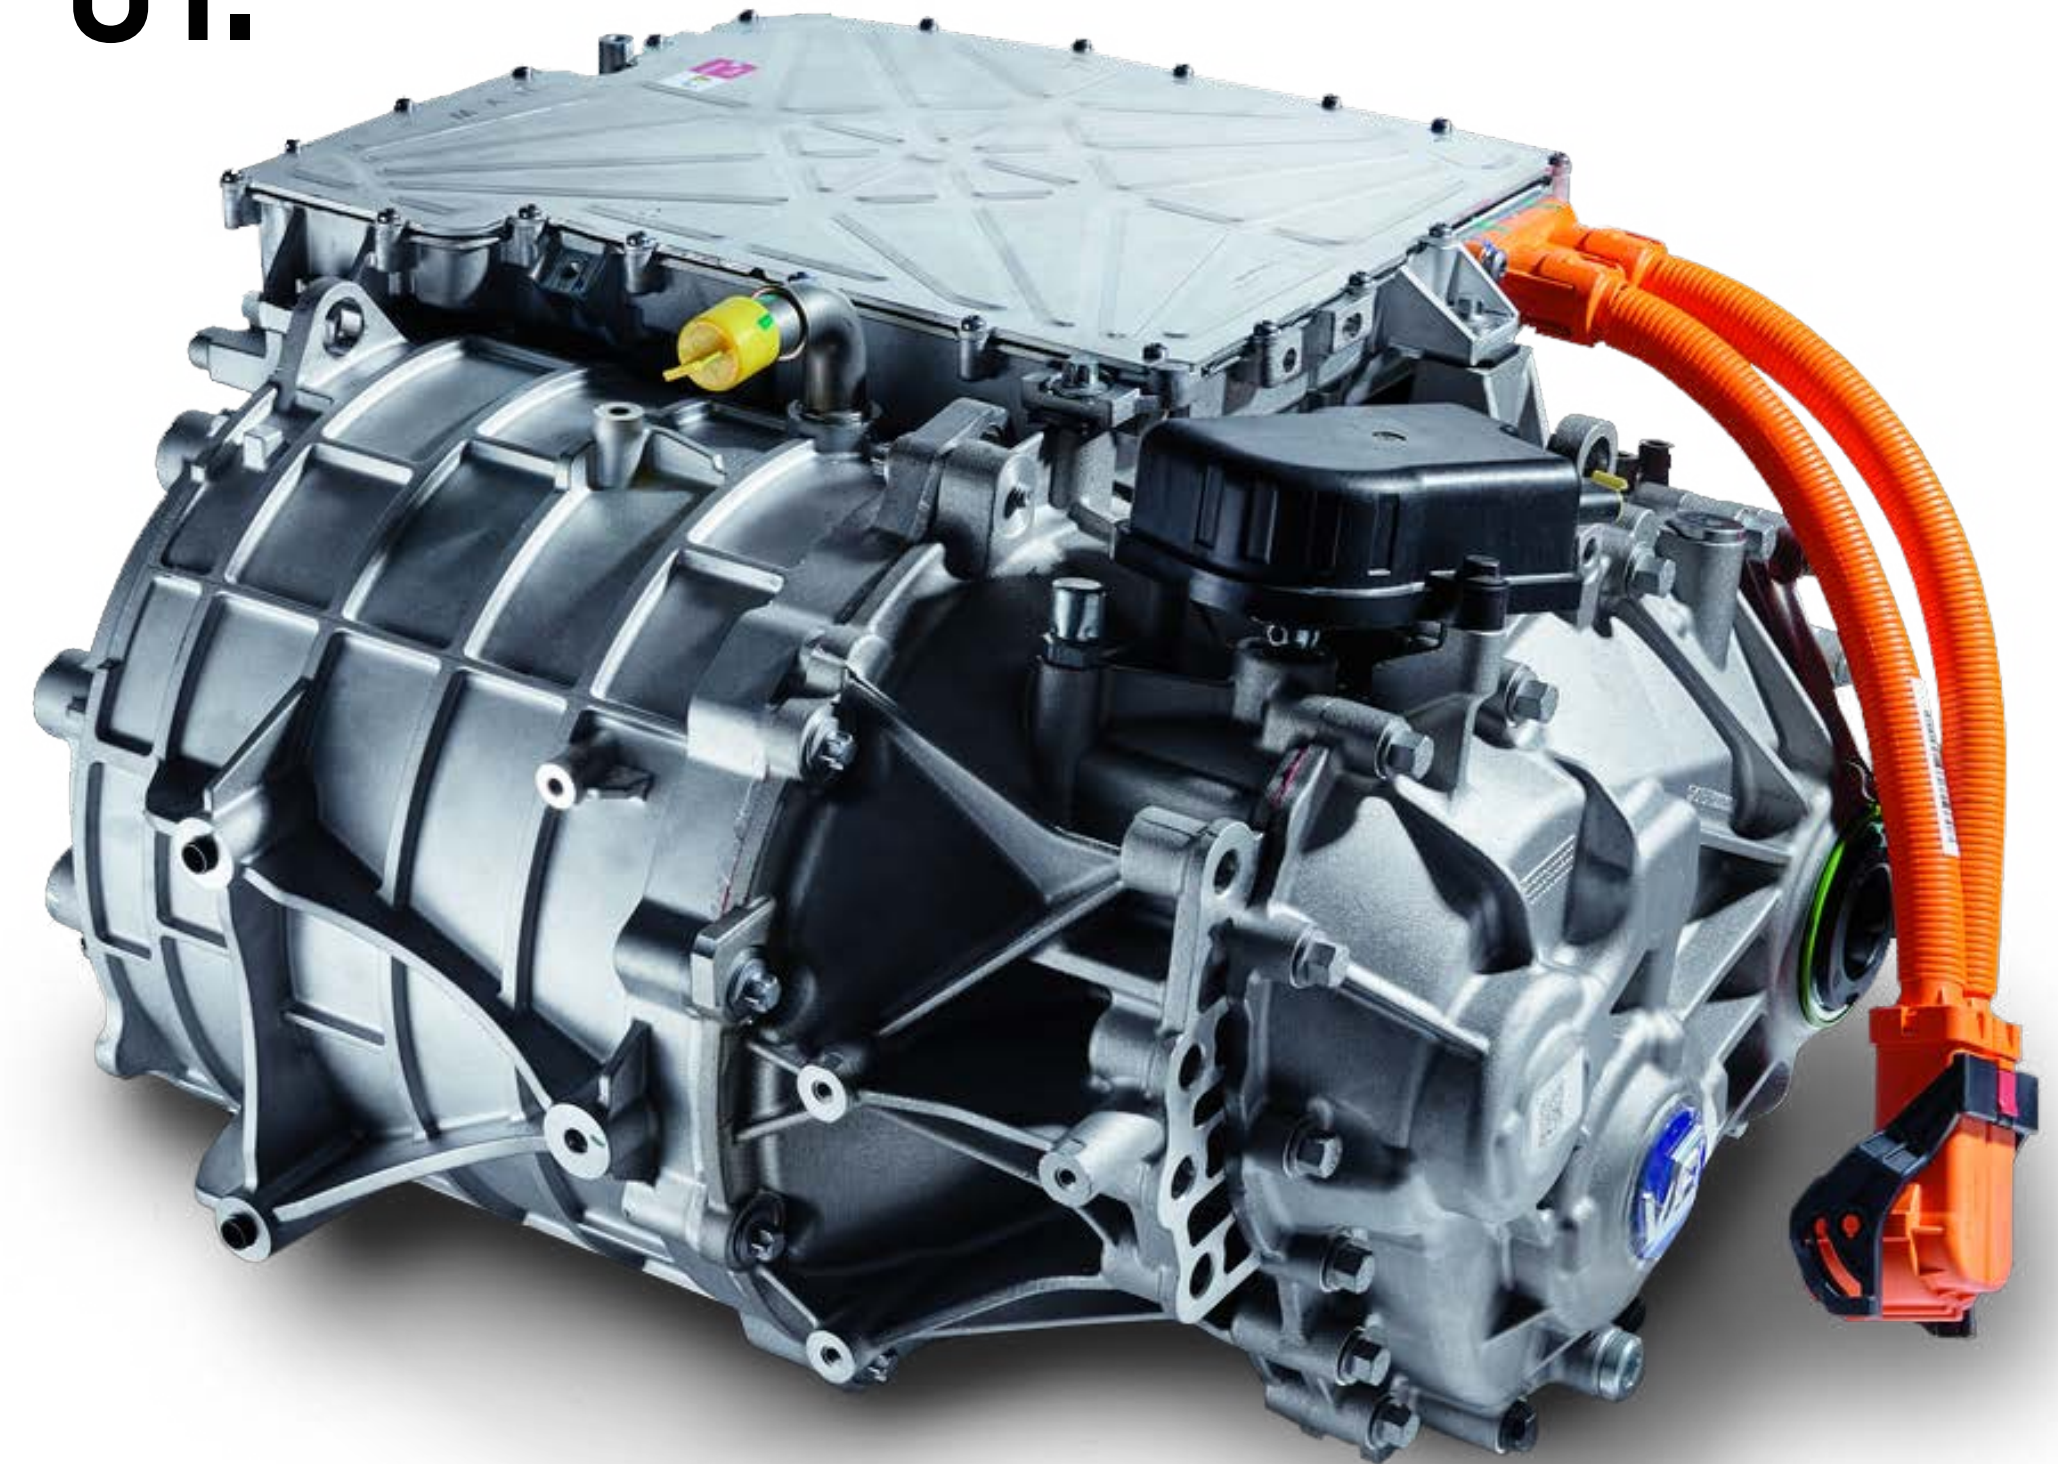

Towing capacity

Korando e-Motion is well suited for leisure and travel duties, boasting the towing capacity of up to 1.5 tonnes.

Select by wire

Select drive using electronic control which gives direct response in an intuitive and safe manner.

Max Power

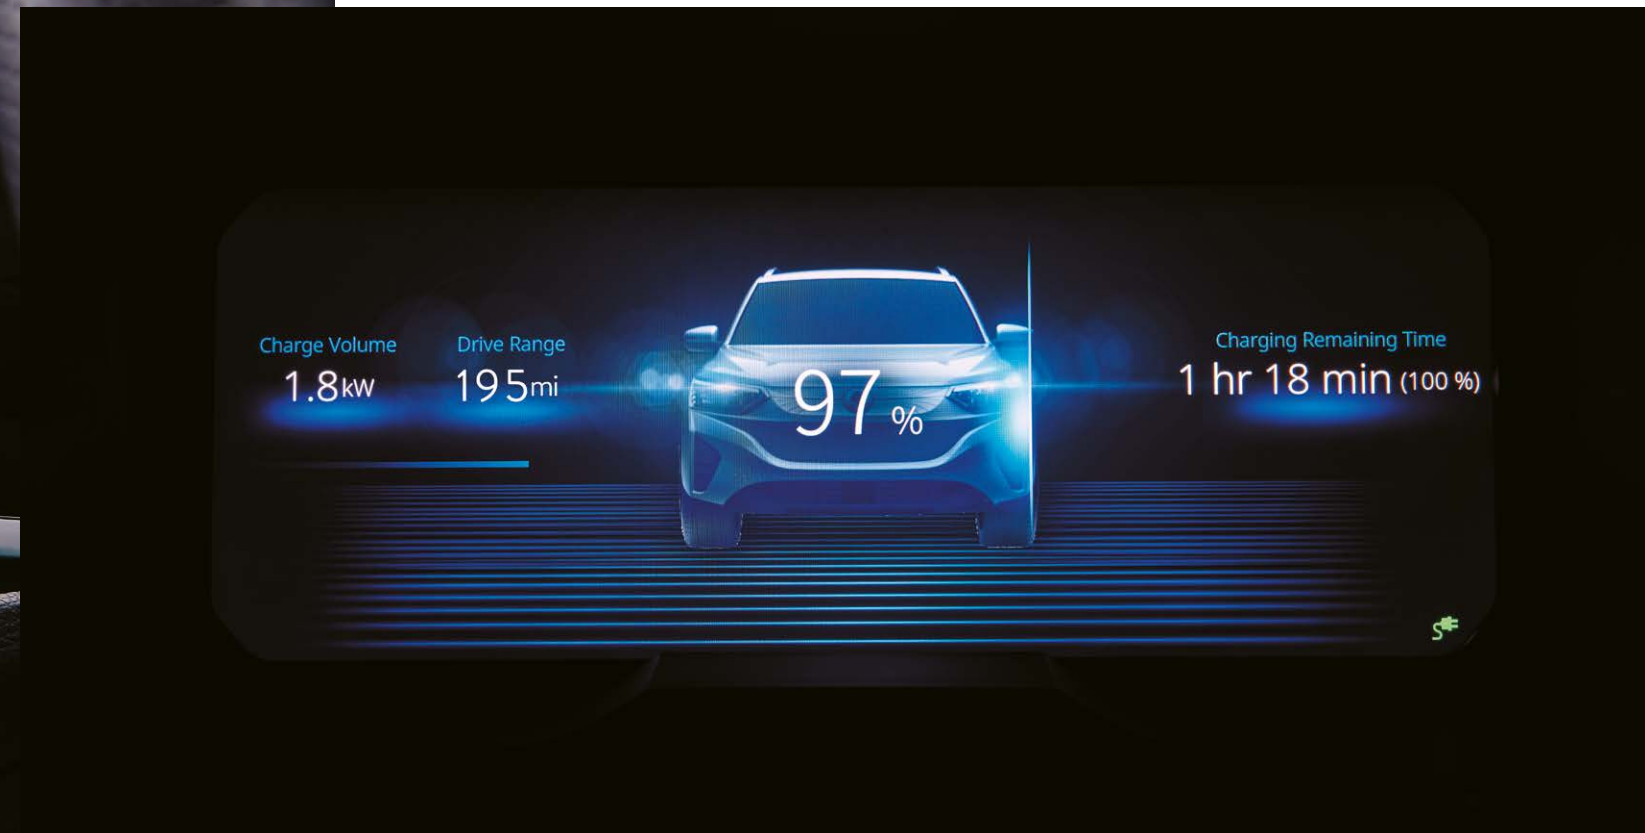

152kw

Max Torque

339Nm

PUTTING THE POWER AT YOUR FINGERTIPS

Korando provides a convenient charging control system via the infotainment screen allowing pre-scheduled charging, target charging and providing a clear charging status display to keep you on track.

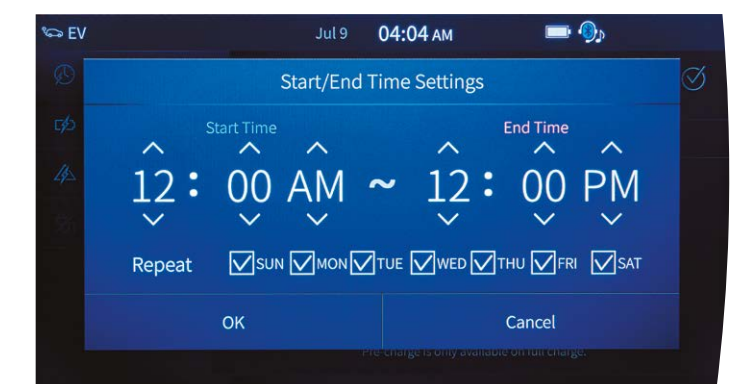

Charging status display

When charging begins, the estimated time to fully charge is displayed on the instrument cluster, along with current power level and estimated range. Paddle shift levers behind the steering wheel offer 3 stages of control over the level of regenerative braking.

Set required battery level

Programme the amount of charge required to be added to the battery.

Scheduled charging

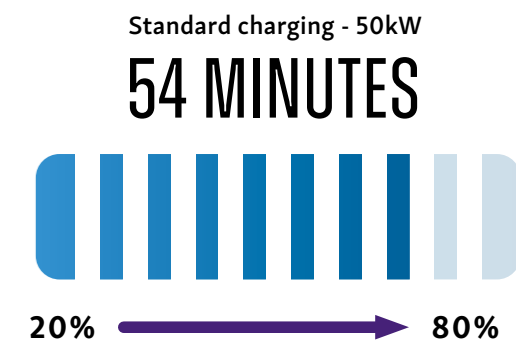

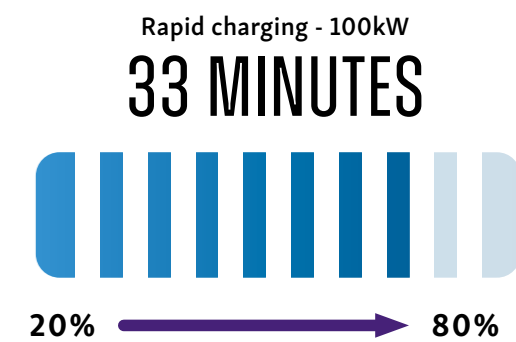

Charging can be scheduled in advance by setting the start and end times which is useful for efficient home charging.

YOU'RE IN CHARGE

With a range of up to 309 miles when driving in the city, Korando e-Motion has more than ample ability. 15 miles to work and back again each day? One charge will last you a week. Going further afield? London to Leeds? No problem. Manchester to Birmingham? And back again.

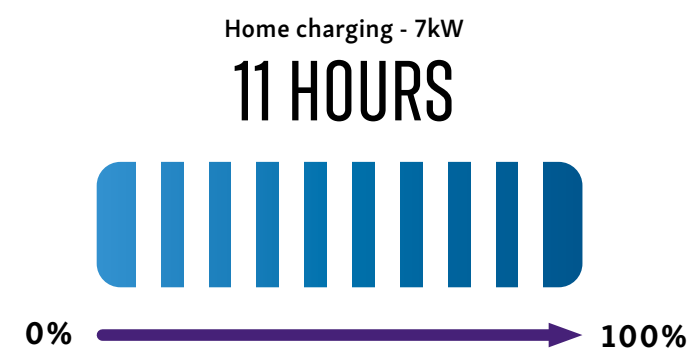

Utilise the ever expanding charging network

The Korando e-Motion can be charged for normal use in just over half an hour. To be precise, 33 minutes will power your vehicle from 20% to an 80% charged battery which is ready to go. Connect to a 50 kW point and you'll have similar levels of clean pure energy in just 54 minutes.

Charging at home - 7kW

As nighttime falls, e-Motion works overtime to provide you with a fully charged battery using a 7kW home charger. From zero charge to a fully loaded power pack in 11 hours.

Portable charger

The contemporary equivalent of a petrol can. In the event of an emergency you can charge the battery from an ordinary household outlet (220V) using the portable charger.

Charging connector lock

The charging connector lock prevents the charging connector from being removed whilst using a public charger.

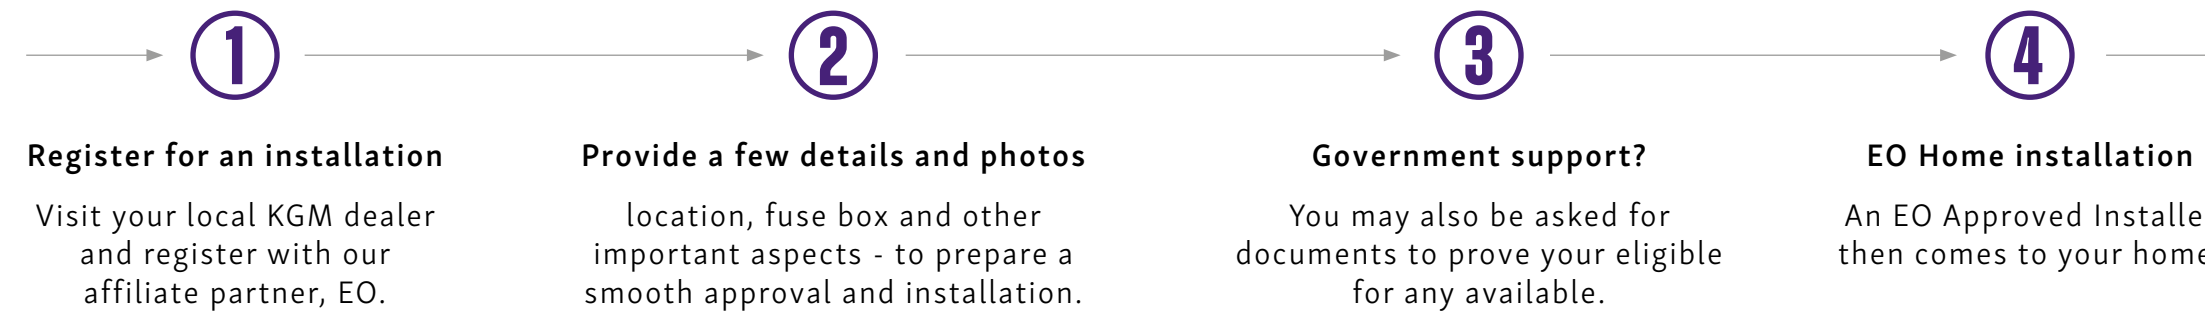

Charging door and ports

A neat door on the front passenger side wing hides Type 2 and CCS charging ports.

CHARGE AT HOME

Getting a charger installed at your home is easier than you think. There are a few things to consider when planning to install a home charge point – the good news is that KGM affiliate partner, EO, offers a one-stop service that is convenient, cost-effective and packed with benefits.

Here's how it works:

SPECIAL KGM AND EO OFFER GET THE EO MINI PRO 2

- ✔ Charging capacity: up to 7kW
- ✔ Untethered (universal) or tethered unit
- ✔ Exclusive 7-year warranty on Mini Pro 2 in association with KGM
- ✔ 3-year warranty and standard installation
- ✔ Included on other products
- ✔ Auto power balancing to safely manage electrical load (recommended)
- ✔ Preferential price for customers referred by a KGM Authorised Dealer

EXTERIOR DESIGN

ELECTRIFYING GOOD LOOKS

This is an all-electric vehicle with refined, energetic style. Bold, sleek and chic. Combining heritage and hi-tech in one refined advanced package, Korando e-Motion reduces emissions without sacrificing any style.

Crystal clear LED headlamps

For those who want to see and be seen. The multi-focus reflector headlights feature distinctive blue accents. Sparkling high beam and low beam LED headlights will turn heads and light your way on the darkest nights.

Multi function door mirrors

The energetic, purposeful side silhouette is enhanced by the sleek door mirrors. The multi-function door mirrors can fold in when you step out and have downward facing puddle lights which let you see what you're stepping into.

LED rear combination lights

A new silver line motif and distinctive double-V within the cluster announce a new look for the Korando e-Motion rear combination lights.

Alloy wheels

The emotion comes with 17" diamond cut alloy wheels

FEATURES

Korando is at the cutting edge, embracing future-thinking new technologies. Electric blue accents and aerodynamic character lines emphasise the vehicle's advanced eco credentials. The pursuit of maximum energy efficiency is highlighted by the pared-down, closed off radiator grille.

DRIVE THE FUTURE

INTERIOR & CONNECTIVITY

TOTAL CONTROL

This driving experience is centred around you. Essential data is available at a glance. You are in the driving seat within a mellow, relaxed cockpit as microprocessors work tirelessly and efficiently to relay information to your contemporary, cool-blue digital display.

Digital instruments with in-cluster navigation

Full colour map display to give you the overall picture flanked by vehicle information displays on either side.

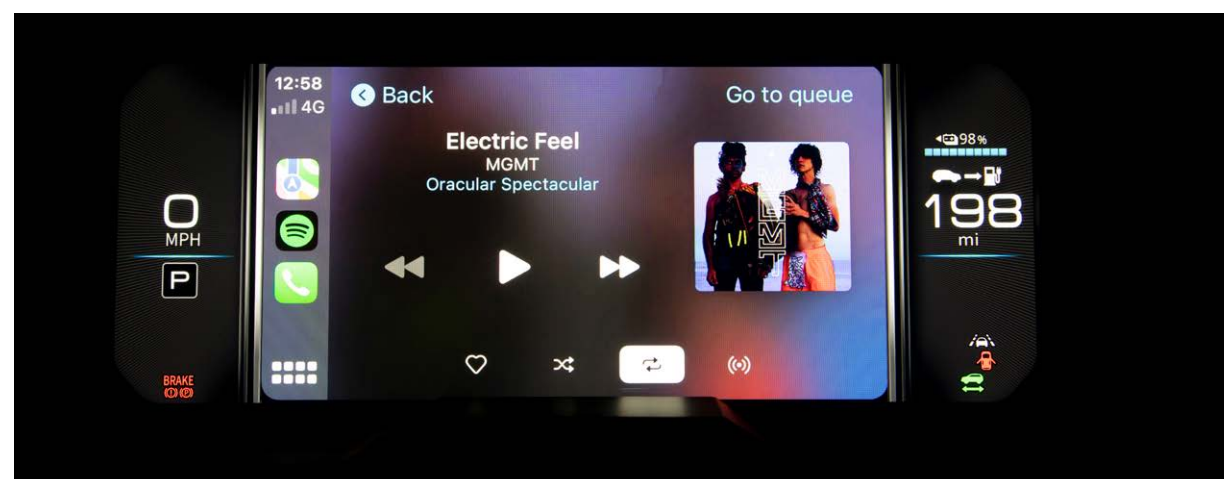

Analogue style display

Analogue style instruments surround a central screen that provides your selection of vehicle data so you can stay in control.

Digital instruments with smartphone mirroring

Data from your smartphone is mirrored from the central infotainment screen to the digital display flanked by vehicle information displays on either side.

ERGONOMIC

INTERIOR & CONNECTIVITY

HI TECH. FULL SPEC.

You would expect a vehicle which is on the leading edge of an all-electric revolution to have electronics to match. Korando e-Motion has advanced driver interfaces which use faster, easier, smarter technology to evolve the way you drive.

Electronic parking brake with auto hold

Dual-zone air conditioning

Rear parking camera

Wireless phone charger

Heated steering wheel

Power tailgate

Front parking sensor

THE INSIDE STORY

There's a Korean phrase, 'Noon-Chi' which has no direct translation. It means being in touch with the feelings of others and in harmony with your environment. The Korando e-Motion has Noon-Chi in spades. The interior is the widest in its class and wraps itself ergonomically around you. You feel safe, secure, and comforted.

FEEL SAFE, SECURE, AND COMFORTED

SOUNDS SENSATIONAL

e-Motion has all the latest tech. Dual displays link you up with the outside world, while Android Auto or Apple CarPlay keep you connected to your sounds. There's even a rear view camera as standard.

Google Android Auto and Apple CarPlay

No need to look down at your phone, it's all on-screen. Access invaluable apps and enjoy your music library whilst on the move.

9" screen smart audio

An 9" touchscreen controls DAB radio, Apple CarPlay or Android Auto connect your smartphone to the car, or use Bluetooth connectivity, or a handy USB.

HD navigation

Features a high definition, TomTom® Navigation, Apple CarPlay or Android Auto to if you prefer other navigation apps.

STRETCH YOUR LEGS

Inside, Korando e-Motion is big. It's roomy and it's comfortable. The award winning front seats are sumptuous and heated. And there's more than enough room for strapping teenagers in the back.

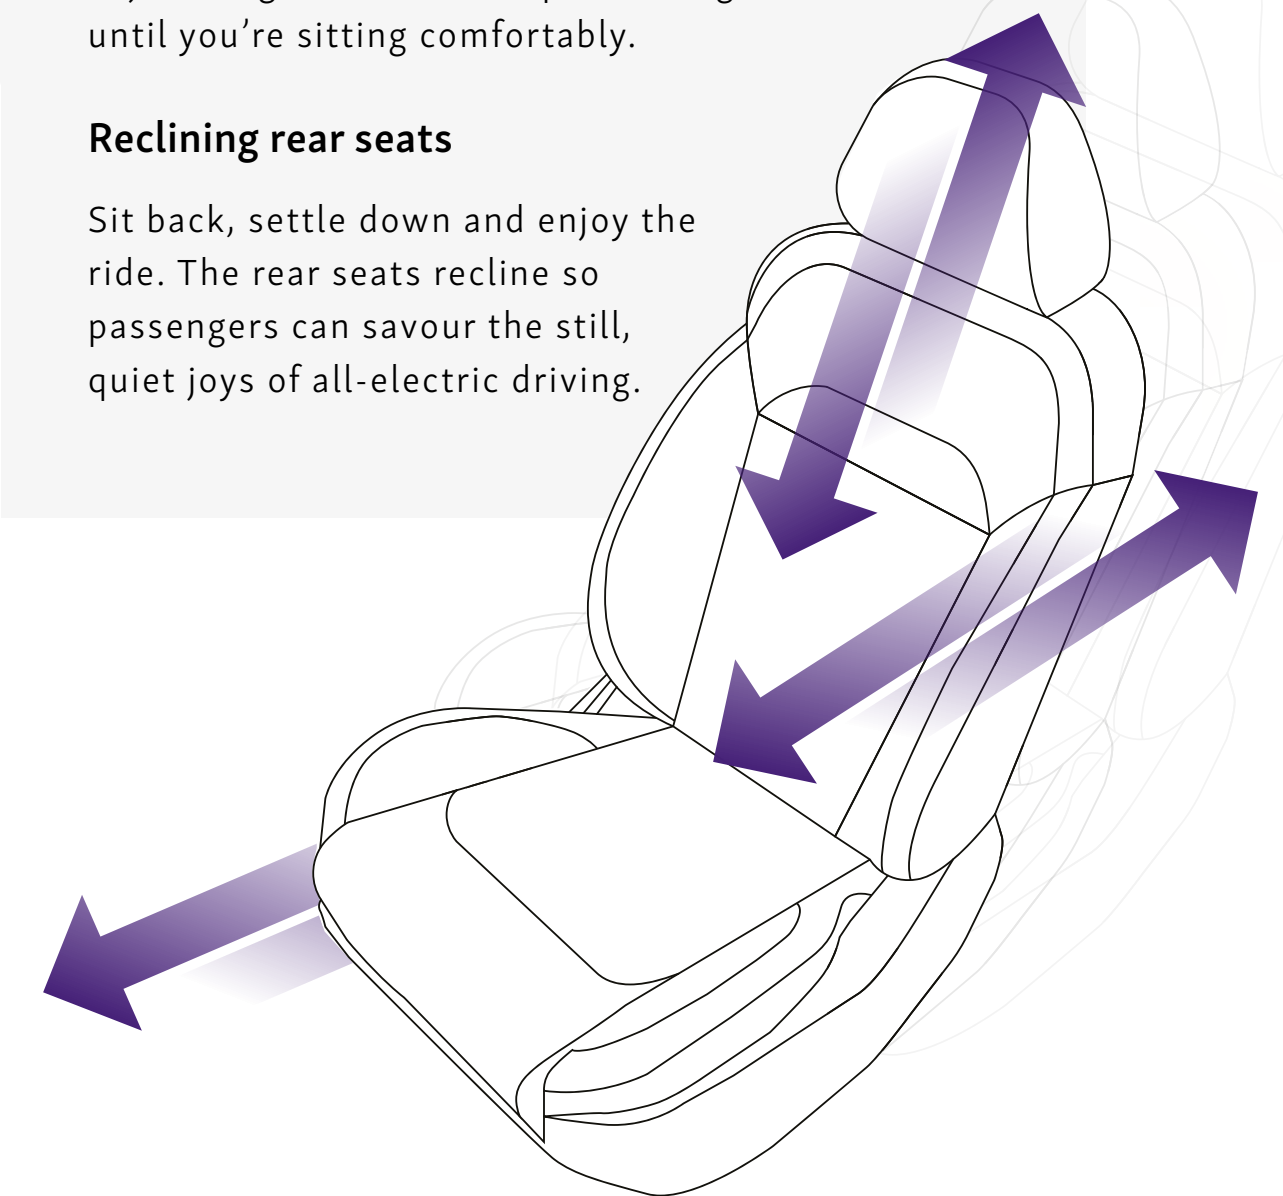

Power seats with lumbar support

Find your perfect position. Electrically adjust height, and lumbar positioning until you're sitting comfortably.

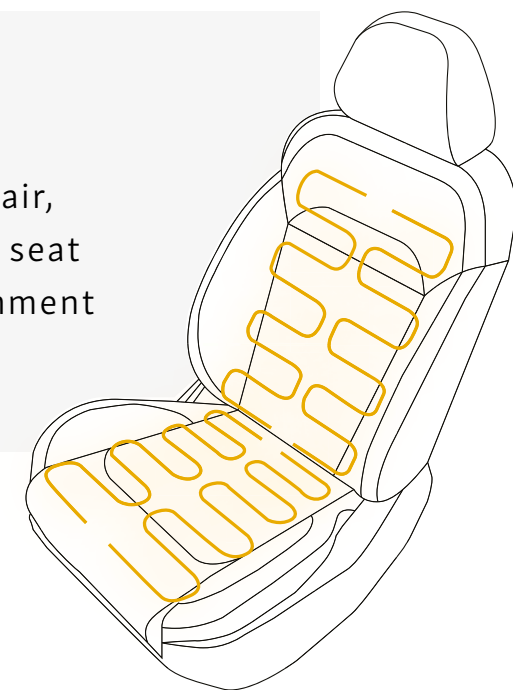

Reclining rear seats

Sit back, settle down and enjoy the ride. The rear seats recline so passengers can savour the still, quiet joys of all-electric driving.

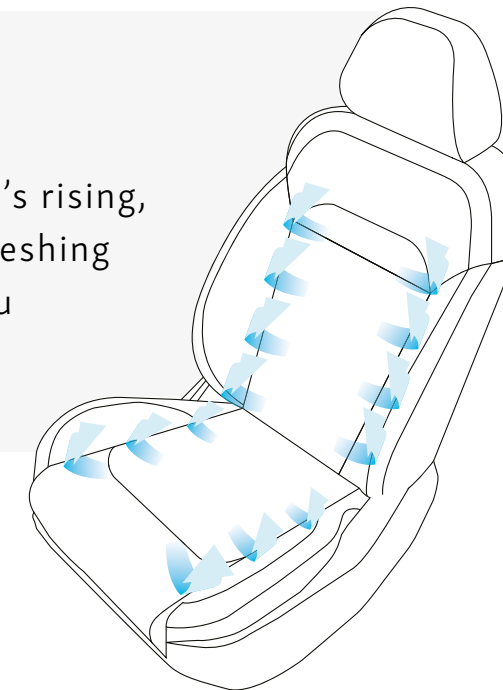

Heated seats

When there's a chill in the air, a warm, welcoming heated seat creates the perfect environment for you to enjoy the ride.

Cooled seats

When the temperature's rising, a gentle stream of refreshing chilled air will help you keep your cool.

INTERIOR & CONNECTIVITY

BAGS & BAGS OF SPACE

With 551 litres of loadspace, the Korando e-Motion offers class beating capacity for luggage and seating flexibility. It's not just big. It's huge and packed with features.

With luggage board

Flexible Rear Seating

Golf clubs? No problem. Suitcases? Bring them on. You can adjust the rear loadspace by folding all or part of the rear seats - surf board, no problem!

2nd row 40% folded

2nd row 60% folded

2nd row fully folded

Adaptable luggage board

A handy two part luggage board provides a hidden compartment like the luggage hold of a plane, or can be stored behind the rear seat to create one huge luggage space.

Full luggage board in place

Rear-half luggage board removed

Front-half luggage board removed

Luggage board removed

PROTECTING YOU & YOUR LOVED ONES

This is the safest and strongest Korando ever. Safety is built in – from the body up, with a best in class body structure composed of 77% high tensile strength steel. We've also fitted 6-airbags in case you run into trouble - or trouble runs into you.

High tensile-strength steel

At KGM, safety begins with the production of the body structure. For higher rigidity and safety, the body is built with advanced high tensile strength steel.

6-AIRBAGS

- 1** Driver's airbag
- 2** Passenger's airbag
- 3/4** Driver's & passenger's side airbags
- 5/6** Curtain airbags

SMART SAFETY

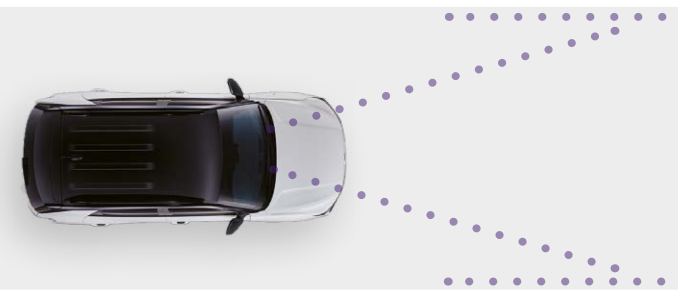

Lane Departure Warning

Notifies the driver when the forward camera module detects an unintended lane departure by the vehicle.

Lane Keeping Assist

Front camera helps prevent unintended lane departure by making a corrective steering adjustment.

Hill Start Assist

Rolling backwards during a hill start is a thing of the past - hill start assist acts as an automatic handbrake and is a great benefit when driving in tricky conditions.

Smart High Beam

Automatically lowers the high beams when an approaching vehicle is detected, making night-driving easier.

Speed Limit Warning

Displays traffic information, including posted speed limits to maximise driving safety.

Hill Descent Control

This low speed control activates when the vehicle is handling a steep downhill drive, automatically controlling the rate of descent.
