

RENAULT CAPTUR E-TECH SELF-CHARGING FULL HYBRID

160 hp

also available with
a petrol engine

1 October 2026

compact and assertive SUV

With its powerful front end panel, an esprit Alpine trim with an iconic sports design, Renault Captur E-Tech self-charging full hybrid⁽⁶⁾ is very much the embodiment of a compact SUV. With generous interior space, an openR link multimedia system with Google built-in and 27 advanced driver-assistance systems, it stands out in every respect.

Enjoy the thrill of electric driving with the 160 hp E-Tech self-charging full hybrid engine.

160 hp E-Tech self-charging full hybrid engine	up to 675 miles of range ⁽¹⁾	up to 64.2mpg of fuel consumption ⁽¹⁾
openR link system with Google built-in ⁽²⁾	27 advanced driver-assistance systems ⁽³⁾	Up to 616 litres ⁽⁴⁾ of boot volume ⁽⁵⁾ with rear seats forward

(1) internal source. based on new Captur E-Tech vs WLTP fuel consumption figures. Figures shown are for comparability purposes only. Actual real world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load. (2) available on techno and esprit Alpine Versions. (3) always follow road safety regulations. It is your responsibility to stay alert, drive safely and be in control of the vehicle at all times. You should not solely rely on driver convenience and assistance features. Some features may not work in all conditions and circumstances, and they have speed and other limitations. Google, Google Maps, Waze and other related marks are trademarks of Google LLC. (4) depending on engine and with bench seat in the forward position. (5) the equivalent volume measured according to VDA standard (ISO 3832) is 536 dm³ for the petrol version and 440 dm³ for the full hybrid E-Tech version (the VDA standard involves measuring the total volume of the boot using standardised shape and volume objects (200 mm x 100 mm x 50 mm = 1 dm³)). (6) also available in TCe 115.

openR link multimedia system with Google built-in⁽¹⁾⁽²⁾

With its new central 10.4" screen and 10.25" digital driver display⁽²⁾, the openR link multimedia system offers intuitive access to the best of Google services⁽¹⁾: navigation with Google Maps, voice assistant with Google Assistant or Google Play with over 100 apps available.

Closed road, new direction of traffic, roadworks, etc. Always take the best route and let yourself be guided by Google Maps.

With Google Assistant, plan your journey, change driving mode or adjust the temperature with a simple voice request: "Hey Google..." and off you go.

Over 100 applications⁽¹⁾ with exclusive content are available via Google Play⁽³⁾, including Waze, SongPop for Renault, and Amazon Music⁽⁴⁾.

Waze is a community-based navigation app that shares information in real time. Waze boosts your peace of mind.

Drive to the beat with our new musical game – **SongPop for Renault!** Play together and rediscover popular songs with your family and friends!

Take to the road while listening to playlists, and much more, with **Amazon Music**, included with your Amazon Prime subscription⁽⁴⁾.

Use **Spotify** to listen to your favourite podcasts, playlists, and artists all simply using your Google voice activation.

Vivaldi browser is an efficient, fast web browser that respects your privacy.

Access all your favourite radio stations live, at any time, in France or abroad, with **Radioplayer for Renault**.

(1) to download apps from Google Play, you must enter a Google account in your profile on openR link. Use of downloaded apps requires a dedicated data plan. You can share your smartphone's connection with your car. Data plan and connective services standard period with purchase of a vehicle may differ depending on when the vehicle was built, therefore, please refer to your local Retailer for full details. (2) available on techno and esprit Alpine versions. (3) Google, Google Maps, Google News, Waze and other marks are trademarks of Google LLC. (4) Amazon and all related marks are trademarks of Amazon.com

compact and generous

The interior space can be adjusted according to your needs thanks to the ingenious 16 cm sliding rear bench seat. This gives passengers knee room of up to 22 cm. You can reduce it to free up more space in the loading area.

The boot of up to 616 L⁽¹⁾ is extremely practical with its modular volume. In the blink of an eye, fold down the rear bench seat and enjoy total loading space of up to 1,596 L⁽²⁾, ideal for transporting long objects.

1) Figure shown is for petrol version. 480L for the hybrid version. The equivalent volume measured according to VDA standard (ISO 3832) is 536 dm³ for the petrol version and 440 dm³ for the full hybrid E-Tech version (the VDA standard involves measuring the total volume of the boot using standardised shape and volume objects (200 mm x 100 mm x 50 mm = 1 dm³)). 2) Figure shown is for petrol version. 1458L for the hybrid version. The equivalent volume measured according to VDA standard (ISO 3832) is 1363 dm³ for the petrol version and 1276 dm³ for the full hybrid E-Tech version (the VDA standard involves measuring the total volume of the boot using standardised shape and volume objects (200 mm x 100 mm x 50 mm = 1 dm³)).

06. advanced driver-assistance systems

up to 27 advanced driver-assistance systems⁽¹⁾

active driver assist⁽²⁾
Combines intelligent adaptive cruise control with Stop & Go and lane centering. The system adjusts speed to the traffic, maintains safe distances, and keeps the vehicle in its lane. If traffic slows, the vehicle stops and restarts automatically. You can also set the system to provide a safety corridor.

rear view camera
This system provides a rear view on the screen when you engage the reverse gear. Superimposed outlines help to make your manoeuvres easier and safer.

traffic sign recognition with overspeed prevention
This shows the maximum speed limit and warns you if you are speeding, this will then display a sign on your instrument panel and an audible signal prompts you to slow down.

automatic emergency braking system (city/suburban/pedestrian/cyclist) with intersection function
This system uses warning lights to alert you about the presence of vehicles that are not visible in your field vision in an urban environment. If the vehicle detects a risk of a collision the braking force is increased.

driver attention alert
Active from 37 mph, this system warns the drive if fatigue is detected via an audible alert and a message on the dashboard, detection is based on analysis of the drivers reactions (steering wheel movements, use of indicators or windscreen wipers, time spent).

blind spot warning⁽²⁾
active from 9 mph, the system uses the rear side sensors to detect the presence of a vehicle in a non-visible rear side area (blind spot) this warns the driver by switching on a warning light in the door mirror on the side where the vehicle is not visible.

driver assistance

- speed limiter
- cruise control
- adaptive cruise control⁽³⁾
- active driver assist⁽²⁾
- distance warning alert
- hill start assist
- predictive hybrid driving [E-Tech only]
- auto/low high beam
- auto lights and rain sensing wipers

parking assistance

- rear parking sensors
- front parking sensors⁽³⁾
- side parking sensors⁽³⁾
- rear view camera

safety assistance

- rear cross traffic alert⁽²⁾
- rear active emergency braking⁽²⁾
- blind spot warning⁽²⁾
- automatic emergency braking system (city/suburban/pedestrian/cyclist) with intersection function
- traffic sign recognition with over speed alert
- driver attention alert: with interior A-pillar camera for driver drowsiness warning
- lane departure warning
- lane keeping assist
- emergency lane keep assist including oncoming traffic & road edge
- post-accident active braking
- occupant safe exit⁽²⁾

(1) always follow road safety regulations. It is your responsibility to stay alert, drive safely and be in control of the vehicle at all times. You should not solely rely on driver convenience and assistance features. Some features may not work in all conditions and circumstances, and they have speed and other limitations. Number of ADAS features is version dependant. Please see full equipment list for details by version. (2) available on esprit Alpine version. (3) available on techno and esprit Alpine versions.
