

HI
DAILY!
WHAT'S
NEW?

IVECO
BUS

Your partner for sustainable transport

**NEW DAILY.
TRAVEL SMARTER.**

The Daily Minibus strides ahead once again in its evolution, introducing new adaptive and intelligent solutions to become your true companion in business success.

The new Daily AIR-PRO family breaks new ground with an industry first, the innovative pneumatic suspension with smart electronic controls, which is easily controlled with a joystick, enhances your driving comfort, protects you and your passengers and adapts to your work.

The Daily Minibus enables you to interact vocally with your vehicle, so you can enjoy a safe, stress-free and comfortable driving experience while your business benefits from its greater efficiency.

The Daily Minibus continues to make advances in connectivity with a constantly expanding array of highly personalised services precisely tailored to your use of the vehicle and your requirements.

The Daily Minibus has been a favourite travel companion for more than 40 years, always providing a first-class travel environment. True to its heritage, it leverages technology to constantly adapt to you and the conditions of your job, raising your living and driving experience to the highest levels in the industry.

HI DAILY! WHAT'S NEW?

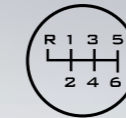

SUPREME COMFORT DRIVER SEATS

- Memory foam seat, backrest and headrest
- Increased comfort and reduced fatigue
- New seats style and textile
- Redesigned side carter and lever for easier exit
- Bigger and more contentive seats

IVECO DRIVER PAL THROUGH AMAZON ALEXA

- The vocal driver companion
- Smart microphone enabling Amazon Alexa features
- Exclusive MYIVECO skill for vehicle status check, assistance & navigation
- MYCOMMUNITY skill enabling multilanguage communication among drivers

NEW MANUAL GEARBOX

- Best-in-class for precision; free-play reduced by 50%
- No gearbox oil change
- Reduced shifting effort

AIR-PRO SUSPENSION

- Easy control with intuitive switch and TFT graphics
- Continuous self-adapting balance strategy
- Roll angle reduction in bends for more safety
- Less vibration for comfort and stability

OPTIMIZED ENGINES

- 3.0-litre engine with up to 207 hp
- NOx reduced in Real Drive Conditions
- Beyond Euro 6 regulation requirements

UNLIMITED VERSATILITY

- Matching all passenger transport missions from city to school transport, shuttle, tourism, and interurban journeys
- GVW up to 7.2 tons
- CNG version compatible with bio-methane for zero carbon emissions

ENGINEERED TO PERFORM

Whatever your mission, with the Daily Minibus you get the job done efficiently. The 3.0-litre engine is a highly fuel-efficient engine optimised for top performance in every assignment. It is offered in 2 different power ratings from 176 to 207 hp and torque up to 470 Nm. The engine is also available in Compressed Natural Gas version.

The entirely redesigned after-treatment system with double SCR technology maintains the extensive body-fitting possibilities of previous models. It ensures Euro VI-E and Euro 6-D Final compliance with a Conformity Factor of 1 – which means compliance for life in real conditions – ahead of future regulations.

PRECISION SHIFTING

The **new manual gearbox** offers an excellent driving experience with best-in-class shiftability and precision. Free play has been reduced by 50% compared to previous models. It requires no oil change for 350,000 km, further lowering the Daily's TCO.

STATE-OF-THE-ART SHIFTING COMFORT

New transmission shifter
Optimized synchronization system

BEST-IN-CLASS FOR PRECISION

Specific feature in new transmission shifter system

IMPROVED EFFICIENCY

New bearings and sealings and enhanced lubrication system

NO OIL CHANGE for 350,000 km.

New full synthetic oil

EXCELLENT TORQUE-WEIGHT RATIO

(8.8 Nm/kg)
Minimized weight and increased input torque

The new FT 50.6 Manual Gearbox

HI-MATIC

ABSOLUTE DRIVING PLEASURE

The Daily Minibus exclusive HI-MATIC 8-speed automatic transmission is available across the range, delivering all the benefits of comfort, safety, fuel economy and performance.

You can also enjoy all these advantages, together with the sustainability and low TCO of IVECO's CNG technology.

THE INTELLIGENT SUSPENSION

The Daily Minibus revolutionary AIR-PRO suspension continuously adapts to driving conditions and reacts almost instantly to road disturbances, providing a uniquely safe and smooth ride for you and your passengers.

A dedicated switch on the dashboard and new TFT graphics make it easy to manage the entire system at the touch of a finger.

NEW DAILY
AIR X PRO

YOU ARE IN CONTROL

DYNAMIC CONTROL

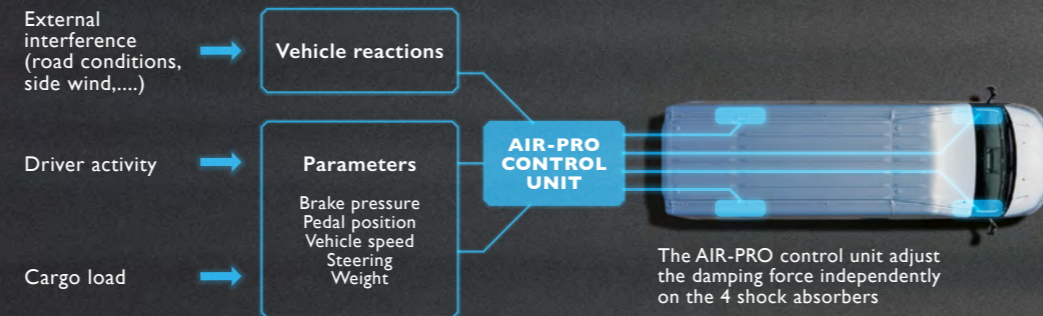

You choose how you want the suspension: a softer setting for a comfortable ride, or maximum roll control for top performance with a maximum capacity of passengers. You easily manage the intelligent system with the ergonomic rotary switch.

STATIC CONTROL

The new Daily Minibus AIR-PRO lowers and rises at the touch of a finger in less than 10 seconds. Quickly adjust the height so you don't waste any time.

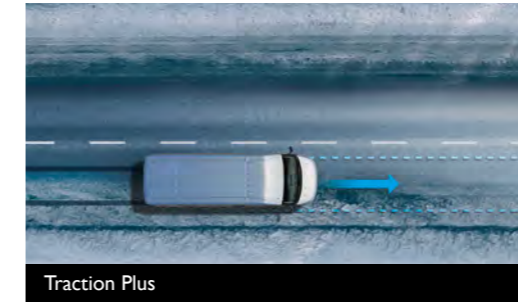

ADAPTIVE AIR-PRO STRATEGY

The unique AIR-PRO Continuous Damping Control (CDC) unit reacts almost instantly to road disturbances, calculating every 10 milliseconds the ideal pressure on each shock absorber to deliver the best dynamic reaction.

A SAFE, STRESS-FREE DRIVING EXPERIENCE

The Daily Minibus Advanced Driver Assistance Systems help you in tricky situations and take the stress away when driving in heavy traffic. You enjoy the benefits of much reduced daily fatigue and greater safety.

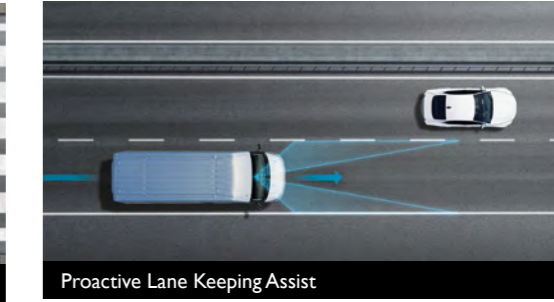

Traction Plus

KEEP A FIRM GRIP ON SLIPPERY ROADS

AEBS and City Brake Pro

AVOID COLLISIONS IN URBAN TRAFFIC

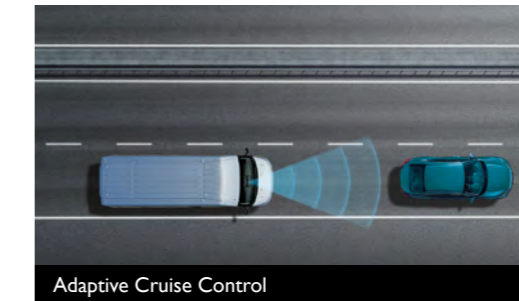

Proactive Lane Keeping Assist

ALWAYS STAY IN YOUR LANE

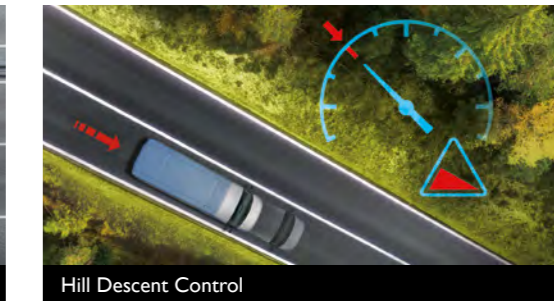

Crosswind Assist

REMAIN STABLE IN CROSSWINDS

Adaptive Cruise Control

CRUISE SAFELY ON THE ROAD

Hill Descent Control

DRIVE SAFELY DOWN STEEP SLOPES

Queue Assist

ENJOY STRESS-FREE HEAVY TRAFFIC

SUPREME DRIVING PLEASURE

The new HI-ADAPTIVE seats are designed to adapt to the driver providing the ultimate luxurious comfort on the longest working days.

The Daily is the first minibus featuring both seat and back rest in memory foam, which spreads your weight evenly and reduces pressure peaks by up to 30%.

The head rest, also in memory foam, absorbs more energy in case of collision, reducing the whiplash effect.

First designed for NASA airplane seats, memory foam is highly energy absorbent and soft; it moulds to the body, distributing body weight evenly and protecting against impact.

1. The central pads of the cushion and back rest, and the head rest – all in memory foam – mould to your shape, providing supreme comfort and protecting you from back pain.

2. The foam of the side sections has been optimized in density and lengthened by up to 15 mm to improve containment.

3. The front cushion, 20 mm longer and 15 mm thicker, provides better support for the legs of taller people.

4. The side carter and lever have been redesigned to make it easier for you to get in and out of the vehicle.

SUPREME SEATING COMFORT

Memory foam in the seat and back rest and even the headrest ensure maximum comfort.

EASY, CLEAR INTERACTION

The high-resolution colour display cluster provides a user-friendly, intuitive interface that makes it extremely easy to interact with your Daily Minibus and access all the key settings of your vehicle in real time.

PARKING COMFORT AND EFFICIENCY

The Electric Parking Brake automatically engages when parked and disengages when you are ready to drive away. A real time saver in urban multi-stop missions such as parcel delivery.

SUPERIOR DRIVING COMFORT AND ERGONOMICS

The Daily Minibus steering system can be adjusted both in axial and angular position to set up the perfect driving position for better comfort and ergonomics.

SMOOTH, EFFORTLESSLY MANOEUVRABLE

The Electric Power Steering is very precise and reactive to the driver's inputs. The unique City Mode feature further reduces the effort required to steer by as much as 70%.

DAILY HI-MATIC

ABSOLUTE DRIVING PLEASURE

IVECO's **8-speed automatic gearbox** is designed to provide absolute driving pleasure: with the ergonomic multifunctional shift lever you are **fully focused on the traffic and driving conditions**, so you enjoy greater safety while driving comfortably.

Enjoy the legendary durability and reliability of the Daily Minibus with a solution that protects the engine and the driveline reducing maintenance requirements.

Choose from the extra wide engine offering. The Daily HI-MATIC offers an extensive horsepower ranging from 136 to 207, providing a solution for every mission.

Sustainable driving pleasure powered by Compressed Natural Gas. The HI-MATIC absolute driving pleasure is available across the Daily Minibus CNG range, offering all the performance, efficiency and comfort benefits of the Daily HI-MATIC together with the sustainability and low TCO of IVECO's natural gas technology.

Benefit from the Daily HI-MATIC's exceptional fuel economy with a choice of **ECO and Power Modes** and the **Start & Stop** feature. The transmission's self-adaptive shift strategy ensures the correct gear is engaged smoothly in less than 200 milliseconds. The wide ratio spread means the engine is always running in the optimal gear.

ON-BORAD WELL BEING AND COMFORT

The Daily Minibus offers a wide range of solutions in terms of technology and style fully dedicated to passenger comfort: attractive interior design, numerous seats layouts with the wide selection of fabrics, configurations with the wheelchair space for the full accessibility, air conditioning and diffusion systems delivering an outstanding comfort.

The lowered luggage compartment in the tourism version with up to 2,5 m³ capacity and the internal luggage racks aim to have the best-in-class total luggage compartment of its category for all transport needs.

All the Daily's Advanced Driver Assistance Systems make travelling on board even more enjoyable and relaxing for both passengers and driver.

DAILY MINIBUS CNG

SUSTAINABILITY CHAMPION

The Daily Minibus CNG is the perfect partner for your green people transportation business - whatever your mission.

Free your mind from the constraints of environmental regulations to make unlimited journeys and to travel in city centres and high-traffic areas.

Shrink your carbon footprint with near-zero CO₂ emissions by fueling your Daily Minibus CNG with biomethane.

Power up your business with the powerful and responsive performance of the 136 hp and 350 Nm torque of the 3.0-litre CNG engine.

DAILY MINIBUS HI-MATIC CNG: SUSTAINABLE, ABSOLUTE DRIVING PLEASURE

Break new ground in comfort and sustainability with the first Natural Gas-powered vehicle in its class with an 8-speed automatic gearbox.

Boost your fuel economy by combining the HI-MATIC transmission and CNG engine.

ENDLESS OPPORTUNITIES

A DAILY MINIBUS FOR EVERY NEED

The extensive range of the Daily Minibus is able to meet a wide variety of requirements for different passenger transport missions:

Tourist mission for traveling with comfort and style, city mission with urban and peri-urban mobility solutions to make the entire city accessible.

In total, the new Daily Minibus is available in more than 380 factory versions for built up models, resulting from the combination of its product variants: types of wheelbase, gross vehicle weight levels, different power outputs, gearboxes, suspensions and height.

SUSTAINABLY POWERFUL

The Daily Minibus is more powerful and environmentally friendly with the new 207 hp engine, and offers a choice of different engine types: Diesel, Natural Gas.

THE STYLISH COMFORT OF A DAILY JOURNEY

With the innovative styling of the exterior and the new interiors, passengers travel in a stylish environment enjoying luxurious comfort.

UNLIMITED VERSATILITY

The extensive line up of the Daily Minibus, which can carry up to 35 passengers, means there is a model for every people transport mission:

- **Tourist mission** for travelling with comfort and style
- **Intercity mission** with a category-leading passenger capacity
- **Shuttle buses** for airport and hotel services
- **School buses** specifically designed for student transport
- **City mission** with urban and peri-urban mobility solutions

IVECO ON IS THE NEW WORLD OF INTEGRATED SERVICES AND TRANSPORT SOLUTIONS.

The services offered under IVECO ON are organized in five clusters:

- **FLEET**, for efficient fleet management through fuel consumption and driver monitoring.
- **UPTIME** to keep the vehicle on the road, avoiding unforeseen breakdowns and providing roadside assistance.
- **CARE** specific vehicle monitoring and reporting, and the assistance of your IVECO DRIVER PAL voice companion will leave you free to focus entirely on your work with no worries while on the road.
- **MAINTENANCE AND REPAIR** for specialised assistance with a choice of tailored service contracts.
- **PARTS** with original IVECO parts and accessories to choose from to enrich any IVECO vehicle.

SMART PACK

The **SMART PACK** offers the benefits of IVECO ON CARE and IVECO ON UPTIME provided with the following services:

SMART REPORT: the Driving Style Evaluation (DSE) algorithm generates weekly reports on the vehicle's and driver's performance with tips on how you can improve the driving style for fuel and vehicle optimisation.

SAFE DRIVING REPORT: together with the Smart Report and thanks to the Driving Style Evaluation, you will now receive this new report that will allow you to measure your safety on board.

IVECO ON CUSTOMER PORTAL AND APP: they enable you to monitor your vehicle's fuel consumption and your driver's driving style in a dynamic way, so you can identify how to optimise your fleet's performance.

You can also plan and book service appointments efficiently to maximise uptime.

VEHICLE MONITORING AND REMOTE ASSISTANCE: the proactive approach enabled by the remote diagnostics tool, teleservices and over-the-air software updates will anticipate possible faults, maximising your vehicle's uptime.

PREMIUM PACK

The **PREMIUM PACK** offers all the services included in the SMART PACK, plus the full benefits of IVECO ON CARE, UPTIME, FLEET and M&R. It guarantees a follow up on the vehicle information received by putting you in contact with IVECO experts who will advise you on the best way to use it.

FLEET MANAGEMENT helps you monitor your vehicles' fuel consumption and your drivers, as well as planning their day-to-day activity.

IVECO WEB API: the Application Program Interface allows flexible data integration in your own systems and facilitates the management of IVECO-generated data together with that of other brands' vehicles in a single tool.

SAVE MONEY, IMPROVE YOUR PERFORMANCE and SIMPLIFY YOUR WORK with the connectivity solution that is the best match to your requirements.

FIND OUT MORE ABOUT THE COMMERCIAL PACKAGES YOU CAN CHOSE YOUR SERVICES FROM.

SERVICE SOLUTIONS

ELEMENTS: CUSTOMISED SERVICE PACKAGES

With the aim of offering you the best of everything, IVECO has created ELEMENTS: tailor made service packages, designed to keep your vehicle on the road with minimal interruptions for maintenance and repairs.

Choose your Planned Maintenance Contract and Extended Guarantee, by combining the major Elements that make up the offer (Maintenance, Drive Line, Extra Drive Line, Wear) that perfectly suits your business.

- Brake linings for drum brakes

ENHANCE YOUR DAILY EXPERIENCE

Accessories help you in personalized your workplace «in movement» making you feel at ease in every situation. Customize your Daily Minibus enhancing technology, comfort, safety, and efficiency thanks to IVECO full range of accessories fully designed for it.

COLLABORATION & TECHNOLOGY ON BOARD

Integrate your mobile workstation with the most up-to-date technology. The new Wi-Fi Apple and Android CarPlay System is a smarter, safer way to use your phone while you drive. You can get directions, make calls, send and receive messages, and enjoy your favorite music. All on your built-in new 9" display which can be match with reversing cameras to have a complete system for both VAN and CAB.

The Smartphone cradle perfectly fits the dashboard and thanks to the Qi technology you can recharge wireless your smartphone.

DRIVING EXPERIENCE & PROFITABILITY

Choose from a great set of accessories to improve vehicle efficiency. The new wiper blade system with the Aquablade technology is a flat blade with integrated washing function distributing fluid on the windshield all along the blade for a more efficient and precise cleaning.

A 100% LED light with the peculiarity of being able to be installed both on the left and right side, simply by turning the lens.

ALWAYS SAFETY

A tailor-made presence detection system developed and tested with engineering allows you to perceive whether the presence of an obstacle is in the blind spot. The system continuously detects the presence thanks to radars positioned under the rear bumpers and alerts the driver with a display positioned inside the cabin.

New Illuminated side protection bars, made of stainless steel prevent damage to the side of the vehicle and chassis. The doors can still be opened even after lateral impact.

FITTING YOUR MISSION

Complete your vehicle dressing up externally and internally choosing from a wide range of luggage racks made of lightweight corrosion-proof aluminum that are easy to install. Add to rack tube holder, beacon holder and floor platform for the best versatility.

More over for a complete care of the cabin you can select the most suitable mats and new seat covers for your activity.

You can also find the complete accessories line offering in the Accessories Catalogue and in the on-line catalogue using the following link: <https://www.iveco-power.com/next-power/home>

IVECO SERVICES

IVECO CAPITAL

IVECO CAPITAL is the financial services brand of IVECO and offers a full range of financing, leasing, rental and ancillary services for commercial vehicles – extended warranty, maintenance and repair services, and various types of insurance can be included in the pack.
