

RENAULT 4 E-TECH ELECTRIC

1 October 2025

liberté 4 ever

Renault 4 is back... and this time, it's electric. Libre to open or close the plein sud™ electric canvas sunroof⁽¹⁾ in the blink of an eye. Libre to customise the interior and exterior design to suit your own style. Libre to take full advantage of connected driving with the openR link multimedia system featuring Google built-in⁽¹⁾⁽²⁾. Infused with French spirit and assembled in France, Renault 4 is designed for a new era of mobility.

Renault 4 E-Tech offers up to 150 hp⁽⁴⁾ and a range of up to 247 miles⁽⁵⁾, giving you the power and freedom to navigate city streets or venture off the beaten path with ease.

up to 247 miles of range⁽³⁾

up to 420 litres of boot space, or with the rear seats folded, up to 1,405 litres⁽⁴⁾⁽⁵⁾

low boot loading sill

electric plein sud™ canvas sunroof⁽¹⁾ that opens up to 92 cm

openR link system with Google built-in⁽¹⁾⁽²⁾ and more than 50 applications

numerous exterior customisation combinations

liberté 4 ever = always free

(1) depending on version. Plein sud™ versions to be launched later. (2) My Renault, Google Maps and Google Assistant connected services are provided free of charge for 5 years from the date of delivery of your vehicle. Google, Google Play, Google Maps, Waze and other brand names are trademarks of Google LLC. (3) WLTP figures shown are for comparability purposes only, actual driving range depends on driving conditions (type of road, driving and weather conditions). (4) with rear bench seat folded down. (5) equivalent volume measured according to VDA standard (ISO 3832) of 1149 dm³. The VDA standard involves measuring the total volume of the boot using objects of standardised shape and volume (200 mm x 100 mm x 50 mm = 1 dm³).

futuristic retro design

With its iconic silhouette and modern updates, the all-electric Renault 4 E-Tech blends heritage with adventure. Signature details like the illuminated grille, sculpted profile, and distinctive⁽¹⁾ three-part rear lights give it a fresh, contemporary edge.

The signature grille⁽¹⁾ forms a single unit with a luminous surround and full LED headlights, and sports an illuminated logo for the first time.

Framing the number 4-branded tailgate, the three-segment LED rear lights are a reinterpretation of the first-generation Renault 4, with added style and modernity.

(1) illuminated grille from techno version.

Experience open-air freedom with the electric plein sud™ canvas roof⁽¹⁾⁽²⁾, extending 92 cm for a panoramic feel in every seat. Effortlessly controlled by voice or touch, it's your invitation to embrace every adventure in style.

plein sud™ versions available later

A nod to the 1960s, the Renault 4's interior features premium, sustainable materials. Depending on the version, the dashboard and seats are upholstered in quilted denim textile with visible copper stitching or grey houndstooth textile with a striking yellow ribbon detail⁽¹⁾.

image shows techno version, with denim textile interior

interior with style

The Renault 4 interior is designed for personalisation, blending style with modern convenience. Featuring the distinctive e-pop shifter and smart storage solutions, it's designed to suit you, your journey, and your lifestyle.

e-pop shifter

Choose the e-pop shifter that suits you - the steering wheel gearshift can be chosen to match your style and preferences.

The e-pop shifters come in 3 designs, easily interchangeable to suit your needs : yellow flash, green numberR4 and silver flowerR4.

storage areas

An additional touch of style with the storage compartments featuring innovative covers 3D printed at our Flins factory.

24 possible combinations ⁽¹⁾	small central storage compartment	large central storage compartment
2 compartment base colours	2 cover designs	3 cover colours

Unlimited 4 and floweR4, 2 modular designs in 3 colours for the large central compartment cover.

numbeR4 and loveR4, 2 designs revisited in 3 colours for the small central compartment cover.

Your essential items remain at your fingertips throughout your journey with the central cross 4 organiser, available in 3 colours.

⁽¹⁾ 12 combinations for the small compartment and 12 combinations for the large compartment.

openR link system with Google built-in

Experience next-generation connected driving with two 10" screens⁽¹⁾. The intuitive openR link multimedia system with Google built-in⁽¹⁾⁽²⁾ offers a wealth of features, including over 50 apps like Spotify, Amazon Prime and Vivaldi.

Closed roads, traffic jams, roadworks... Take advantage of the real-time updated route planner to ensure you're always on the best route with Google Maps⁽¹⁾⁽²⁾⁽³⁾.

Voice control: "Hey Google, where are the nearest charging points?" Plan your journeys, adjust the cabin temperature, change your driving mode... all with a simple request to Google Assistant⁽¹⁾⁽²⁾⁽³⁾.

Over 50 applications⁽¹⁾⁽²⁾⁽³⁾ with exclusive content are available via Google Play⁽¹⁾⁽²⁾⁽³⁾, including Waze, SongPop for Renault, and Amazon Music.

Waze is a community-based navigation app that shares information in real time. Waze boosts your peace of mind.

Drive to the beat with our new musical game – SongPop for Renault. Play together and rediscover popular songs with your family and friends!

Take to the road while listening to playlists, and much more, with Amazon Music, included with your Amazon Prime subscription.

Access all your favourite radio stations live, at any time, in the UK or abroad, with Radioplayer.

Vivaldi browser is an efficient, fast Web browser that respects your privacy, but also gives you the chance to watch things such as YouTube, Netflix or Disney+ through your normal accounts. Keep yourself, or the kids, entertained while you're charging!

With EasyPark, you can plan and book millions of parking spaces across Europe. Enter your destination's address or navigate using the map.

If Spotify is more your bag, download the app to listen to your favourite music or podcasts.

(1) from techno version. (2) My Renault, Google Maps and Google Assistant connected services are provided free of charge for 5 years from the date of delivery of your vehicle. Google, Google Play, Google Maps, Waze and other brand names are trademarks of Google LLC. (3) using apps downloaded from Google Play requires a dedicated data package. To use these apps, share your phone's connection with your Renault.

reno, the official Renault avatar

reno⁽¹⁾, the official Renault avatar, will be your co-pilot, helping you get the most out of your Renault 4 and its services. It adapts to your preferences, becoming even smarter the more you interact with it.

I can interact by voice

The official Renault avatar is onboard the Renault 4, ready to help you get to grips with the car and assist you in your everyday driving. Got a question? Simply say "hey reno" and ask away.

I can make your daily life easier

To help you prepare for your journeys, reno can control certain Renault 4 functions at your request. Schedule charging, preheating, or activate the air purifier with ease.

I can advise you

Reno offers personalised advice on how to use your Renault 4. It suggests actions tailored to your journey and driving style, such as switching from sport mode to eco mode during a traffic jam.

I can take care of maintenance

Reno takes care of your Renault 4's maintenance, alerting you to any technical issues or when your car is due for a check-up.

I can answer your questions

Powered by artificial intelligence, reno answers your questions during your journeys.

The wt4 by reno smartphone app

To get preview information and content about Renault 4, know everything there is to know about what reno does on board and question its artificial intelligence at any time.

Download the wt4 by reno app

Ready for action

With roof bars⁽¹⁾, an 18.1 cm ground clearance, and 18" diamond cut alloy wheels, the Renault 4 is built to handle both roads and tracks with ease.

4.14 m long	ground clearance of 18.1 cm	roof bars ⁽¹⁾
wide wheel arches	18" diamond cut alloy wheels	low loading sill

The aerodynamic roof bars⁽¹⁾ enhance the loading capacity while highlighting the distinctive look of the Renault 4.

(1) from techno version, and only possible on 'fixed roof' not plein sud™ version.

[configure and order →](#)

Electric sensation

With its 150 hp engine, the Renault 4 can reach 62 mph in just 8.2 seconds, delivering powerful acceleration and dynamic performance. Its turning circle enhances agility, while its chassis ensures maximum comfort. Regenerative braking with the "One-Pedal⁽¹⁾" function makes every journey smooth and enjoyable.

E-Tech electric 150 hp	0 to 62 mph in 8.2 seconds
---------------------------	-------------------------------

The Renault 4 introduces innovation with its regenerative braking system and the new "One-Pedal⁽¹⁾" function. Each time you decelerate, energy recovery is optimised, and the "One-Pedal⁽¹⁾" mode enhances braking until the vehicle comes to a complete stop, all without needing to use the brake pedal. The four levels of braking can be adjusted using the paddles on the steering wheel.

(1) available from the techno version.

[configure and order →](#)

up to 247 miles of range⁽¹⁾

With aerodynamic roof bars⁽²⁾, specially designed air intakes, and an optimised rear spoiler, the Renault 4 E-Tech electric is crafted to minimise air resistance and maximise its driving range of up to 247 miles⁽¹⁾.

range ⁽¹⁾ up to 247 miles	15% to 80% range after 30 min of charging ⁽¹⁾
--	---

(1) WLTP figures shown are for comparability purposes only, actual driving range depends on driving conditions (type of road, driving and weather conditions) and charges the battery from 15% to 80% in 30 minutes on the motorway / Renault 2023 internal source. Data certification pending. (2) roofbars from techno version and without plein sud™ opening canvas roof.

configure and order →

easy to charge

Whether you're at home, at work or on the move, you can charge your Renault 4 E-Tech electric anywhere thanks to its flexible charging options.

charging at home

- Mobilize power solutions⁽¹⁾

Order your charging solution and installation from a Renault retailer. Install your Renault approved home charger via Mobilize power solutions.
- Mobilize smart charge

Charge intelligently and pay less. Try the free Mobilize Smart Charge app, smart charging management to get electricity at the best price, and save on charging at home.
- maximum 11kW AC charging⁽²⁾

Charge Renault 4 E-Tech electric easily at home⁽¹⁾ using a wall-mounted charging point or when you are on the move, where Renault 4 will take a maximum of 11kW on AC.
- My Renault app

Check your range at any time, start charging remotely or schedule it at off-peak times. My Renault also offers further benefits, such as setting the cabin temperature remotely, meaning you can always get into a warm or cool car, depending on your preferences.

on-the-go charging

- Mobilize charge pass

Make charging on the road easier and pay less. Charge Renault 4 quickly and easily on the move with a pass to Europe's largest network of charging points at attractive rates. **With the Plug & Charge function⁽³⁾**, you no longer need to use a pass or credit card, Renault 4 and the charging station recognise each other: simply plug in your vehicle and charging starts automatically. You are invoiced directly, with no action required.
- up to 100kW DC rapid charge

Get from 15% to 80% of motorway driving time in 30 minutes^{*(4)} at a DC rapid charging point with a power output of up to 100 kW.
- My Renault app

Locate the public charging points closest to your destination.

download the My Renault app

(1) Mobilize power solutions offering. For more information about Mobilize services, go to the Mobilize services page. For more information about charging call: 0800 032 0567. (2) all versions are up to 11 kW AC. (3) Plug & Charge feature only works on compatible DC fast charging stations, expected to be available during 2025 and accessed free of charge via the Mobilize charge pass. (4) all versions are able to charge up to maximum 100kW DC 15-80% in 30mins based on wltp, figures shown are for comparability purposes only. Charging time may vary depending on charging conditions, including charger type and condition, on-site power usage, battery temperature as well as ambient temperature at point of use, battery age and state of charge, and if battery safeguarding technology is activated. Rapid chargers only available on public charger network - visit My Renault for coverage details.

configure and order →

52 kWh battery for a maximum range of up to 247⁽⁵⁾ miles
15 to 80% → 5hrs 11 | 15 to 80% → 9hrs 48 | 15 to 80% → 17hrs 13 | 15 to 80% → 3hrs 13 | 15 to 80% → 30 min

(1) single-phase AC; up to 7.4 kW and on three-phase cable; up to 11 kW. Renault 4 has maximum 11 kW AC charging. (2) Mobilize power solutions offering. For more information about Mobilize services, go to the Mobilize services page or call 0800 032 0567. (3) Renault 4 can only be recharged up to 11kW on the 22kW charging point. (4) Renault 4 can charge up to 100kW on the DC charging point (5) charging times are expectations and are subject to change. *only found on the continent. The maximum power and charging times given are based on optimal charging conditions for the vehicle and the charging point (peak power). Maximum power accepted by the battery (mainly in DC charging) varies depending on the battery's state of charge and the exterior temperature.

simulate driving range and charging time

Renault 4 – a source of energy

Renault 4 has bidirectional functionality, meaning the energy stored in its battery can be redistributed. This capability allows it to power electrical devices through vehicle-to-load (V2L) technology.

Your Renault 4 can act as a power source with the vehicle-to-load (V2L)⁽¹⁾ functionality, allowing you to charge or power your electrical devices⁽²⁾.

Renault 4 charging at home

Connect your Renault 4 at home using the approved Mobilize wallbox. In the My Renault app, simply set the time you'd like your vehicle to be charged by, and the desired charge level. For example, you can schedule your Renault 4 to be 80% charged by 8am the next morning - ready for your commute.

Renault 4 smart charging

Try the free Mobilize Smart Charge app, smart charging management to get electricity at the best price, and save on charging at home.

Renault 4 is charged up

Renault 4 is recharged by the time for which you scheduled it the day before, so that you can drive with peace of mind.

(1) vehicle-to-load, from the vehicle to your electrical devices. Power distributed to electrical appliances: 3.7 kW. (2) vehicle-to-load adaptor is required to make use of this functionality. Adaptor comes as standard for some versions, otherwise can be purchased as an aftersales accessory. See equipment list for more details.

07. advanced driver-assistance systems

26 advanced driving-assistance systems⁽¹⁾

intelligent adaptive cruise control
Adapts speed according to traffic and your preferences. Analyses the road to control your speed automatically by anticipating turns and roundabouts.

active driver assist
Taking the road and its surroundings into account, it controls your speed and keeps the vehicle in the centre of the lane.

automatic emergency braking system
Monitors and reacts to prevent collisions with pedestrians, cyclists and vehicles. This system helps you better manage your environment.

forward detection with emergency lane keep assist
Warns of imminent collision risks when changing lanes and automatically corrects course.

occupant safe exit alert
Warns of danger if, when stationary, you or a passenger opens one of the doors while another vehicle pops up.

parking aids including hands-free parking
Once a suitable parking space has been detected, the system takes control of the steering. You remain responsible for your Renault 4's speed.

human first program is a comprehensive safety programme developed by Renault in collaboration with researchers, experts and fire services.

Because road safety concerns all road users, whether pedestrians, cyclists or motorists, human first program by Renault is committed to:

1. preventing accidents by developing safety equipment and advanced driver assistance and safety systems:

up to 32 advanced driver assistance systems / over 60 safety equipment, up to 7 airbags, child seats (Isofix), Renault Fixe4sure solution / more than 2,000 safety-related patents filed since 1970

2. dealing with accidents based on innovations developed with fire services

QRescue / Fireman Access / more than 5,000 firefighters trained over 10 years in 19 countries around the world / around 400 cars donated per year for their training

3. reducing the number of accidents and their severity by investing massively in R&D:

safety score / safety coach / connected services / big data / artificial intelligence and cybersecurity systems

[learn more about the human first program](#)

glossary

E-Tech

100% electric, hybrid or plug-in hybrid technology developed by Renault.

regenerative braking

Energy recovery system during braking, which increases the vehicle's driving range: whenever the vehicle slows down, part of its kinetic energy is converted into electricity. The battery recharges when the driver lifts their foot off the accelerator pedal or presses slightly on the brake pedal.

reinforced domestic socket

A home charging solution that is more efficient than a simple domestic socket. Allows for more powerful (3.2kW for a reinforced socket vs 2.3kW for a standard socket) and more secure charging (fitted with a differential circuit breaker).

home charging station

Delivers a much higher intensity than a standard domestic socket, for more efficient and faster charging. It enable safer home charging thanks to its systems for controlling charging and protecting against overvoltage.

flexi-charge

Charging cable that can be used to plug a car into a domestic power outlet. Designed for occasional home charging, the flexi-charger should preferably be plugged into an electrical socket connected to a specific earth connection.

mode 2

For domestic use, this cable is needed to charge an electric vehicle using conventional sockets.

mode 3

This cable is needed to charge the electric vehicle on a wallbox or with public infrastructure.

useful capacity

Amount of energy contained in the battery that can be used by the vehicle. Value expressed in kilowatt hours (kWh).

kWh

Abbreviation for kilowatt hours. Unit of energy which corresponds to 1 kW of power consumed over one hour.

kW

Abbreviation for kilowatt. Unit used to measure the power of a vehicle's engine, whether it is electric or powered by an internal combustion engine. The kilowatt measures the direct current (DC) or alternating current (AC) charging power.

AC charge

Low to medium power alternating current charging (max. 22 kW). This is the charging method most commonly found in homes or at most public charging points.

DC charge

Rapid direct current charging (min. 50 kW). Requires a specific fast charging station, available only on the public network

My Renault

Renault app connected to your vehicle that can be downloaded onto your phone from Google Play or the App Store. You can use it to locate nearby charging stations, find your vehicle, schedule charging and plan your journey in advance, as well as to display remaining range and preset the temperature of the passenger compartment.

heat pump

Equipment used to heat the passenger compartment of your electric car. The heat pump significantly reduces your electricity consumption and maximises your driving range when outside temperature is less than 15°C. Mobilize, services to make your electric life easier

kWh/100 km

Unit of measurement for the average consumption of energy of an electric or plug-in hybrid car over a distance of 100 km. It is the equivalent of "litres per 100 km" used for internal combustion engine vehicles.

WLTP

Worldwide harmonised Light vehicles Test Procedure. This protocol defines the exact conditions under which vehicle tests are carried out, irrespective of the manufacturer, making it possible to share and compare information that is important to consumers and legislators, such as fuel or electricity consumption, the range of electric or rechargeable hybrid vehicles, and pollutant emissions that are much closer to everyday use.

Mobilize, services designed to make your electric life easier

Enjoy a completely practical and efficient electric experience: installation of a charging point at your home as soon as you purchase the vehicle, support services delivered via your mobile and a card for accessing and paying for the use of European charging points.

Mobilize power solutions

Installation of home charging solutions.

Mobilize charge pass

Easier payment and location of charging points.

discover Mobilize solutions

Renault care service

We are always at your side to make the driving experience easier and save you time with the maintenance of your Renault: online quotes and appointments, fixed-price packages, maintenance contracts, insurance and assistance, personalised My Renault programme... Take advantage of our simple and fast solutions tailored to your needs.

Thanks to the connected maintenance service, you will be notified when the scheduled maintenance of your vehicle is due and proactively alerted when it requires a workshop visit. You can also view the health of your vehicle in real time in your My Renault space. Renault has also developed systems for predicting the wear of parts. This way, the customer is kept informed of the condition of their vehicle's brakes or battery, and is prompted to replace them if necessary.
